# How to Place Out-of-Town Calls

There are two general classes of Out-of-Town Calls, namely Station-to-Station and Person-to-Person, which are explained below for your convenience.

## Station-to-Station Calls

(From One Telephone to Another)

A station-to-station call is one on which you ask to be connected with a certain telephone in some distant place. However, if you ask for a particular person at that telephone or for an extension telephone reached through a private branch exchange, as one in some department or hotel room, the call takes the person-to-person classification.

## To Place a Station-to-Station Call

**First**—Give the operator the name of the place you are calling.
**Second**—The telephone number you are calling (if known), otherwise, the name and the address (if known) of the party whose telephone you are calling. For example: J. W. Brown's Residence—425 Main Street.
**Third**—Your telephone number when the operator asks for it.

## Features of Station-to-Station Calls

1. A station-to-station call is completed more quickly and the rate is less than for a person-to-person call.
2. The rate is further reduced every night from 6:00 P.M. to 4:30 A.M., and all day Sunday, if the initial day station-to-station rate exceeds 35 cents. The time of day at the originating point when the conversation starts determines whether the day or night rate applies.
3. The initial period is three minutes when the rate is more than 25 cents, after which charges for additional time apply. The initial period is five minutes when the rate is 25 cents or less, after which charges for additional time apply.
4. Charges begin when the called telephone is answered, provided the calling party is holding the line.
5. Charges may be reversed without any change in rate when the rate is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

## Person-to-Person Calls

A person-to-person call is one on which you ask for a particular person or for an extension telephone reached through a private branch exchange, as one in some department or hotel room.

## To Place a Person-to-Person Call

(From One Person to Another)

**First**—Give the operator the name of the place you are calling.
**Second**—The name and the telephone number (if known) of the person you are calling, otherwise, the name and the address (if known) of the called party. For example: Mr. J. W. Brown, at telephone 2470, or Mr. J. W. Brown, at J. W. Brown's Residence—425 Main Street.
**Third**—Your telephone number when the operator asks for it.

## Features of Person-to-Person Calls

1. The rate for a person-to-person call is higher than the rate for a station-to-station call.
2. The rate is reduced every night from 6:00 P.M. to 4:30 A.M., and all day Sunday, if the initial day rate exceeds 50 cents. The time of day at the originating point when the conversation starts determines whether the day or night rate applies.
3. The initial period is three minutes, after which charges for additional time apply.
4. Charges begin when the called person or extension telephone reached through a private branch exchange is obtained, providing the called party is holding the line.
5. Charges may be reversed without any change in rate.

## Collect Calls

If the charges on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone.

# General Information and Regulations

**APPLICATION FOR SERVICE**—The initial application for telephone service must be made on the Company's standard application form and signed by the applicant or his duly authorized agent, to whom service is to be billed. Application for additional service may be made either orally or in writing, and is considered as forming a part of the initial application. The Company reserves the right to refuse service to any applicant that is found to be indebted to the Company for service previously rendered.

**ERRORS IN DIRECTORY LISTINGS**—The Telephone Company issues directories to assist in furnishing prompt and efficient service and it does not guarantee to its subscribers correct listings therein. Every precaution is taken to prevent errors in and omissions of, directory listings but they may occur and the Telephone Company will assume no liability for damages caused to a subscriber because of such errors or omissions. Likewise, the Telephone Company will not be a party to controversies arising between subscribers or others as a result of listings published in its directories.

**MAINTENANCE**—All ordinary expense of maintenance and repair, unless otherwise specified in the Company's schedule, is to be borne by the Company. If any instrument or piece of apparatus is destroyed or injured otherwise than by unavoidable accident, the subscriber is to pay the actual cost of replacing or restoring the same to its original condition.

**EXCESSIVE USE OF PARTY LINE**—In consideration of the rate at which party line service is furnished, the Company reserves the right to discontinue service and remove its instruments and lines upon ten (10) days' written notice, whenever the duration or number of messages from a party line subscriber's station prevents an equitable proportionate use of other subscribers' stations associated on the same line.

**LIMIT TO USE OF PARTY LINES**—Continuous use of a party line by any station on the line must be limited to five minutes, whether the party using the station made the call or was called.

**TELEPHONE NUMBERS**—The subscriber has no property right in the telephone number, and the Company reserves the right to change the call number whenever it is deemed desirable in the conduct of its business.

**OBJECTIONABLE LANGUAGE**—The subscriber shall not use, or permit to be used, profane, obscene or abusive language, or impersonate any other individual with fraudulent intent over the wires connected with his instrument, or use the same for any unlawful purpose.

**SECURITY DEPOSITS**—The Company may require from subscribers in all cases where it is considered necessary, a cash deposit or other satisfactory security in such amount as will in its judgment insure as far as may be practicable the payment of bills for telephone service rendered.

**REGULATIONS AND TARIFFS**—The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the local Business Office. A representative of the Company will gladly lend assistance in securing information from such regulations and tariffs.

# Calls from a Party Line Where a Crank Is Used

Before ringing the operator, remove the receiver and listen to make sure the line is not in use. To get the operator, replace the receiver and turn the crank. When through talking, promptly hang up the receiver and turn the crank again so that the operator will clear your line for further use.

# Use of the Dial Telephone

After obtaining the correct number from the directory, remove the receiver. Almost immediately a steady humming sound, called the dial tone will be heard which lets you know that the central office equipment is ready to receive your call.

## How to Dial

Dial each figure of the number you are calling in the order shown in the telephone directory. Take for example, the dialing of number 2841. After hearing the dial tone, place the forefinger firmly in the dial opening through which the figure "2" is seen. Turn the dial around in a clockwise direction until your finger strikes the finger stop. Remove your finger and let the dial return to its normal position without forcing or retarding its movement. The remaining figures 8, 4 and 1 may be dialed in a similar manner. If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

## Service Signals

**Dial Tone,** a steady humming sound indicating that the central office equipment is ready to receive your call. Do not attempt to dial before hearing this tone.

**Ringing Signal,** this is a "burring" sound, heard at regular intervals indicating that the bell of the called telephone is ringing.

**Busy Signal,** this is a "buzz-buzz-buzz" heard when the line of the called telephone is in use.

## Use of Party Lines

If, when you remove your handset and hear successive clicks, this indicates that another party on your line is dialing. Please replace your handset and attempt your call a little later.

In case you do not hear the dial tone and no one seems to be using the line, inquire whether or not the line is in use. Hearing no response, replace your handset for a few seconds, then remove it and the dial tone should be heard.

## To Call Another Party on Your Line

Proceed to dial as you would calling any other party, and when you hear the busy tone replace your handset a few seconds. Allow time for the called party to answer before removing handset, the other phone can't ring if your handset is off. If your party doesn't answer it will be necessary to hang up and dial again.

## How to Determine Parties on Your Own Line

With the exception of the last digit, the telephone numbers of all parties on your line will be the same. Should other subscribers be placed on your line, their first three digits will be the same as yours, followed by a single digit not already assigned.

## Pay Station Operations

**Local Calls** may be dialed without depositing a coin. Dial the desired number in the usual way.

## Long Distance

Dial 0. The Long Distance Operator will take your call. DO NOT DEPOSIT MONEY until operator requests it.

**Keep the handset in its cradle when your telephone is not in use. Otherwise, your line will be out of order.**

## TO PEOPLE ON PARTY LINES:

A party line can be a friendly and satisfactory means of sharing the cost of telephone service. But, as in all partnerships, there must be some give and take among the people concerned.

You can do your part by trying not to carry on conversations which last an unnecessarily long time. We're sure you'll find that the golden rule goes a long way on a party line.

# Perpetual Advertising

## That's What Telephone Directory Advertising Is

**Always on Duty**
**Morning, Noon**
**and Night**
**All the Year Round**

**When you call**
**Long Distance**

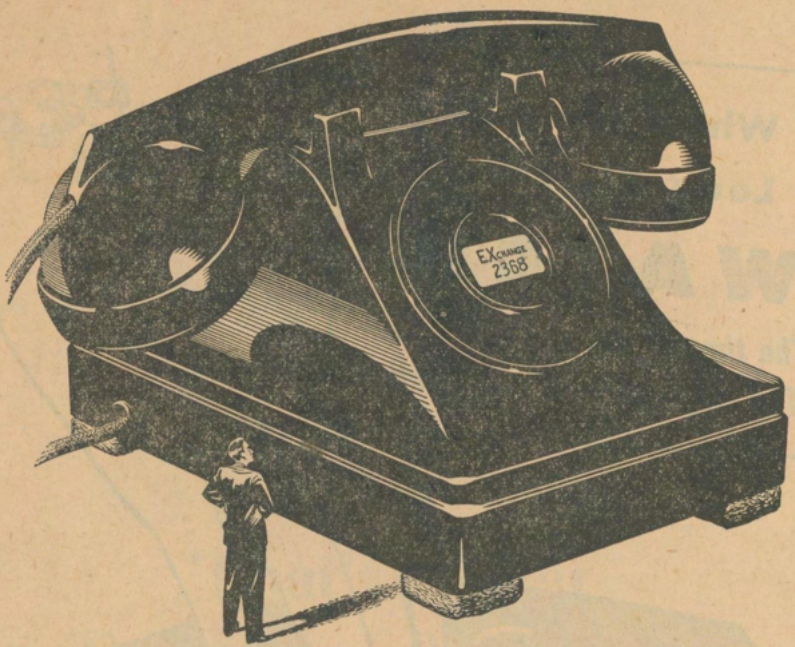

# WATCH

★ *The time of day you call*
★ *The length of your conversation*

**Because long distance lines still are crowded, it is wise to avoid the peak periods when you make out-of-town calls. Busiest hours are between 9:30 and 11:30 a.m. and between 2 and 3:30 p.m.**

**By placing your long distance calls during the less crowded hours, you'll get better service and help ease the pressure during the rush periods.**

# If the telephone grew in **SIZE** the way it's growing in **VALUE**...

It's a good thing we don't have to make our telephones bigger every time we make it possible to call more people. Our customers would have to move out of their houses to make room for the telephone.

Except for the increasing size of their directory, many folks do not realize how the telephone system is growing.

Each new telephone we add means someone else who can be called by our customers. It means more errands it can run, more jobs it can do for them. The telephone is getting more valuable every day.
