WATERLESS COOKWARE

WATERLESS COOKING . . . what it is

Waterless cooking is a method of food preparation which cooks foods in their own natural juices and moisture, with little or no added water. In ordinary cooking methods, for example, vegetables are immersed in water during the cooking process. In waterless cooking — vegetables are cooked with little or no water at lower temperatures, thereby retaining more of the original minerals, vitamins, and nutrients.

Besides, vegetables retain their natural color, flavor and firmness, making them far more appetizing. Since the benefits of foods to the human body depend to some extent on how they are cooked and prepared, waterless cooking is now recognized by leading dietetic authorities as a superior cooking method from the standpoint of nutrition, flavor, taste, economy and convenience.

WATERLESS COOKING . . . highly recommended.

Demands of modern living make it necessary for people to have nourishing foods which contain more of the natural health-building elements. The important advantages of the waterless cooking method in preserving these nutrients are widely accepted and endorsed by leading food experts and dieticians.

WATERLESS COOKING . . . what it means in actual savings

SAVES FUEL

Triple-thick aluminum requires only low heat to cook meats and vegetables. Heat is conducted quickly and evenly through bottom, sides and cover of each utensil.

SAVES FOOD

Food shrinkage is reduced to a minimum when using the waterless method of cooking. Inexpensive cuts of meat become tender and nourishing.

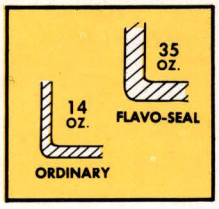

SAVES TIME AND ENERGY

Waterless cookware saves time — reaches cooking temperature fast — then cooks rapidly over low heat. Requires no watching while cooking. Gleaming aluminum is simple to clean, too.

SAVES ON REPLACEMENT COSTS

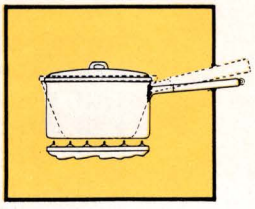

Ordinary utensils become worn and must be replaced frequently. Flavo-Seal cooking utensils, with a minimum of care, will last indefinitely.

FEATURES

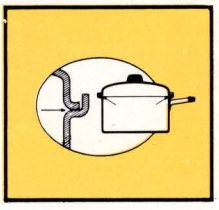

TRIPLE THICK

Above sketch illustrates the difference between Flavo-Seal aluminum cookware and ordinary aluminum cooking utensils.

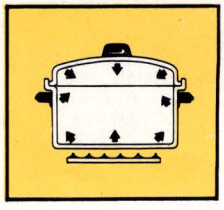

WIDER HEATING SURFACE

Flavo-Seal has an increased heating surface compared to the ordinary type of cookware. Wide flat bottom covers entire heating unit —no fuel is wasted.

FLAVO-SEAL COVER

New cover design forms metal-to-metal contact which seals in flavor and conducts even temperature throughout cover from sides of pan.

HIGH THERMAL EFFICIENCY

Triple-thick pure rolled sheet aluminum conducts heat quickly and evenly through bottom, sides and cover of pan. Saves fuel.

ELECTRICALLY WELDED HANDLES

Handle socket is smoothly and permanently welded to pan by electricity. Eliminates all rivets on inside surface—easy to clean. Molded plastic handles.

TRIPLE-THICK ALUMINUM

1 QUART SAUCE PAN

Designed for smaller vegetables, sauces, baby foods, cereals, and preparing left-overs. Perfect for small quantities of foods which would ordinarily burn or scorch. Can be used as a double boiler, if foods are prepared over a low heat.

No.	Gauge	Capacity Qts.	Overall Bottom Diam. In.	Ship. Wt. Per Doz. Lbs.
3121	10	1	5⅛	22

2 QUART SAUCE PAN

Suitable for sauces, puddings, frostings and other foods which ordinarily require a double boiler. Because it's made of triple-thick aluminum, delicate foods can be cooked on low heat.

No.	Gauge	Capacity Qts.	Overall Bottom Diam., In.	Ship. Wt. Per Doz. Lbs.
3122	10	2	6½	30

COMBINATION SAUCE PAN

The 2-quart inset with 3-quart sauce pan permits preparation of two foods at once, saving time and effort. It can be used as a combination cooker or covered stew pan. Inset doubles as a mixing bowl or baking dish.

KABOB 'N GRILL

New party idea — shish kabob grilling is fun for everyone with West Bend's vertical charcoal grill and 8 roto-matic skewers. Many foods can be prepared outdoors or at indoor hearth. The eight motor-driven skewers rotate at a controlled speed for perfect grilling. Vertical position provides self-basting — fat drips into shield — no flare up. Base and fire basket are enameled steel; drip shield is chrome plated. Motor is 60 cycle, 20 watts, 110-120 volts, AC. Cord is attached.
