REGAL MICROWAVE COOKWARE

A new wave of cooking convenience

Microwave cookware is currently the fastest growing segment of the housewares industry. The leading producer of rangetop cookware now offers the widest assortment of quality built cookware and accessories developed specifically for microwave ovens.

MATERIAL

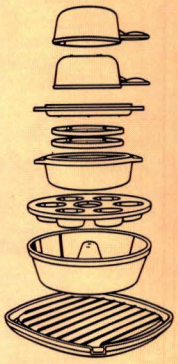

Regal® and Imperial® microwave cookware lines are constructed from a unique glass-filled polyester. This material allows 95 to 97% of the microwave energy to be transmitted directly to the food. It can also be used in convection or conventional gas and electric ovens to 450°F and 410°F, respectively. It resists staining, won't get soft or melt in any oven and goes from freezer or refrigerator directly to the oven without cracking, chipping or breaking. Quick Chefs™ microwave cookware is designed for use in microwave ovens exclusively. Most items include a combination of plastic and metal that is microwave safe and results in traditional browning and steaming.

DESIGN

The exacting design which went into the development of this cookware means optimum service to the user. All products are dishwasher safe. Rounded corners, raised bases, deep-ribbed grills, well placed handles and pouring lips are appropriately included features that achieve maximum consumer satisfaction. The results are repeat and add-on sales.

SUPPORT

Regal offers a comprehensive marketing support program to assist retailers. High-impact television and magazine advertising is designed to presell the consumer. Full-color packaging and point-of-purchase labels gain shopper attention. In-store demonstration tapes are available through Regal representatives. A staff of factory-trained demonstrators is available for store promotions, seminars and cooking classes.

STACKABILITY

Imperial microwave cookware is designed so all the basic pieces stack into a compact 9½ inches. This versatile combination includes everything you need to cook a complete meal from meat or maindish to vegetable and dessert, and store it before or after cooking in refrigerator or freezer. Stacked as shown: 2 Cook & Serve Pans, inverted; Divided Dish Casserole Cover; 2 Covers for Cook & Serve Pans; 1 qt. Casserole; Muffin Pan; Baking Ring; Bake & Roast Grill.

FULL-COLOR PACKAGING

Attention-getting, full-color cartons designed to inform the consumer, increase impulse sales and build attractive displays.
