CERAMIC CLAD PORCELAIN ENAMEL FOR NEW BEAUTY . . . LASTING BEAUTY

Tough, durable porcelain ceramic is permanently bonded to extra-heavy, even-cooking aluminum. The hard, non-porous surface won't fade or discolor. Completely safe atop the stove or in the dishwasher. Each piece is offered in a majestic color choice of Avocado and Flame. Best of all these colors are fused on for long lasting beauty . . . resisting chipping, staining, scratching and scorching.

COOKS WITH "LOW" HEAT THE "WATERLESS" WAY

Only "low" or "simmer" heat is needed. This modern method helps preserve health-building vitamins and minerals often wasted by ordinary cooking methods. Foods are cooked in their own natural juices. Meats become tender and savory — fruits and vegetables retain fresh garden goodness.

"LEATHER-GRAIN" HANDLES AND KNOBS

New leather-grain handles and knobs stay cool and easy to grip. Made from heat-resistant material. Metal heat guards protect handles from too-high heat.

TOTALLY UNIQUE 4-PLY CONSTRUCTION featuring CAST ALUMINUM BOTTOM

Regal Thermic-Ray is today's most advanced design in cookware featuring totally unique 4-ply construction. This means that in addition to 3-ply Stainless Steel you get thick aluminum Bottoms for fast heat absorption and even distribution. Cooking heat is then spread quickly and evenly throughout the whole utensil — even up the side walls. Therefore, only "low-heat" is needed when cooking. Amazing Vapor Seal rims "lock in" moisture for waterless cooking — helps preserve precious vitamins and flavor for more delicious, more nutritious meals.
