...where Craftsmen still care©

The West Bend Company, West Bend, Wisconsin
West Bend of Canada, Ltd., Barrie, Ontario

©COPYRIGHT 1968, THE WEST BEND COMPANY, WEST BEND, WISCONSIN

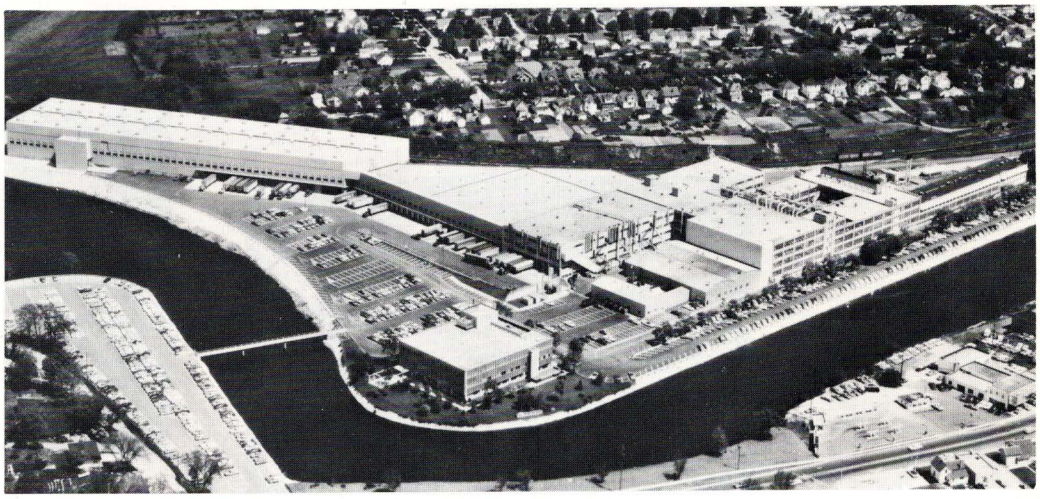

Only through the superior performance of West Bend products in the hands of a customer, can you as a dealer, or we as a manufacturer, hope to grow and prosper.

To that end, West Bend designs and manufactures quality cookware and appliances and proudly establishes, in its advertising, the quality-mark " . . . where craftsmen still care". It is your guarantee that West Bend's line will always measure up to the expectations of your customers.

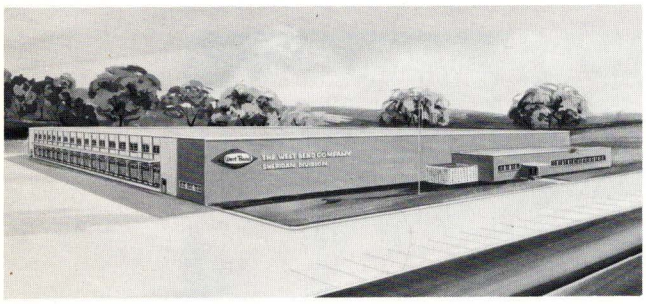

You are urged to take full advantage of our merchandising aids, displays, sales promotion materials, advertising programs and the counsel of our field representatives. Case histories are available on many success stories of West Bend promotions.

It's our business to help expand your business — through more satisfied customers.

Production and Testing Facilities

A.

B.

C.

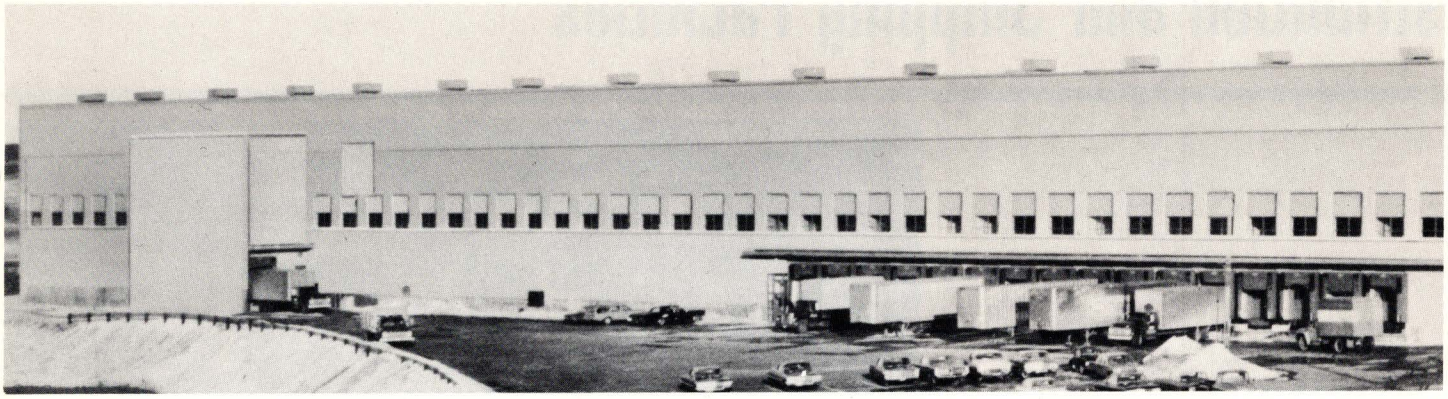

D.

A. DRAW PRESSES Sixty mechanical, hydraulic and air presses — from 25 to 1,000 ton capacity — form the many basic shapes and sizes from steel and aluminum for West Bend's cookware, giftware and appliance lines. Work moves smoothly, efficiently from press to press until drawing is complete.

B. PRODUCT ASSEMBLY LINE Products advance from the draw press line in successive stages of finishing, final assembly, testing and packaging.

C. TWO OF SEVERAL TEST PANELS to assure high, uniform quality of the finished product.

D. PERFORMANCE STANDARDS of new products —and those already in production—are tested and checked in the Home Service Test Kitchen.

Prompt customer service is the theme of West Bend Distribution Center . . . big enough to house four football fields

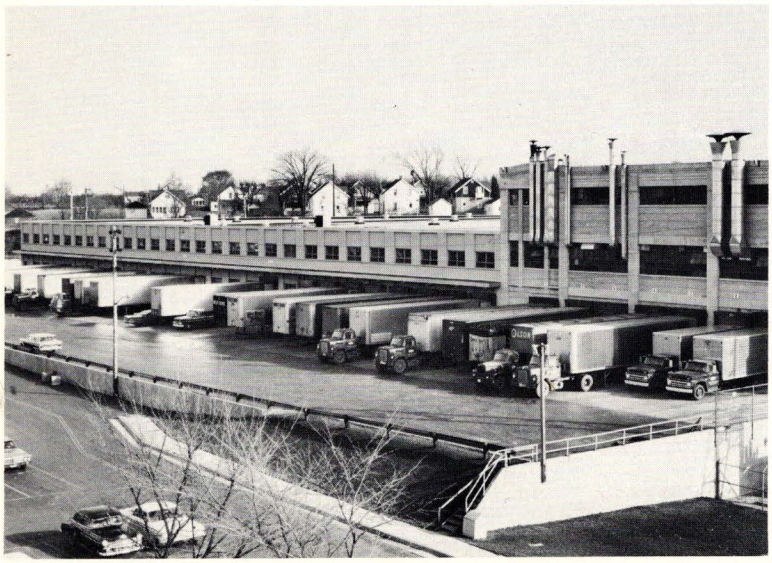

One third more shipping capacity, over twice as much warehouse capacity is provided by this new 200,000 square foot addition, made necessary by the increasing demand for West Bend products. Total area devoted to distribution activities at the West Bend plant now is nearly 400,000 square feet, including 1964 addition shown below, making the West Bend shipping operation unsurpassed in the industry in efficiency.

Efficiency is the key to West Bend's modern, new distribution center and the operation it houses

In an effort to speed distribution and provide fast, efficient order-handling, an improved system involving three major changes was adopted. A rail storage and order selection area was set up, a new conveyor system and Guide-o-matic "trains" were installed.

Order carts travel automatically throughout the entire order assembly area allowing West Bend to handle a greatly increased number of customer orders per month. Guide-o-matic "Trains" (Shown below) are automatically programmed to haul merchandise, cartons, and shipping supplies throughout the first floor Distribution Center.

100,000 sq. ft. addition completed in 1964

Guide-o-matic "Trains"

Distribution and Shipping Facilities

INDOOR CAR LOADING

Indoor car loading area enables the firm to load at top efficiency despite inclement weather outside.

Automated for fast ordering service

AUTOMATIC TOW-LINE CONVEYOR FOR FAST ORDER ASSEMBLY

Automation has cut in half the time it takes West Bend to fill a customer's order.

Order carts, dispatched on the automatic tow-line conveyor, are drawn along and automatically switched into position for quick, easy loading at one or more of the nine assembly areas. Filled carts are automatically routed to check stations and transferred to truck and carloading docks for shipment. The arrangement has cut order filling time by 50% and enables West Bend to handle a far greater number of customers per month.

The new West Bend distribution center is the hub of a national and world-wide traffic system. Within the network are shipping and forwarding points at West Bend and Rockfield, Wis., Sheridan, Ark., Anoka, Minn., Barrie, Ontario, Canada, and five warehouses strategically located over the United States. A fleet of 20 company-owned trucks, over-the-road haulers, plus air and rail transportation combine to speed West Bend products to the firm's many customers throughout the nation.

Country Inn by West Bend

...warm-hearted, colorful and wonderfully practical

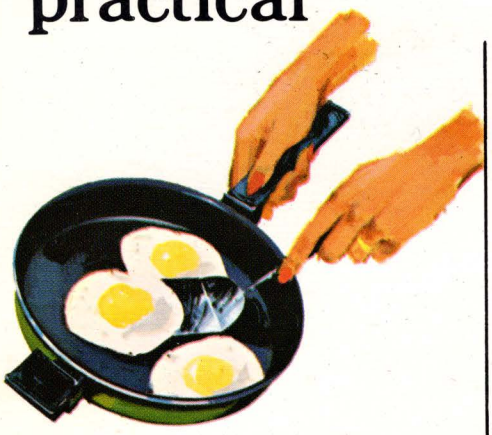

America's country inns are the symbol of serenity, good living and the finest cook[ing] in the country.

West Bend's Country Inn Cook 'n Serveware . . . superbly captures the colorful glow and warm hospitality — in Avocado and Harvest color porcelain finish on low, contoured silhouettes — reminiscent of those wayside country inns.

Brawny and tough new hard-coat Fired-on Teflon* is scratch-resistant and durable enough to use metal spatulas or metal spoons. Each piece has a triple-laminated, no-stick, no-scour finish on extra-thick aluminum . . . with the same miraculous, stickless properties for swish-and-suds cleaning. Even the inside of each cover has a double coating of Teflon* to protect against moisture stains.

Yes, and the color accent is now on avocado and harvest . . . two-toned porcelain finish of quartz-like hardness . . . will not scratch, mar or dent in ordinary use. Easy to clean as a china dish . . . with the acid resistant, stainproof qualities of fine glassware.

Heatproof, fadeproof . . . the gleaming porcelain finish, permanently set by high-temperature "curing," keeps its original color and texture unimpaired by heat or flame. This genuine porcelain finish is safe in dishwashers, too.

New Fired-on Teflon is made for metal spatulas and spoons

Even the covers are Teflon-lined! Protects against moisture stains . . . whisks clean

West Bend's new "Innkeeper"

Displays the complete line of Country Inn to best advantage in an authentic setting — a handsome colonial hutch design. Creates a "center of interest" display — in housewares and appliance departments, Bride's departments, town and country or gourmet shops and other specialized gift sections or to attract attention in high-traffic areas. This permanent all-wood display is sure to draw and excite attention to Country Inn. Genuine wood grain is etched with a satin-like honey-maple finish that lends traditional beauty and mellow charm to Country Inn Cook 'n Serveware. Bottom shelf is especially designed for convenient display of Country Inn's gift style packaging. Removable top can be converted into an attractive, compact unit for counter top or point-of-purchase display.

FIRST PLACE

Individual Display Packing
Attractive corrugated containers in avocado-color and black on white; harvest gold and black on white.

D289 Country Inn Counter-Top Display
Compact, ruggedly constructed counter top display makes Country Inn the focal point of interest.

D288 Display Plaque
For instant identification at point-of-sale.

West Bend

D287 Full-color Display Panels
For colorful display in limited areas.

Display West Bend's colorful assortment of Insulated Ware to draw attention, profits . . .

Show colorful and fashionably designed Insulated Serveware by West Bend, on this compact "open frame" merchandiser for maximum traffic-attracting power. The new "color-etch" textures are shown to greatest advantage, framed by gold anodized aluminum. Base shelves are sturdy pressed board, with rich walnut grain vinyl finish. Front bracket, and curved "gold" tipped side brackets are black enamel wire. Display the complete line of six items — ice bucket, beverage server, and 4 each of mugs, cups, tumblers and steins (total of 18 items). Overall height 26″. Width at base, 31½″ including pedestal and side brackets. Depth of base, 12″ (actual counter space required — 20″ x 12″). Color Fair "Toucan" swings merrily about in transluscent plastic, framed by gold anodized aluminum. Plaque is walnut-grain vinyl finish. Individual corrugated container, ship. wt., ea. approximately 8 lbs.

West Bend's Complete Display and Color Fair Merchandising Package No. 21-18 Assortment includes:

- D-303 Counter Display

Color comes to the coffee break

a new look for West Bend's long popular Flavo-matic perk!

New fashionable colors — avocado and harvest — for West Bend's star coffee-brewing performer, the automatic Flavo-matic. Gleaming porcelain finish is carefree, stain-proof and beautifully contemporary to accent any modern kitchen decor. Makes good coffee *better* with the flavor time-and-temperature controlled. Pour in cold water, measure coffee, plug in . . . soon the "serve" light flashes that delicious coffee — 6 to 8 cups — is ready to serve. Keeps coffee hot to the last flavorful cupful. 490 watts, 120 volts AC only. Cord included.

SPECIFICATIONS: No. 3327 West Bend automatic Flavo-matic with Harvest color porcelain finish. Fully automatic. Aluminum. Overall height, 10⅛"; 6 to 8 cup capacity. Molded black phenolic trim and base (P245-3), knob (P248-19), handle (P382-20). "Serve" light in base. 490 watts, 120 volts AC only. 6 ft. cord included. Individual corrugated container, ship. wt. per standard pack of 3, 7½ lbs. No. 3328 Same as above in Avocado color.

accent on AVOCADO

a new dimension in Automatic Coffee Making

NO. 7248 AUTOMATIC COFFEE MAKER
6 to 9 cup capacity. Polished stainless steel. Natural aluminum basket, stem and canopy. Black satin finish phenolic base, handle and knob. Height: 10". 490 watts, 120 volts, AC.

Individual corrugated container. Shipping wt. per dozen: approximately 39 lbs.

West Bend®

6 to 9 cup
Flavo-matic

The "Inside" Story

The new cover design eliminates the old fashioned water spreader. Water is directed evenly over the ground coffee, down through the deep 3½" high basket for most efficient flavor extraction. Basket has over 1000 pin-point perforations — permits use of drip-grind coffee, also controls rate of flow.

Crisp, tailored styling, expressed in the luxury of gleaming stainless steel, introduces a new dimension in coffee-making convenience. West Bend's exclusive automatic time and temperature control assures fresh brewed coffee, brimming with rich, full-bodied flavor in every cup.

new! 12 cup aluminum automatic percolator

Breakfast, dinner or "coffee break" . . . there's a bold, new style dimension in coffee making. West Bend's 12 cup automatic percolator gives a striking look of individuality to all coffee-drinking occasions. This coffee maker has ample capacity (12 full-flavor cups for entertaining) but is right for family use (makes six with the same delicious flavor). It's prompt—brews at a cup-a-minute rate. Attractive Flavor Control sets easily for individual taste (mild-medium-strong). Fashionably-styled for gift giving.

West Bend

West Bend

10 CUP ALUMINUM AUTOMATIC PERCOLATOR

Now, enjoy a coffee maker with a "personalized" look . . . and make flavorful coffee to individual taste — mild, medium, strong. West Bend's new Flavor Control needs but a quick adjustment . . . with finger-tip touch . . . to respond with just the right brew for you. Provides enough delicious coffee for an intimate dinner party or family meal . . . automatically.

CHOICE OF TWO AUTOMATIC COFFEE MAKERS WITH "FLAVOR CONTROL" CONVENIENCE

Here are two new West Bend Automatic Coffee Makers — 6 to 10 cup and 6 to 12 cup to meet the special needs of the homemaker and her family for a coffee maker that brews to individual taste — mild, medium or strong . . . or any degree of flavor in between. Set the control and flavor-fresh coffee is ready in minutes . . . automatically . . . with West Bend's correct time-temperature control. It's easy to keep this coffee maker clean, fresh and bright, too. Polished aluminum, matched and accented with glossy black phenolic handle and base.

SPECIFICATIONS:

No. 13470 10 cup polished aluminum automatic percolator. 6 to 10 cups. Overall height, 11⅜"; outside, 18 gauge; cover, 22 gauge; natural-finish aluminum basket and stem. Glossy black phenolic handle and base. 600 watts, 120 volts AC only. Cord included. Individual corrugated container; 3 to a re-shipper. Ship. wt., 9 lbs.

No. 13472 12 cup polished aluminum automatic percolator. 6 to 12 cups. Overall height, 12¼"; outside, 18 gauge; cover, 22 gauge; natural-finish aluminum basket and stem. Glossy black phenolic handle and base. 1090 watts, 120 volts AC only. Cord included. Individual corrugated container. Ship. wt., 9¾ lbs.

3 to 5 cup *Flavo-matic*

COFFEE MAKER

by West Bend®

For those casual moments when a few cups of good coffee go a long way in refreshment and enjoyment: at the breakfast table . . . when the neighbor stops in to chat . . . from a thermos at lunch time. Mellow, full-bodied coffee is easy to brew in minutes. The *Flavo-Matic* makes 3 to 5 cups of coffee, keeps it serving hot after perking. A delightful addition to the home . . . an ideal, thoughtful gift that suits any budget.

No. 3245 3 to 5 Cup Flavo-Matic Percolator. Polished aluminum with brown molded bakelite handle and base. Height 8⅞". 6-foot detachable cord plugs into any 110-120 volt AC outlet. Individual corrugated container, 3 to standard pack. Wgt. per std. pack, 6⅛ lbs.

West Bend®

MIXING BOWLS OF Stainless Steel

- FOR USE WITH ELECTRIC MIXERS
- THREE SPECIALLY SELECTED SIZES FOR EVERY PURPOSE
- SMOOTHLY ROUNDED FOR EASIER MIXING
- CLEANS LIKE MAGIC

Each bowl is packed in individual corrugated container; 3 to a re-shipper.

West Bend offers a complete set of gleaming stainless steel bowls for a lifetime of use. There are three specifically designed sizes — ¾ quart, 1½ quart and 3½ quarts — for every daily use from beating one egg to mixing a chiffon cake. They can be easily nested together. A drop on the floor won't even dent these bowls because they're made of super-hard stainless steel. Yet they're light and easier to handle than old-fashioned crockery bowls. Each bowl has a smooth finish with gently rounded sides that make it easy to get every last bit of batter. All three sizes are designed for use with electric food mixers.

BOWL Master®

No. 7-9 MIXING BOWL SET

Set of three in corrugated container. Ship wt. per doz. 33 lbs.; 3 to re-shipper.

No. 7034, 3½ quarts. The big, convenient size for cake mixes, waffle or pancake batter. Fits electric mixers. Wonderful for preparing yeast dough, washing vegetables, making salads and storing food in pantry or refrigerator. Excellent, too, for serving salads,, fruit, popcorn, potato chips. Overall diameter 9⅜", depth 4-5/16", ship. wt. per doz. 16 lbs.

No. 7035, 1½ quart. A middle-sized bowl for middle-sized jobs. Made to order for mixing mayonnaise, whipping cream and beating egg whites for meringues and sauces. Perfect for sauces and thickenings. Has smoothly rolled edge which is easy to grasp for hand mixing. Overall diameter 6½", depth 4-5/16", ship. wt. per doz. 10 lbs.

No. 7036, ¾ quart. Just the right size for use with small portable mixers or with one beater of a regular electric mixer. Ideal for hand beating one or two egg yolks, making a small amount of frosting, warming or melting foods on the range or keeping food in refrigerator. Overall diameter 5", depth 3⅝", ship. wt. per doz. 7 lbs.

*DuPont's trademark for its TFE non-stick finish

West Bend brings color to your table with elegant Country Inn Electrics

West Bend's 10″ and 12″ Automatic *Country Skillet*

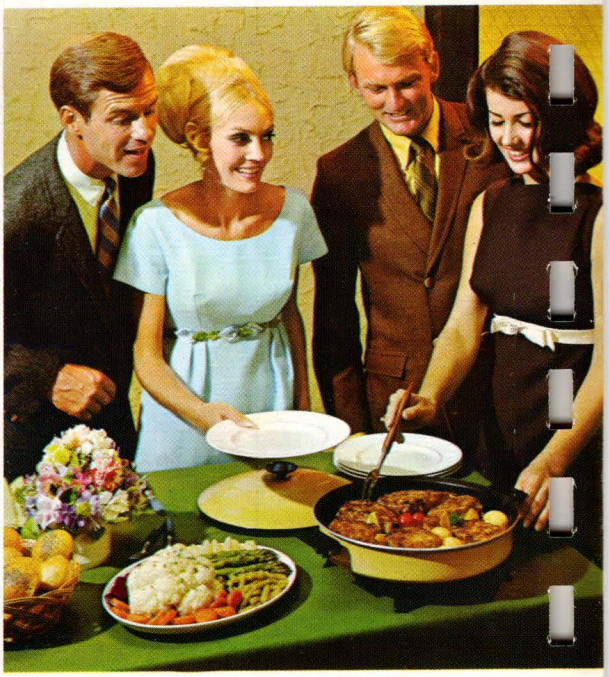

Too pretty to hide in the kitchen! More than just pretty, West Bend's Country Skillets have all the features, all the versatility to meet modern cooking needs. They cook and serve anywhere there's an electrical outlet—*automatically.* Simply set the heat control dial, and proper temperatures (from 150° to 425°) are maintained for cooking and serving. Interiors are lined with DuPont's certified TEFLON II*...scratch-resistant for carefree cooking, non-stick for carefree cleaning. Colorful porcelain-clad aluminum stays fresh looking for years and years, even if cleaned day-in, day-out in an automatic dishwasher!

10″ Family-Size

Ideal for breakfast foods, main dishes, luncheon and patio fare • Genuine porcelain-on-aluminum • Certified TEFLON II* interior finish • Fully automatic heat control • Fadeproof, stain-resistant, dishwasher-safe

No. 3309, Avocado; No. 3319, Harvest

12″ Buffet-Size

Generously sized for "country-style" breakfasts, rec room parties, company dinners • Genuine porcelain-on-aluminum • Certified TEFLON II* interior finish • Fully automatic heat control • Fadeproof, stain-resistant, dishwasher-safe

No. 3350, Avocado; No. 3360, Harvest

West Bend's 3½ Qt. Automatic

Country Casserole

Tasty casseroles, hearty soups and chowders, delicious party dishes of spareribs or beef stroganoff — even desserts and snacks — can be prepared and served with automatic ease in West Bend's Country Casserole. Fired-on certified TEFLON II* interior finish invites use of metal kitchen tools, and provides the pleasureable convenience of no-stick cooking and no-scour cleaning. Lovely for dinner table or buffet use, the casserole wears porcelain exterior finish in fashionable two-tone color — color that won't fade, that resists staining and is completely dishwasher-safe!

Just right for family meals and small informal parties • Genuine porcelain-on-aluminum • Certified TEFLON II* interior finish • Fully automatic heat control • Fadeproof, stain-resistant, dishwasher-safe

No. 3304, Avocado; No. 3314, Harvest

West Bend's 5 Qt. Automatic

Country Kettle

Buffet dinners, backyard patio parties, open-house gatherings, teenage get-togethers. . . . What's needed for these occasions? Food! Good food and plenty of it — easily prepared and tastefully served. The Country Kettle is ideally suited for preparing large amounts of chili, barbecue or spareribs. Equally well, it bakes potatoes, simmers a pot roast, acts as a food warmer, and works as a deep-fryer, too — for fish, chicken or doughnuts. It features dishwasher-safe porcelain finish on the outside, no-scour TEFLON II* on the inside. And the Teflon is scratch-resistant, so tough it welcomes *metal* kitchen tools! Detachable heat control regulates cooking and serving temperatures from 150° to 425°.

For use as a cooker, roaster, deep-fryer, food warmer and server • Genuine porcelain-on-aluminum • Certified TEFLON II* interior finish • Fully automatic heat control • Fadeproof, stain-resistant, dishwasher-safe

No. 3365, Harvest; No. 3366, Avocado

West Bend's *Country Inn* Elec-Trivet

This handy low-wattage trivet-heater keeps buffet favorites deliciously-hot throughout meal serving. (Ideal, too, for slow-simmering beans, soups, stews!) It distributes heat quickly, yet gently, to stainless steel and aluminum utensils — and it's perfectly safe when using porcelain, ceramic, china or glass serving ware. Colorful rock-hard porcelain finish on stainless steel wipes clean with a damp cloth. Black phenolic trim.

Genuine porcelain-on-steel • Black phenolic trim • 80 watts • Safe for buffet, counter or table-top use

West Bend®

Smokeless Broiler-Rotisserie

for "cook-out" flavor... indoor convenience

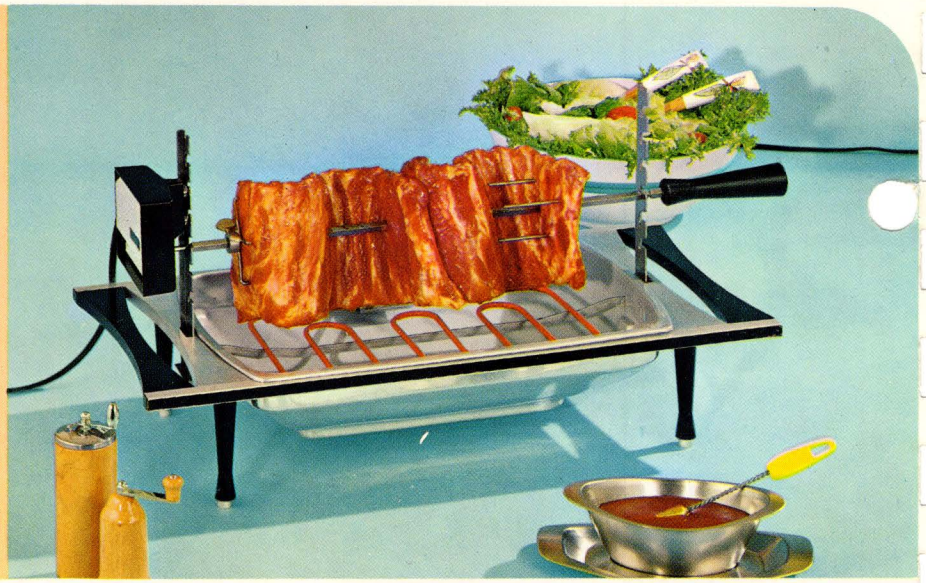

West Bend's Broiler-Rotisserie provides an easy way to delightful meals — and healthy ones, too. Broiling locks in flavor and nutrients — lets excess fats drain away.

- **all-electric . . . quick, convenient — no smoke, mess or flareups**
- **exclusive 5-ft. element designed for uniform heat dispersal**
- **150 sq. in. grilling area — triple chrome-plated 2-level rack**
- **sleek, simple design . . . easy-clean stainless steel reflector**
- **rotisserie unit features compact motor, firm-grip (wide and narrow) skewering forks**

A delightful way to cook! — like grilling out, but without muss or fuss, smoke or flareups. Instead of charcoal, electricity supplies the heat, so it's clean, fast and fun, *indoors*. The specially designed 1575-watt, infra-red heating element (actually more than 5 feet long) provides uniform heat over the entire 150 square inch grilling surface . . . and its sparkling stainless steel reflector pan is electro-polished for extra heat efficiency. The rotisserie unit features a compact motor that turns meat slowly for even basting. Skewering forks have two pairs of prongs, one narrow and one wide, specially designed for superior gripping power in both large and small meat cuts.

NO. 5415
BROILER-ROTISSERIE

Guests' appetites really grow as they watch succulent ribs barbecue, or savor the rich aromas of a juicy roast being done to a turn. Completely equipped broiler with rotisserie attachment includes brushed aluminum black-trimmed frame, electro-polished stainless steel reflector pan, 1575-watt infra-red heating element, appliance cord, triple-plated chrome grill rack for broiling, spit bar, two brackets and skewering forks, and compact motor. Overall height (rotisserie motor at top position) 12¾″; length, 26″; width, 12¼″. 120 volt, AC only. Individually packed. Approx. ship. wt. per doz., 129 lbs.

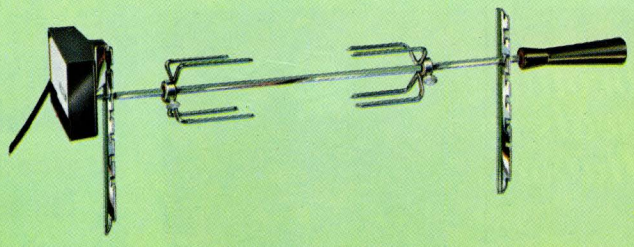

NO. 5414
BROILER UNIT

Enjoy "outdoor" flavor indoors, winter or summer . . . without charcoal muss or fuss, smoke or spattering. Efficient electric element provides fast, uniform heat over the entire 150 square inch grilling surface. So easy to clean . . . only three parts need sudsing. Broiler unit includes base, electro-polished stainless steel reflector pan, 1575-watt heating element, appliance cord, and triple-plated chrome rack. Overall height, 5½″; length, 23½″; width, 12¼″. 120 volt, AC only. Individually packed. Approx. shipping weight per doz., 90 lbs. *Rotisserie accessory available separately, below.*

NO. 5413
ROTISSERIE UNIT

Rotisserie attachment adds versatility to broiler . . . creates meals as dramatic as they are delicious. Unit includes spit bar, 7-position brackets, two skewering forks and compact 1-rpm motor with on-off switch. Max. rotisserie radius: 7½″; usable spit length approx. 16″. Indiv. packed. Approx. ship. wt. per doz., 39 lbs.

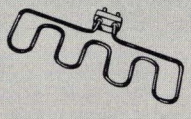

Smokeless here's why!

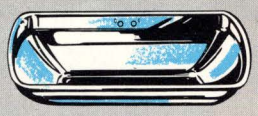

"THERMAL SHIELD" *prevents smoking*

West Bend's heating element produces infra-red heat waves, so hot they create a *thermal shield* around the element. In much the same way that water droplets "bounce off" a hot iron, this thermal shield keeps grease droplets from touching the element. So there's no smoke, no spatter.

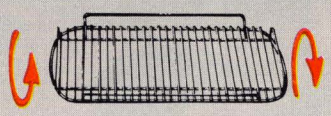

self-cleaning element . . .

Never needs washing! It cleans itself . . . and you can sometimes actually see it happen. A few seconds after the appliance is plugged in, you may see a wisp of smoke rising from the element. This is simply impurities being burned off. After the element has reached cooking temperature, the thermal shield prevents smoking.

Now...
18 cups!
The two-card table, dinner party, any-friendly-occasion coffee maker...

Only once in a coffee-making generation is there an appliance like this. A coffee maker whose size and styling is so right for an entire set of entertaining occasions. Here is the new 18 cup Contemporary Party Perk by West Bend (the people who originated Party Perks). Think of all the get-togethers when a 12-cup perk is a little too small — or a 30-cup more generous than needed. In between is the time of the West Bend "18"; a time of dinner parties, neighborly gatherings, happy family reunions, two tables of bridge, an intimate supper occasion, an after-the-theatre or sports event buffet. Gleaming stainless reflects the moment, delicious coffee sets the friendly tone. This is truly "18 time" — West Bend's delightful new kind of good-coffee entertaining!

West Bend

New 12 to 30 CUP AUTOMATIC "PARTY PERK"

Here's the economy-priced coffee percolator that looks at home with the most attractive buffet or table settings. And the coffee, of course, is delicious. West Bend's automatic time-temperature control brews crowd pleasing coffee, then keeps it serving hot as long as needed. Coffee is never over-perked, nor under-perked. Each and every mellow, full-flavored cup says this is the West Bend way of brewing coffee.

SPECIFICATIONS

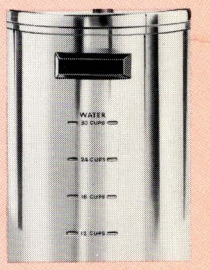

No. 9308. 12 to 30 cup automatic perk. Durable .032 aluminum urn and cover. Overall height 16". Base diameter 7½". Molded black phenolic base, handles and cover knob. Completely enclosed 1090 watt heating unit. UL and CSA approved. Six foot detachable cord. 110-120 volts, AC only. Packed individually in corrugated container. Shipping weight 4½ lbs. each.

Serve Light
Serve signal lights up when coffee is ready, stays lit to show "second helpings" are being kept hot.

Two Way Faucet
For one cupful at a time, press faucet down; to fill pitchers and servers, flip up continuous flow.

Easy to Measure
Accurate water level marks for 12, 18, 24 and 30 cup measurements are permanently stamped on perk sides.

Overall height, 10 13/16"; overall dia. 9". Heat-resistant black molded plastic cover knob No. 225BA, handle No. 728BA and legs No. 60BA. Appliance cord included. Individually packed in corrugated container; standard pack of 3. Ship. wt. 7¼ lbs.

- **JUST ADD CORN AND OIL — NO SHAKING NEEDED**
- **SHUTS OFF AUTOMATICALLY WHEN CORN IS POPPED**

Tops in popping convenience! Pops 4 full quarts of fresh, tender corn, then shuts off automatically. Needs no stirring or shaking — doesn't even need watching — yet never scorches corn. Makes popping corn at home as easy as buying it already popped, and lots more fun. Appliance cord and attractive recipe folder included, to make this popper tops in trade-up appeal, too.

4 Quart Corn Popper

makes family-size servings with *no stirring . . . no shaking!*

Ten features that help you sell! (1) Popular 4-quart size makes family-size servings fast. (2) Curved popper-pan bottom concentrates heat for faster popping, makes shaking unnecessary. (3) Popper-pan is separate from heating unit for easy cleaning. (4) Heat-resistant black plastic handle. (5) Clear glass "see-through" cover knob. (6) Smooth-heating aluminum pan and cover. (7) Heat-insulated plastic legs protect table or countertop. (8) Rugged, efficient ceramic-type 450-watt heating unit. (9) Underwriters' Laboratories, Inc. (UL) listed. (10) Extra uses: for heating soups, chili or beverages (place food in the popper-pan and stir during the warming period).

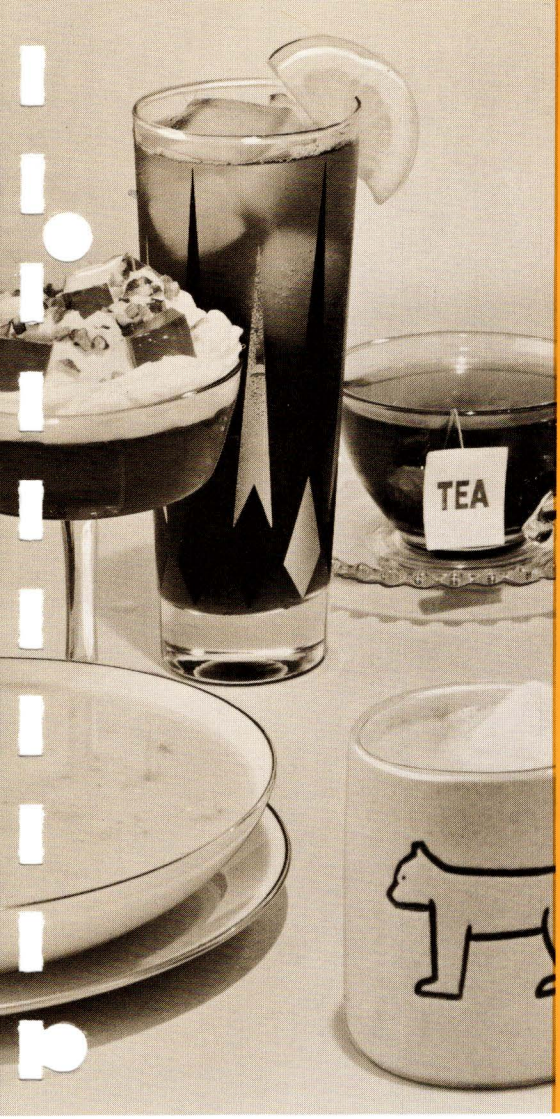

SPECIFICATIONS

No. 5408 Electric Corn Popper. Cover, pan and base made of polished aluminum. Ceramic-type heating unit, 450 watts. 120 volts, AC or DC. Overall height 9¾"; overall diameter 8". Heat-resistant glass cover knob; black molded plastic handle and legs. Includes appliance cord. Handle shipped disassembled. Individually packed in corrugated container; standard pack of 3. Approx. ship. wt. per dozen, 33 lbs.

West Bend's Automatic Toasters
with "Selectone" Radiant Control!

- Radiant Thermostatic Control . . . for Any Kind of Bread
- "Selectone" Adjustment for Light to Dark Toast
- Silent Operation . . . Pops Up Automatically
- Snap-Out Crumb Tray . . . Hinged for Quick Cleaning
- Slim-Line Design . . . Chrome Finish with Ebony-Black Plastic End Panels

Light to dark "Selectone" lets you choose brownness

West Bend's Radiant Control determines toasting-cycle by thermo-sensitivity to temperature and moisture in the bread itself . . . and halts the toasting process at the fleeting moment when toast reaches exactly the brownness you select. Makes it possible to toast frozen bread, or reheat cold toast and waffles with almost no change in degree of "doneness". Simple to operate . . . just push down the lever to lower the bread, and start the silent thermostatic action. Toast pops up automatically when done. Toasts one slice as perfectly as two, or four (see opening marked "single slice").

Chrome-plated steel toasters with black plastic end panels. 6½" high, 4¾" wide. Hinged crumb trays. Radiant thermostatic control with Selectone adjustment for light-to-dark control of toasting. 120 volts AC only. UL approved.

home comfort appliances

HUMIDIFIERS, portable automatic
Deluxe, solid-state control
standard control

CAT. # 36

West Bend's Springtime fresh Humidifiers have a new elegant furniture look for 1970

New West Bend ultra-deluxe Model No. 4012 with interior decorator styling. Includes summer cover.

"Interior decorator" design makes West Bend's new deluxe humidifiers comfortable in any home

There's an exciting new word which West Bend has added to home humidification this year. The word is fashion. The kind of fashionable design that makes handsome furniture and beautiful stereo cabinetry welcome in living room, foyer or family room. And, while West Bend's new deluxe humidifiers blend comfortably with beautiful home furnishings, they're efficiently turning winter-heating dryness into the freshness of spring.

Precisely automatic and dependably solid-state controlled, West Bend deluxe humidifiers instantly sense when humidity is required and deliver it throughout an average 7-room home.

BOTH DELUXE MODELS FEATURE

- *New furniture styling with decorator panel cabinetry-design fronts.*
- *Variable speed fan operation from "very low" to 1150 RPM (ultra deluxe model 1350) for ultimate in quiet operation.*
- *Solid-state control. The efficient space-age development which eliminates pre-set speeds, moving control parts, is ultra-dependable.*
- *Summer Cover. In matching walnut vinyl finish, top converts humidifier into attractive occasional furniture piece when not in seasonal use.*
- *Easy-rolling all-direction 2" ball casters.*

No. 4012. West Bend ultra-deluxe model. Modulating solid-state sensor. Synchronized single dial humidity control. Walnut-tone 8 mil vinyl bonded to 24 gauge steel cabinet; corrosion-resistant, epoxy-treated interior. 120 volt AC only. 25" high, 26⅛" wide, 12" deep. Individual container. Shipping weight 50 lbs. each.

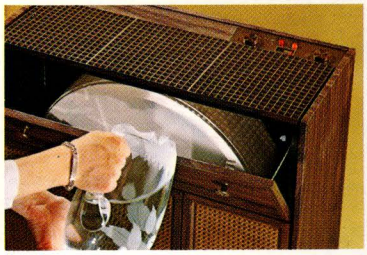

No. 4011. West Bend deluxe model. Solid-state control. Walnut-tone 8 mil vinyl bonded to 24 gauge steel cabinet; corrosion-resistant, epoxy-treated interior. 120 volt AC only. 25" high, 26⅛" wide, 12" deep. Individual container. Shipping weight 50 lbs. each.

HUMIDITY "CONTROL CENTER"

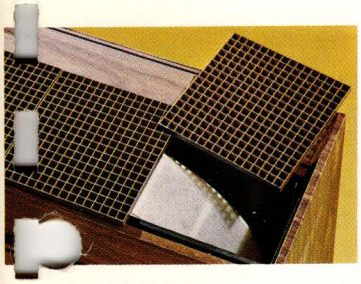

All controls (humidity level setting, fan velocity)* and indicators (water gauge, re-fill and operating signal lights) are conveniently located at top right of unit.

*Ultra deluxe Model 4012 has both humidity setting and fan speed coordinated in *one* control.

CONVENIENT FRONT-END FILLING

All models feature tilt-out panel for easy filling from top front of humidifier. Large filler spout funnels water directly into reservoir . . . prevents spilling.

ALL-DIRECTIONAL ADJUSTABLE AIR GRILLS

Humidified air flows out of top of unit, never blows on people. In addition, three grills at top can be adjusted to any direction to place air-flow where desired.

West Bend's deluxe models can remain right where they are in the home after the winter-heating season ends. The "summer cover" snaps over the top — the deluxe humidifiers continue as functionally attractive cabinets the year around. During humidifying operation cover stores out of the way in back of unit.

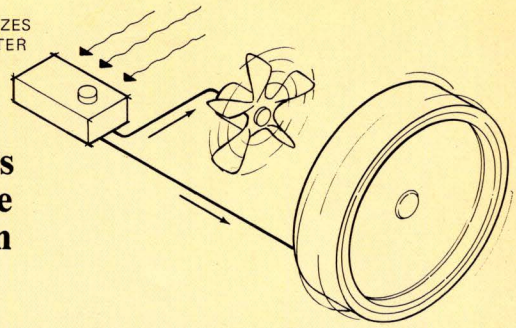

When it's winter-heating time, West Bend's "water-wheel" humidifiers put spring into the air

West Bend's high-capacity humidifiers send pleasant moisturized air flowing to every part of a large-sized (average 4-bedroom) home. Dependable water-wheel turns effortlessly through the fresh-water reservoir, gently introducing moisture into the home's "atmosphere," which can become uncomfortably desert-dry without proper humidity.

No. 4013. West Bend Standard model.
Two-speed airflow control. Walnut-tone 8 mil vinyl bonded to 24 gauge steel cabinet; corrosion-resistant epoxy-treated interior. 120 volt AC only. 24¾″ high, 26⅛″ wide, 12″ deep. Individual container. Shipping weight 45 lbs. each.

ALL WEST BEND MODELS FEATURE:

- *Automatic humidity control. Instantly senses change in humidity level and starts humidifier.*
- *Automatic shut-off indicator light. Indicates unit requires re-filling.*
- *Drum filter for steady "water-wheel" moisturizing operation; easily replaceable filter for "fresh air change" each heating season.*
- *Elegant, waterproof vinyl finish in authentic walnut grain. Wipes clean with damp cloth.*

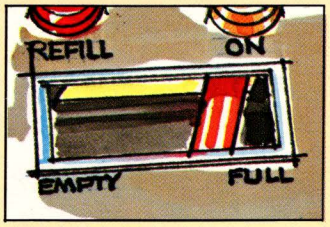

West Bend's solid state sensor system

Featured on the ultra-deluxe Model 4012; a revolutionary new West Bend humidifier advancement . . . the modulating solid state sensor.

West Bend's exclusive new *Sensor System* keeps a vigilant watch on the home's humidity level. With the slightest change in this comfort level, it goes into action!

It's as efficient and responsive as the automatic shift of your automobile. The sensor simultaneously activates both fan and drum-filter *and* synchronizes them at exactly the right speeds to quickly bring humidity up to the selected level.

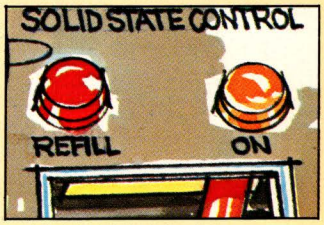

The sensor continually monitors and retains that humidity level with minimum fan and filter speeds and ultra-quiet operation.

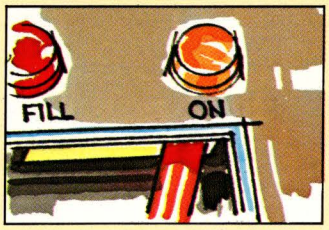

Water level indicator

Float in reservoir instantly transmits the amount of water-reserve to this large and readable gauge on control panel.

Red refill light

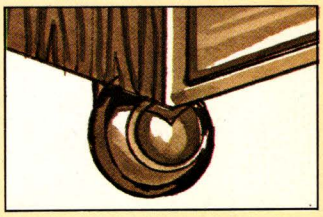

Easy-to-see red signal light automatically flashes on when reservoir is almost empty. When water refill is made light instantly snaps off.

Amber "on" light

Friendly amber glow of the operating light indicates unit is in operation. Featured on deluxe models only.

Free-rolling deluxe ball casters

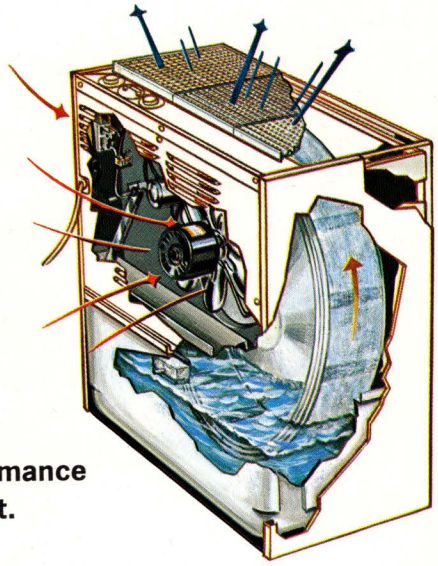

Both West Bend deluxe models have large 2″ diameter ball casters which turn freely in any direction, glide effortlessly over carpeting or hardwood floor. Allows easy moving of humidifier from one location to another.

West Bend's efficient water wheel moisturizing action

. . . smooth, quiet, trouble-free performance . . . year in, year out.

West Bend "water wheel" humidification has come to mean the ultimate in transmission of *fresh* humidity to the air. Gently, quietly — always dependably — the drum filter turns, like a water wheel, in and out of the water reservoir. Each turn into the reservoir cleanses and freshens the spun-polyester filter belt encompassing the drum. Each turn out of it carries a charge of new moisture which is homogenized by air blowing from the rear of drum. Fresh, humidified (and filtered) air flows out the top and circulates rapidly into the home's "atmosphere."

- *Large 20" diameter, high impact polystyrene drum-filter provides "water wheel" action.*
- *Spun-polyester pure white filter belt is highly porous, holds maximum amount of moisture.*
- *Filter belt is low cost and easy to install (replace at least once each winter-heating season).*
- **Quiet as a water wheel.** *Turns in hushed tones . . . air flowing through the unit is a whisper-quiet movement.*

West Bend

...where Craftsmen still care ®

West Bend craftsmen build superb performance and advanced technology into the humidifiers of '70

West Bend humidifiers offer the space-age technology of dependable solid-state control, efficient "water-wheel" vaporization into comfortable home humidity and superbly hushed operation. All housed in elegantly styled cabinets of tough and permanently enduring vinyl-finished and epoxy-acrylic treated steel.

Every operating element is carefully inspected and the entire unit has a one year parts and materials guarantee solidly backed by The West Bend Company's 58 years of manufacturing experience and a nationwide servicing organization.
