Twenty-Five Years of Progress and Experience

The twenty-five years of West Bend history are crammed full of achievement and creative design. More outstanding perhaps, among many original creations, are The Waterless Cooker, Kwik-Drip Coffee Maker, Deep Fryer, The Matched Line, and the Speedmaster Electric Tea Kettle. During these twenty-five years, the trade has looked to West Bend for new ideas, quality utensils, and practical creations in distinctive house wares. The hundreds of utensils in this catalog are the best that scientific designing and manufacturing can produce. Every item is an unusual value backed by our pledge to give you outstanding quality.

Modern Aluminum Utensils

Manufactured from hard sheet aluminum, these West Bend items have a permanent lustre finish and a lasting durability. Shaped under enormous pressure, the metal is dense and non-porous.

Exceptional strength is found in the sturdy construction of West Bend utensils. All handles and knobs are securely fastened; all rivets are large-headed, tight and rigid.

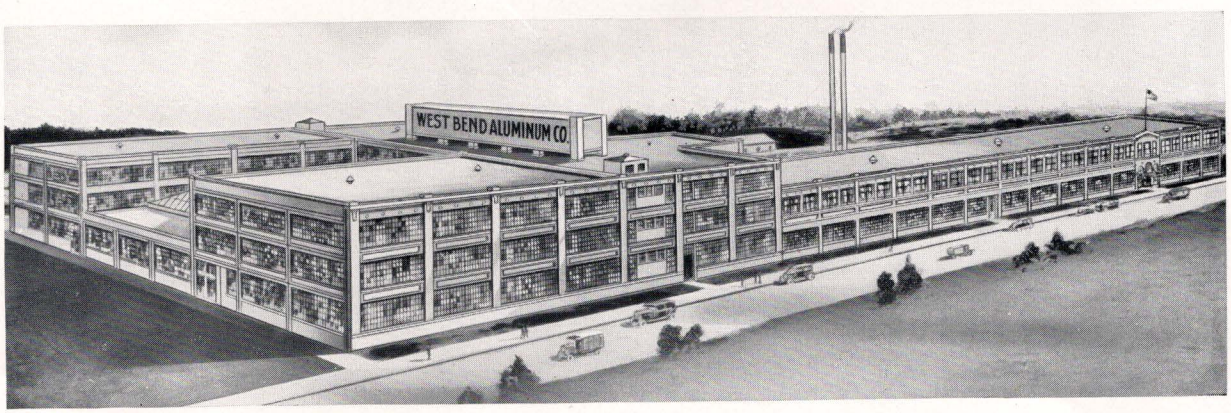

Aluminum is a quick and even conductor of heat — an economy feature important to every housewife. It represents a definite saving in time and fuel.

Good aluminum wears indefinitely. It does not rust and cannot be broken if dropped or struck.

Easy to use and easy to clean. Positive sanitation with rounded corners and open spouts.

Recommended for healthful and wholesome cooking by leading food and health authorities.

Satin-Ray Finish with Black or Red Trim

LARGER UNIT SALES

The new matched set has brought about larger unit sales—because the modern kitchen calls for ensemble furnishings. The set idea has developed more profitable merchandising in two ways: first, through selling complete sets instead of individual items; secondly, through selling utensils which can be added to later in order to complete the set. Many housewives are anxious to start a set when it can be obtained a few pieces at a time. This desire leads to repeat traffic and increasing profits.

SATIN-RAY FINISH

(illustrated above)

Now Available with Black or Red Trimmings

This beautiful and popular finish is now available with either the black or red molded trim. The choice of two different trimmings provides two distinct sets for group merchandising.

Satin-Ray radiates a glow of diffused light which is particularly pleasing to the eye, and exceptionally easy to display attractively. Its rich appearance is emphasized still more by the contrasting trim of cherry red or jet black.

SILVER-SHEEN FINISH

(illustrated on page 6)

The complete matched set is also made up in a brilliantly polished finish called Silver-Sheen, which is shown on page 6.

MATCHED DESIGN

Twelve beautiful utensils in this new West Bend Line — and every one matched in design and trimmings. Even the knobs, handles, covers and beads are identical in shape. Entirely new and different—yet more practical. Note the individual pieces on pages 4 and 5, and the features on page 7.

FOR DESCRIPTION OF INDIVIDUAL PIECES, SEE PAGES 4 AND 5

Drip Coffee Maker

Number	Gauge	Finish	Molded Trimmings	Capacity Cups	Ship. Wt. Per Doz. Lbs.
528	18	Silver Sheen	Black	8	24
1548	18	Satin-Ray	Red	8	24
1558	18	Satin-Ray	Black	8	24

Packed one to corrugated carton.

Designed to match the other numbers in the new ensemble. Both pot and dripper have similar lines. Convenient handle shaped to fit a natural grip. Six-rivet connection attaches handle socket securely to the Coffee Maker. No-drip spout is easily cleaned. Cover fits both pot and dripper.

Double Boiler

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
431½	18	Silver-Sheen	Black	1½	21
1531½	18	Satin-Ray	Red	1½	21
1551½	18	Satin-Ray	Black	1½	21

Individually wrapped.

New straight-sided double boiler. Square bead construction flush with both inset and bottom. Permits use of bottom as regular sauce pan. Triple-tinned steel handles have modern appearance of silverware—fluted ends and lineal decorations on top surface. One piece construction for greater strength and rigidity.

Tea Kettle

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
514	18	Silver-Sheen	Black	4	22
1524	18	Satin-Ray	Red	4	22
1534	18	Satin-Ray	Black	4	22

Packed one to a chipboard carton.

Whistles When Water Boils

One of the most popular numbers in the matched line — a new tea kettle which is really convenient and economical. A unique trigger arrangement operates the whistle cap on the spout—when pouring or filling. Note natural position of trigger for the index finger.

Sauce Pan Set

Number	Gauge	Finish	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
241	18	Silver-Sheen	1	9
241½	18	Silver-Sheen	1½	10
242	18	Silver-Sheen	2	12
1421	18	Satin-Ray	1	9
1421½	18	Satin-Ray	1½	10
1422	18	Satin-Ray	2	12

Individually wrapped.

The sauce pans follow the same design as other items in the new West Bend Line. The handles are particularly good looking with fluted ends and lineal decorations on the top surface. They are arranged for greatest strength as well as utmost ease in cleaning. Each pan is double lipped.

Features Illustrated on Page 7

Percolator

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
522	18	Silver-Sheen	Black	2	17
1542	18	Satin-Ray	Red	2	17
1544	18	Satin-Ray	Black	2	17

Packed one to a chipboard carton.

Cover fits deep over basket—eliminates boiling over. No hinge on cover—eliminates breakage. Especially constructed no-drip spout, easily cleaned. Glass top matches molded knobs of other items. Six-rivet connection attaches handle socket securely to percolator.

Sauce Pots

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
324	18	Silver-Sheen	Black	4	24
326	18	Silver-Sheen	Black	6	26
1454	18	Satin-Ray	Red	4	24
1464	18	Satin-Ray	Black	4	24
1456	18	Satin-Ray	Red	6	26
1466	18	Satin-Ray	Black	6	26

Individually wrapped.

Fitted with unusually heavy steel handles—easy and convenient to grip. Handles are accurately machined to fit contour of pot. Tight, square bead construction for sanitation.

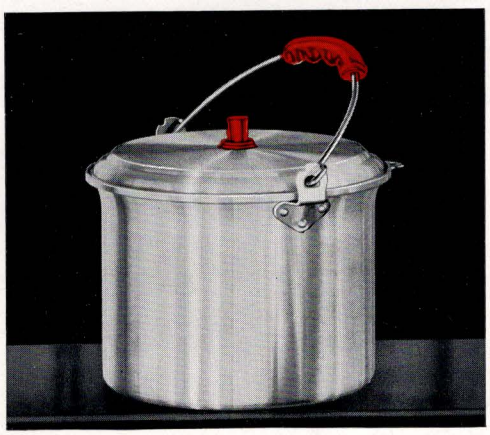

Covered Sauce Pan

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
344	18	Silver-Sheen	Black	4	24
1474	18	Satin-Ray	Red	4	24
1494	18	Satin-Ray	Black	4	24

Individually wrapped.

Molded knob on cover fitted with finger-tip protector so that finger tips do not come in contact with warm cover.

Covered Kettle

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
376	18	Silver-Sheen	Black	6	32
374	18	Silver-Sheen	Black	4	30
1486	18	Satin-Ray	Red	6	32
1496	18	Satin-Ray	Black	6	32

Individually wrapped.

Cool molded grip is baked on the bail handle. Natural sure-grip contour for easy handling. Notched ears keep bail away from side of kettle. Handy lift facilitates draining.

Fry Pan (illustrated in group on page 3)

No.	Gauge	Overall Top Diam. Inches	Bottom Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1510	12	10	9 1/4	1 7/8	19

Individually wrapped.

A well balanced fry pan with straight lines and triple-tinned steel handle. Designed to harmonize with other numbers in the matched line. Made up in Satin-Ray finish only.

Features Illustrated on Page 7

The Matched Line in Silver-Sheen Finish

Available With the Black Molded Trim Only

SELLING THE SET IDEA

Another group in matched design for building up larger unit sales. The Silver-Sheen Matched line is finished with a brilliant glossy polish — particularly attractive with the black molded trimmings. In addition to the matched design, the Silver-Sheen set has all the new features illustrated and described on page 7. Its beauty takes on sight — its utility and convenience features help you sell the set idea.

Merchandising the matched sets during 1936 will boost your larger unit sales — because the ensemble idea is demanded for today's kitchens. Frequently the sale of one or two pieces in the matched set will bring repeat store traffic until the housewife has completed her matched set of utensils. Once the set has been started, if only with a small sauce pan, you have created a want for the complete group in the matched design. Display and sell the set idea for greater profits in 1936.

MATCHED DESIGN

Eleven beautiful utensils in this new West Bend Line — and every one matched in design and trimmings. Even the knobs, handles, covers and beads are identical in shape. Entirely new and different — yet more practical. Note the individual pieces on pages 4 and 5, and the features on page 7.

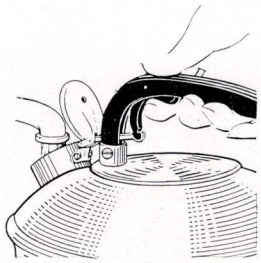

For description of individual pieces, see Pages 4 and 5

New Convenient Features

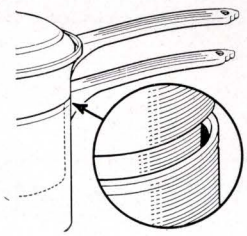

Molded Baked-on Grip
Special Ear and Lift

Cool molded grip is baked on the bail handle. Natural sure-grip contour for easy handling. Notched ears keep bail away from side of kettle. Handy lift facilitates draining.

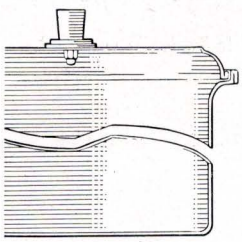

Trigger Lifts Spout Cap
on Whistling Tea Kettle

Unique trigger arrangement operates cap on spout when pouring or filling. Note natural position of index finger on handle when operating trigger. Whistle in cap gently sings when water boils.

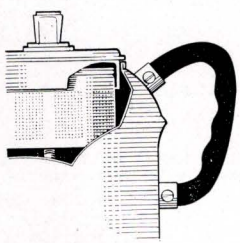

Modern Steel Handles
Straight-Sided Double Boiler

The triple-tinned steel handles with fluted ends and modernistic lines are rich in appearance. One-piece construction for greater strength and rigidity.
New straight-sided double boiler. Square bead construction flush with both inset and bottom. Permits use of bottom as regular sauce pan.

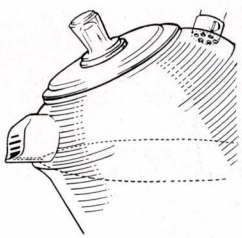

New Knob and Bead

Square bead construction of both cover and utensil provides easy cleaning and sanitary seal. Molded knob on cover fitted with finger-tip protector so that finger tips do not come in contact with warm cover. Knob attached with hexagon, rust-proof aluminum nut.

Percolator Cover
No Boiling Over

Cover fits deep over sides of basket and eliminates boiling over. No hinge on cover to break or loosen. Sturdily constructed basket fitted with water distributor which insures thorough and even percolation.

No-Drip Spout

Cover fits deeply over basket — eliminates boiling over. No hinge on cover—eliminates breakage. Especially constructed no-drip spout, easily cleaned. Glass top matches molded knobs of other items. Six-rivet connection attaches handle socket securely to percolator.

1252—2 quart 1253—3 quart 1254—4 quart

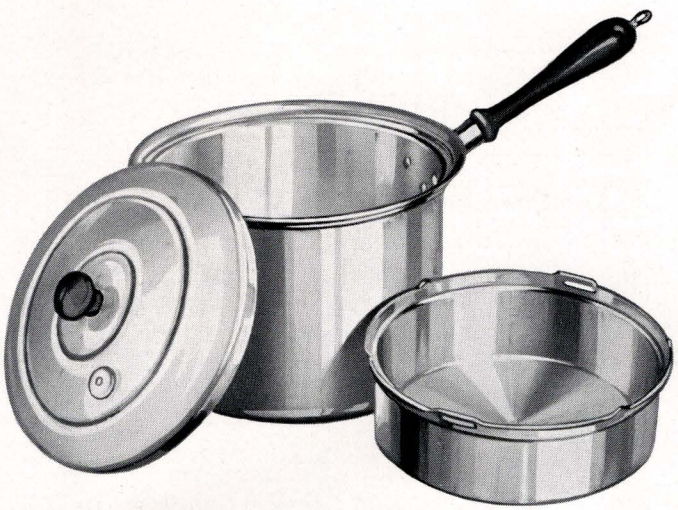

Super-Heavy Sauce Pans

No.	Gauge	Capacity Quarts	Depth Inches	Diam. of Bottom Inches	Ship. Wt. Per Doz. Lbs.
1252	10	2	4	6 1/2	33
1253	10	3	4 1/2	7 1/4	38
1254	10	4	4 7/8	8 1/4	42

Individually wrapped.

These triple-thick Sauce Pans in three convenient sizes are typical of the extra quality of "West Bend" Super-Heavy Ware. Covers fitted with Thermoplax Knobs attached with aluminum, rust-proof, hexagon nut. Covers have self-basting and steam vent features. Patented turn-proof handle in Circassian walnut finish.

Super-Heavy Covered Skillets

No.	Gauge	Top Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1920	8	10	2 1/4	37
1921	8	11	2 3/8	42

Individually wrapped.

Here are two Super-Heavy Covered Skillets with many new features: Self-sealing, self-basting covers, Circassian walnut removable handle; Thermoplax, non-burn knob; curved edge for easy stirring; flat bottom for more efficient heating.

Super-Heavy Combination Sauce Pan

No.	Gauge	Cap. Quarts	Inside Diam. Inches	Depth Inches	Capacity Tray, Qts.	Ship. Wt. Per Doz. Lbs.
1244	10	4	8	5 5/8	1 1/2	45

Individually wrapped.

This pan is twice as efficient as any ordinary Sauce Pan, because two foods can be prepared at the same time. Constructed of heavy gauge, pure aluminum throughout, insuring even heat distribution and perfect adaptation to waterless or minimum water cooking. Self-basting cover with steam vent and Thermoplax Knob. Turn-proof handle. Circassian walnut finish.

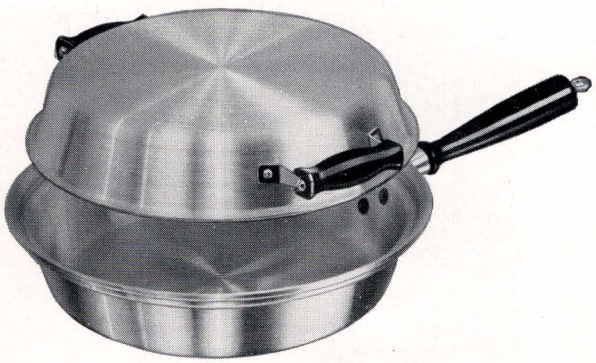

The Waterless Cooker

No.	Gauge	Capacity Quarts	Capacity Inset Pans Each, Quarts	Ship. Wt. Per Doz. Lbs.
138	18	8	1½	75
142	16	12	2	97

Packed one to a corrugated carton.

The Waterless Cooker, especially designed to give ample space below dual pans. Large dual pan capacity. Steamer Tray eliminates wire rack and gives greater utility for steaming purposes. Special air-sulated base enables Cooker to be used on any type of heat. May be advertised "The Waterless Cooker."

Super-Heavy Chicken Fryer

No.	Gauge	Top Diam. Inches	Bottom Diam. Inches	Overall Depth Inches	Ship. Wt. Per Doz. Lbs.
1521	8	11	8¼	4⅛	38

Individually wrapped.

A large chicken fryer with deep cover which allows approximately a 4 inch depth inside. It's a convenient utensil when preparing fowl—large enough for two small chickens or one large fowl. Two cool Thermoplax non-burn handles on side of cover. Removable turn-proof handle on pan. Outside in beautiful Satin-Ray finish. Inside Sun-Ray finish.

Super-Heavy Griddle With Wooden Handle

No.	Gauge	Diam. Baking Surface, Inches	Overall Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1925	8	10	11½	⅜	31

Individually wrapped.

Circassian walnut finish turn-proof handle. Needs no grease, thus eliminating odor and smoke. Furnished with direction tag. Fine for griddle cakes or broiling. Extra thick.

Super-Heavy Round Griddle

No.	Gauge	Diam. Baking Surface, Inches	Overall Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1930	8	10	11½	⅜	30

Individually wrapped.

Heavily tinned wire steel handle. An excellent greaseless griddle on one side, broiler on other.

West Bend Whistling Tea Kettles

No.	Capacity Gauge	Qts.	Metal	Ship. Wt. Case Per Dz. Lot	Lbs.
703	22	2	Aluminum (Polished)	12	18
702	22	2	Satin Ray	12	18

Packed one to a corrugated carton.

No.	Capacity Gauge	Qts.	Metal	Ship. Wt. Case Per Dz. Lot	Lbs.
4462	26	2	Solid Copper	12	22

Packed one to a corrugated carton.

Beauty and Cheer for the Kitchen

With its striking futuristic design, the Whistling Tea Kettle provides beauty and cheer for the kitchen. No other utensil is more delightful as well as practical to use than this new whistler.

Heats Water Quickly

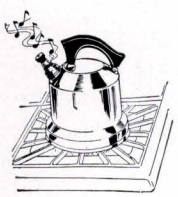

There is no waste of fuel with the Whistling Tea Kettle — turn off the heat as soon as the whistle gives the signal that the water has started to boil. It is convenient and economical when heating water for tea or coffee.

CONVENIENT AND PRACTICAL

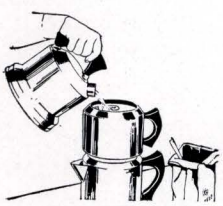

Easy to Fill

The removable whistle permits easy filling directly through large spout. Wood Knob on whistle remains cool.

Whistles When Water Boils

When the water boils, the tea kettle whistles. No wasted fuel — turn off the heat as soon as the water boils.

In Making Coffee

Exceptionally quick when making 2 to 9 cups of coffee. Note the Thermoplax non-burn handle on the Whistling Tea Kettle.

Preparing Tea

There is no waste of time, energy or fuel in making tea when you have a Whistler. The cheery whistle reminds you when the water starts to boil.

Many Other Uses

For a dozen other occasions during the day — in baking and cooking — when hot water is wanted quickly.

Chromium Plated Model (Left)

No.	Capacity Gauge	Qts.	Metal	Ship. Wt. Case Per Dz. Lot	Lbs.
4512	26	2	Chromium Plated on Solid Cop.	12	22

Packed one to a corrugated carton.

West Bend Whistling Tea Kettles Save Time and Fuel

The Drip Method of Coffee Making

Now Replacing Other Methods

Within the past few years America has been turning to Drip Coffee—because it is a delicious, full-flavored and wholesome beverage. Drip Coffee tastes better — it is healthful to drink and is free from any harmful or undesirable elements.

Only the rich aromatic oils are extracted from the coffee by the drip method. These oils are stimulating and aid digestion; they bring out the full flavor and taste of the coffee. Always uniform, drip coffee yields the same goodness and strength at every making. There is no chance for error.

Tests Favor Drip Coffee

Several tests have revealed that the drip method extracts only the desirable stimulating ingredients from coffee. The harmful and undesirable elements are not as quickly dissolved as the aromatic oils and thus remain in the grounds.

Recommended and Endorsed

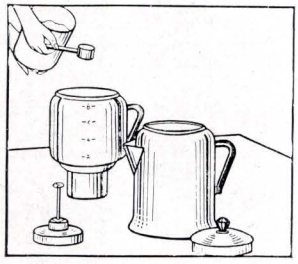

Leading food authorities and dietitians recommend this improved coffee brewing method and national magazines have devoted pages of space to modern drip coffee making methods.

The principle was endorsed by the Coffee Roasters Association after the Massachusetts Institute of Technology had carefully investigated the various methods of coffee brewing.

Three Easy Steps

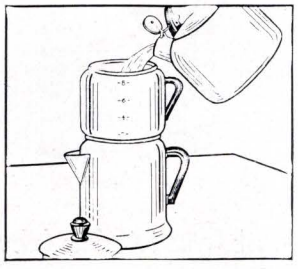

1

Measure coffee into dripper—always the same—no guessing. Then place water distributor over grounds and set dripper on pot.

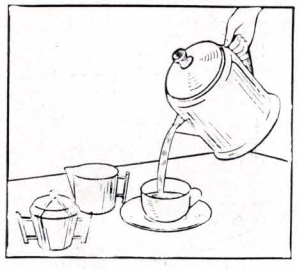

2

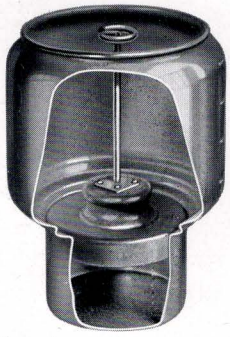

Pour boiling water into dripper — graduation marks on side of dripper make it easy to prepare exact amount of coffee desired.

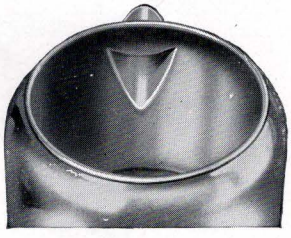

3

After water has dripped through, you have uniform, full flavored drip coffee — ready to serve immediately. It is always good and healthful to drink.

One-piece dripper construction; convenient handle on water spreader.

Sanitary spout—easy to clean. Welded — will not leak. No corners or crevices to collect sediment.

Thermoplax non-burn handles securely attached to pot and dripper.

Rounded Corners and Open Spouts — Easy to Clean

Drip Coffee Makers

No. 569

No. 572

No. 566

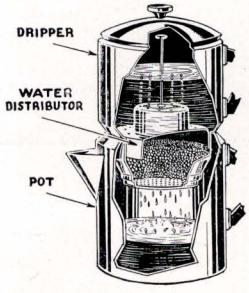

Kwik-Drip Models (above)

No.	Gauge	Capacity Cups	Case Lot	Ship. Wt. Per Doz. Lbs.
566	20	6	12	21
569	20	9	12	28
572	20	12	6	40

Packed one to a corrugated carton.

For Making Full-Flavored, Aromatic Drip Coffee

The new Kwik Drip coffee makers are typical of West Bend quality. They are modern in style and design — with the highly polished aluminum shaped into attractive lines. Each coffee maker is equipped with Thermoplax knob and handles. They have sanitary spouts—no corners or crevices—easy to clean. Cover fits both pot and dripper.

One-Piece Dripper

With built-in perforated disc, the dripper of the Kwik-Drip Coffee Maker is the one-piece type and is entirely separate from the pot. The scientific water distributor is equipped with a convenient handle. No corners or crevices to collect sediment; no filter cloth or paper to replace; no fussing or watching. Easy to use; easy to clean. Prepares rich, flavorful coffee at every making.

See page 23 for Electric Heat-Rite Base to fit drip coffee makers.

West Bend Drip Coffee Makers

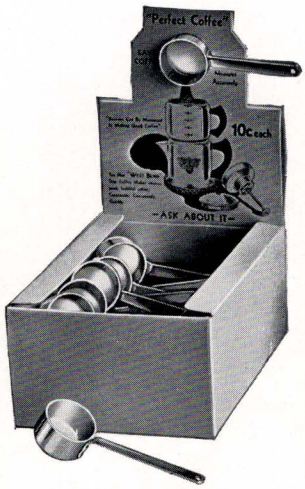

No.	Gauge	Capacity Cups	Case Lot	Ship. Wt. Per Doz. Lbs.
594	20	4	12	19
599	20	9	12	30

Packed one to a corrugated carton.

Distinctive lines together with an attractive embossed design on both pot and dripper clearly make the West Bend coffee maker one of the most popular numbers in the line. The graceful non-burn Thermoplax handle adds still more beauty to the West Bend design.

Simplified one-piece dripper construction —perforated disc is built into dripper. Scientific water distributor is equipped with convenient handle. Cover fits both pot and dripper.

Drip Coffee Tastes Better and is Easy to Make

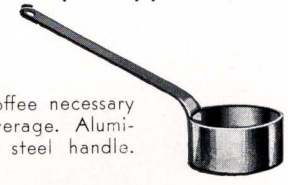

Coffee Measures (1 Cup)

No.	Quantity	Shipping Weight Per ~~Doz.~~ unit Lbs.
P105	~~24~~ 1 105	~~24~~ 2

Twenty-four spoons (1 cup size, No. ~~9022~~) in attractive display carton. Level measure of spoon correct amount for each cup of coffee. Bowl is made of 20-gauge aluminum with strong steel handle securely riveted.

Coffee Measuring Spoon (1 Cup)

No.	Gauge	Ship. Wt. Per Doz. Lbs.
105	20	1

Measures exact amount of coffee necessary for preparing one cup of beverage. Aluminum bowl and nickel-plated steel handle.

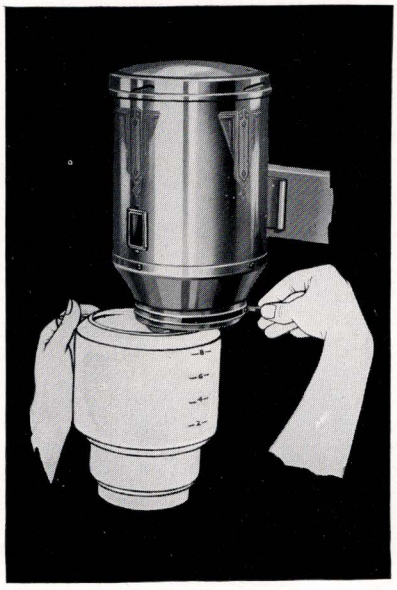

Single Service Drip Coffee Maker

No.	Gauge	Cups	Shipping Weight Per Doz. Lbs.
101	24	1	6

Packed one to a chipboard carton.

For making one cup of full-flavored drip coffee just as rich and stimulating as the beverage prepared in the larger coffee makers. Rests right on the coffee cup—convenient and efficient—cover may be inverted and used as tray when Dripper is removed from cup. No pot to wash.

Meas-O-Matic

No.	Gauge	Capacity Lbs.	Case Lot	Ship. Wt. Per Doz. Lbs.
22	20	2½	6	39

Packed one to a corrugated carton.

The new Meas-o-matic is a self-sealing dispenser which measures coffee automatically and prevents oxygen from robbing the coffee of its freshness. It saves the aroma and coffee flavor. The flavor cannot get out; the oxygen cannot get in. Each forward movement of the release lever automatically measures enough coffee for making one cup of beverage. No loss or waste.

A small window indicates when the supply of coffee will permit refilling. Its convenient capacity of 2½ pounds allows ample storage space for one or two pound purchases.

One Cup Dripette

No.	Gauge	Capacity Cups	Ship. Wt. Per Doz. Lbs.
102	24	1	5

Individually wrapped.

P102 (same as above but packed one to a chipboard carton).

A modern convenience for making one cup of delicious drip coffee. Its construction is similar to the larger drip coffee makers and, therefore, prepares coffee which is just as rich and stimulating. Rests right on the cup. Embossing on side of dripper. Black, ebonized handle securely riveted. With the one cup Dripette, you have no pot to wash.

New Design Percolators

New West Bend Percolators

No.	Gauge	Capacity Cups	Ship. Wt. Per Doz. Lbs.
540½	20	2	11
541	18	4	16
541½	18	6	19
542	18	8	20
543	18	12	25

Packed one to a chipboard carton.

An entirely new design with a small glass top, new modern handle, and tall straight lines. The new West Bend percolator has beauty and design for use on the dining room table and afternoon coffee service. Each size is equipped with Thermoplax non-burn handle, welded spout and flat base for economical heating. The cover has a deep flange which prevents boiling over. No hinge or rivets on cover to come loose.

Fountain Percolator

No.	Gauge	Cups Capacity	Ship. Wt. Per Doz. Lbs.
560	18	9	45

Packed one to a corrugated carton.

An unusual value which combines charm, efficiency and strength. Wide base prevents tipping. Fine perforations of coffee basket and water spreader insure uniform percolation and clean coffee.

Egg Poacher

No.	Gauge	Cap. of Pan Qts.	Top Diam. (Inside)	Ship. Wt. Per Doz. Lbs.
24	20	1½	7 7/16	15

Individually wrapped.

Poaches four eggs at one time. Quick and convenient to use. Insets constructed for easy removal with prongs of a fork. Without insets, the egg poacher may be used as a convenient stew pan.

Modern Straight Side Sauce Pans

Heavy Sauce Pan Set

No.	Gauge	Cap. Qts.	Top Diam. Inches (Inside)	Bottom Diam. Inches (Outside)	Depth Inches (Inside)	Ship. Wt. Per Doz. Lbs.
261 1/2	14	1 1/2	6	6 1/8	3 1/2	16

Roaster Trivet

No.	Gauge
7650	20

Fits Roasters Nos. 155 and 168. Permits basting on either side of roast. Handles for removing contents from Roaster.

Roaster Trivet

No.	Gauge
7652	20

Fits Roaster No. 166. Keeps meats from sticking. Also useful with Kettles and Stock Pots.

New French Fryer

With All-Aluminum Fryer Basket

No.	Gauge	Capacity, Qts.	Top-Diam.	Ship. Wt. Per Doz. Lbs.
3075	20	4	9 1/8	34

Packed one to a corrugated carton.

A modern utensil wtih many exclusive features. Expansion chamber prevents oil from bubbling over and thus eliminates fire hazard. Snug-fitting basket with hexagonal perforations in sides and bottom for quick draining. Deep, narrow pan with cool handles and easy pouring lip.

New French Fryer

With Thermometer and All-Aluminum Basket

No.	Gauge	Capacity, Qts.	Top Diam.	Ship. Wt. Per Doz. Lbs.
3085	20	4	9 1/8	41

Packed one to a corrugated carton.

3084 (Same as above but without thermometer)

Equipped with a special deep frying thermometer, which insures accurate temperature control, this new deep fryer meets every modern requirement. The liberal expansion chamber prevents bubbling over of the oil when food is lowered into the fryer. The snug-fitting, all-aluminum basket provides maximum capacity with minimum amount of oil; the hexagonal perforations in the basket provide quick draining and easy cleaning. Cool handles on Fryer, basket and thermometer.

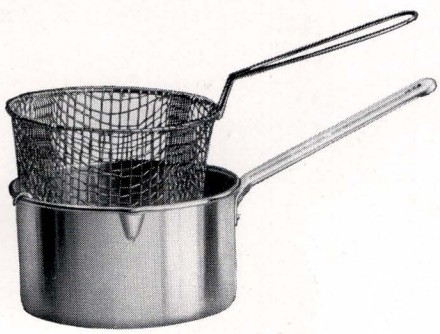

Water-Bath Canner

Speedmaster Electric Tea Kettle

Speedmaster Electric Tea Kettle

No.	Gauge	Capacity Pints	Bottom Diam. Inches	Ship. Wt. Per Doz. Lbs.
3703E	16	5	7 1/8	45

Packed one in corrugated carton.

Additional Specifications

Listed Under Reexamination Service of Underwriters' Laboratories.

Heating Time—
- 2 pints water ..... 5 1/2 min.
- 3 pints ..... 9 min.
- 5 pints ..... 13 min.

Heating Unit.....Replaceable Ring Type
1150 Watts.....110-120 Volts
Working Capacity.....5 pints
Kettle.....Polished 16 Gauge Aluminum
Handle.....Molded, Rich Black
Cord.....Heavy Duty Rubber (with angle plug), 7 feet

Hot Water . . . Anytime . . . Anywhere

The Speedmaster is the newest electrical appliance which is needed daily in every home. And it's economical to operate because it saves up to 40% compared to heating water on the open electric range unit.

Whistles When Water Boils

The Speedmaster is convenient — a mild whistle serves as a gentle reminder when the water boils, and that the current should be shut off. Another convenient feature is the trigger on the spout cap. When filling or pouring, the cool trigger lifts the cap on the spout.

Heats Water 3 Ways

1. As Electric Tea Kettle.
2. As regular Tea Kettle. Remove cord and use Speedmaster on any range, any type of heating unit.
3. Double-Quick Tea Kettle. Connect to convenience outlet and place over heating unit on any type of range.

Glow Lamps — Aluminum and Copper Models

Glow Lamps

Beautiful, all-metal, non-breakable Glow Lamps. Neither the shade nor the base will chip or crack. Height 8 1/4 to 9 in. Silk cord 5 1/2 ft. The Satin-Ray model has blue enamel trim. The copper models have brass knobs on shades providing a rich two-tone color effect. Shades of all models tilt at any angle.

There are many practical uses for Glow Lamps—on the radio, writing desk, hall table, telephone desk, end table; or in the bedroom, living room, nursery or as a night lamp in the hall.

Electric Heat-Rite Base (with cord)

No.	Gauge	Diam. Inside Inches	Volts	Watts	Ship. Wt. Per Doz. Lbs.
3129E	20	6⅜	115	85	18

Packed one to a corrugated carton.

Operating cost approximately one-third cent per hour.
The Electric Heat-Rite Base was developed for drip coffee making devices to keep coffee at SERVING temperature. It will not boil coffee or permit cooling. Also may be used for keeping toast warm, warming serving plates, keeping gravy warm, melting chocolate, Boston baked beans, slow cooking cereals, etc.

The Heat-Rite Unit fits the Kwik-Drip Coffee Makers, Nos. 566, 569, and 572, West Bend Drip Coffee Makers, Nos. 594, 599, and 3518.

An ideal drip coffee maker for demonstration purposes, smaller restaurants, soda fountains, tea rooms, drug stores, etc. For demonstration purposes, the 18 cup Drip Coffee Maker is frequently used with the Speedmaster Electric Tea Kettle shown on page 20 together with the Heat-Rite Base. These three items provide a complete coffee making service. The Heat-Rite Base constantly keeps the coffee at the right serving temperature.

8173	20	3	7¼	3⅞	14

Individually wrapped.

Popular Deep Fryer. Heavy pan with flat bottom and triple riveted, steel handle. Wire basket heavily tinned.

The Waterless Cooker

HEALTH MODEL

The Health Model Waterless Cooker is made from heavy hard aluminum which distributes the heat quickly and evenly, assuring economy as well as healthful and wholesome cooked foods.

No.	Gauge	Capacity Quarts	Inset Pans Capacity Each Quarts	Case Lot	Weight Per Dozen—Lbs.
17	20	7	1¼	6	65
20	20	10	1¾	4	87

Each cooker is packed in corrugated carton, and contains complete instruction and recipe booklet.

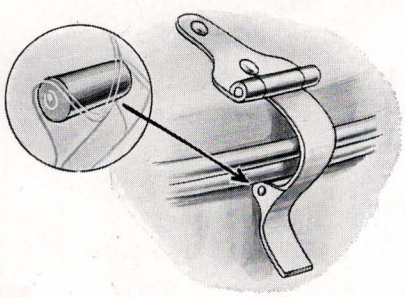

With the Waterless Cooker a complete meal can be prepared at one time over one heating unit turned low. All of the genuine flavors and life-giving elements, such as minerals and vitamins, remain in the food when cooking the waterless way.

The Health Cooker makes unusual savings in fuel and food. Food shrinkage is reduced to a minimum—no loss or waste. Cheaper cuts of meat are tender and nourishing.

CONSTRUCTION FEATURES

1. All rivets are tight and rigid. Snug fitting cover secured with three roller bearing clamps prevents the escape of moisture and food aromas.
2. Automatic Release Valve in cover.
3. Rounded corners—easy to clean.
4. The reversible nickel-plated steel base has corrugated rings insuring even distribution of heat.
5. The dual inset pans are equipped with slits for convenient removal with ordinary table forks.
6. The tin plated wire rack may be used either to hold the inset pans in place, or it may be inverted for canning purposes.
7. Twelve page recipe book with complete instructions packed with each Cooker.

Tested and Approved by Good Housekeeping Institute — GOOD HOUSEKEEPING MAGAZINE

Roller Bearing Clamps

The special roller bearing cover clamps are particularly easy to operate. Even more important, they draw the cooker cover to the pot tightly and closely so as to prevent the escape of food aromas and moisture. The roller bearing feature also prevents scratching of the cooker pot.

Prepares Complete Meal at One Time Over One Burner

MARVEL COOKER

No.	Gauge	Capacity Quarts	Inset Pan Capacity Quarts	Case Lot	Ship. Wt. Per Doz. Lbs.
9036	24	6	2	6	36

Packed six in partitioned corrugated carton.

P-9036 (Same as 9036 but one to corrugated carton)

Cooks Entire Meal at One Time Over One Burner

Prepares healthful, flavorful meals with little or no water. Saves fuel and food. Convenient and modern —place a meal in Cooker and turn the heat down low — and forget until ready to serve. Recipe leaflet included with every Cooker.

The New Economy Cooker

No. 9129 with Single Pan

No.	Gauge	Capacity	Inset Pans Capacity Each	Weight Per Dozen
9129	22	9 quarts	2½ quarts (Single)	48 lbs.
9139	22	9 quarts	1 quart (Dual)	50 lbs.

Each Cooker is packed in corrugated carton, and contains complete instruction and recipe leaflet.

The Economy Cooker prepares a complete meal at one time over one heating unit turned low. It uses little or no water and, therefore, food shrinkage is reduced to a minimum—no loss or waste. All the genuine flavors and life-giving elements, such as minerals and vitamins, remain in the food. The Economy Cooker assures healthful and wholesome cooked foods.

CONSTRUCTION FEATURES

1. The Economy Cooker is made from hard sheet aluminum. Distributes the heat quickly and evenly.
2. Automatic release valve in cover.
3. All rivets are tight and rigid. The clamps are nickel-plated and securely fastened to the cover.
4. Patented construction for removing inset pans—slits allow easy removal with ordinary forks.
5. Modernistic design — aluminum highly polished to a lustre finish. Rounded corners—easy to clean.
6. Base made of tinned steel.
7. Eight-page folder containing instructions and recipes packed with each Cooker.

No. 9139 with Dual Pans and Rack

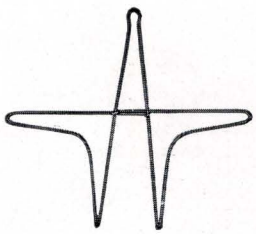

Prepares Complete Meal at One Time Over One Burner
