West Bend's Generation™ Cookware is constructed of gleaming, easy-to-care-for stainless steel with "wrap-around" aluminum bottoms for fast, even heating. Generation features both metric and customary measurements, and each piece is backed by a full 25 year warranty.

FROM TOP TO BOTTOM, A BETTER WAY TO COOK™

1
From Top... Custom-designed pans and covers form a "moisture seal" to help lock in natural flavor, retain vitamins and minerals... permits cooking with little or no water. And the self-basting covers invert into the pans for easy stacking and storing.

2
To Bottom... A thick "wrap-around aluminum" bottom is applied through an exclusive patented construction process to spread heat evenly... reduces hot spots and scorching.

3
A Better Way to Cook... Energy-efficient Generation cookware cooks foods fast at low temperatures on gas, electric and smooth-top ranges.
