HOME SERVICE DEPARTMENT

Kitchen Tested

Continuous research in the Home Service department assures the homemaker of housewares and appliances that are both convenient and dependable. Each new product, when developed, is carefully checked in our test kitchen for maximum efficiency and performance. Only then is a new utensil or appliance released for production. Recipes are also collected and tested to help the homemaker enjoy "happier homemaking" with West Bend housewares and appliances.

WATERLESS COOKWARE

WATERLESS COOKING . . . what it is

Waterless cooking is a method of food preparation which cooks foods in their own natural juices and moisture, with little or no added water. In ordinary cooking methods, for example, vegetables are immersed in water during the cooking process. In waterless cooking — vegetables are cooked with little or no water at lower temperatures, thereby retaining more of the original minerals, vitamins, and nutrients.

Besides, vegetables retain their natural color, flavor and firmness, making them far more appetizing. Since the benefits of foods to the human body depend to some extent on how they are cooked and prepared, waterless cooking is now recognized by leading dietetic authorities as a superior cooking method from the standpoint of nutrition, flavor, taste, economy and convenience.

WATERLESS COOKING . . . highly recommended.

Demands of modern living make it necessary for people to have nourishing foods which contain more of the natural health-building elements. The important advantages of the waterless cooking method in preserving these nutrients are widely accepted and endorsed by leading food experts and dieticians.

WATERLESS COOKING . . . what it means in actual savings

SAVES FUEL

Triple-thick aluminum requires only low heat to cook meats and vegetables. Heat is conducted quickly and evenly through bottom, sides and cover of each utensil.

SAVES FOOD

Food shrinkage is reduced to a minimum when using the waterless method of cooking. Inexpensive cuts of meat become tender and nourishing.

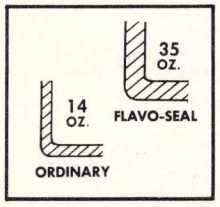

SAVES TIME AND ENERGY

Waterless cookware saves time — reaches cooking temperature fast — then cooks rapidly over low heat. Requires no watching while cooking. Gleaming aluminum is simple to clean, too.

SAVES ON REPLACEMENT COSTS

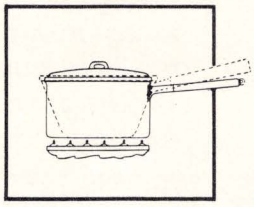

Ordinary utensils become worn and must be replaced frequently. Flavo-Seal cooking utensils, with a minimum of care, will last indefinitely.

FEATURES

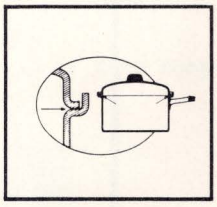

TRIPLE THICK

Above sketch illustrates the difference between Flavo-Seal aluminum cookware and ordinary aluminum cooking utensils.

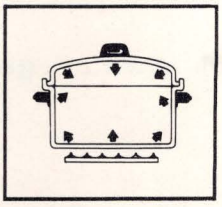

WIDER HEATING SURFACE

Flavo-Seal has an increased heating surface compared to the ordinary type of cookware. Wide flat bottom covers entire heating unit —no fuel is wasted.

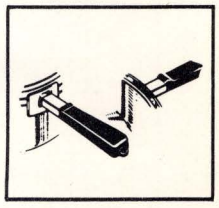

FLAVO-SEAL COVER

New cover design forms metal-to-metal contact which seals in flavor and conducts even temperature throughout cover from sides of pan.

HIGH THERMAL EFFICIENCY

Triple-thick pure rolled sheet aluminum conducts heat quickly and evenly through bottom, sides and cover of pan. Saves fuel.

ELECTRICALLY WELDED HANDLES

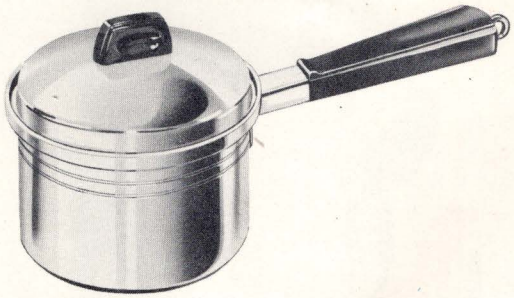

Handle socket is smoothly and permanently welded to pan by electricity. Eliminates all rivets on inside surface—easy to clean. Molded plastic handles.

TRIPLE-THICK ALUMINUM

1 QUART SAUCE PAN

Designed for smaller vegetables, sauces, baby foods, cereals, and preparing left-overs. Perfect for small quantities of foods which would ordinarily burn or scorch. Can be used as a double boiler, if foods are prepared over a low heat.

No.	Gauge	Capacity Qts.	Overall Bottom Diam. In.	Ship. Wt. Per Doz. Lbs.
3121	10	1	5⅛	22

2 QUART SAUCE PAN

Suitable for sauces, puddings, frostings and other foods which ordinarily require a double boiler. Because it's made of triple-thick aluminum, delicate foods can be cooked on low heat.

No.	Gauge	Capacity Qts.	Overall Bottom Diam., In.	Ship. Wt. Per Doz. Lbs.
3122	10	2	6½	30

COMBINATION SAUCE PAN

The 2-quart inset with 3-quart sauce pan permits preparation of two foods at once, saving time and effort. It can be used as a combination cooker or covered stew pan. Inset doubles as a mixing bowl or baking dish.

advertising helps / selling tools to increase your sales and profits

A complete ad mat service is available for use in local newspapers to tell your prospects (many of whom have seen the West Bend national magazine advertising) where they can buy West Bend products. Also available are: glossie prints, full-color circulars which tell a quick factual story and make excellent statement enclosures, business reply cards that are an inexpensive and effective method of reaching your customers by direct mail.

packaging program / packed to stand up — labeled to stand out

West Bend's family-design containers make it easy for sales people as well as your customers to identify the West Bend package. Featured on the new container is the West Bend name logotype and item name, number, material, and illustration. Many also carry a quick-selling message of features and extra uses on the side panels. In addition, the West Bend container safeguards the product during shipment to guarantee safe arrival at its destination.

store window displays / eye appealing . . . traffic building

Compact full-color displays for your store window are available to help build store traffic. The more attractively the merchandise is displayed, the better impression it makes on the public. Planned rotation of window displays, by season or event, keeps windows interesting and fresh looking and offers the opportunity to feature all major items in the West Bend line. Complete display kit includes 3 large displays, 6 small displays, 6 pennants and 3 "special" price tags.
