SALES PROMOTION CARDS

These display cards are yours for the asking. They are colorful aids in decorating your display tables and windows. From time to time new cards are designed to replace those illustrated here. When we make these changes, the new cards will be used to fill your requests.

PERCOLATOR DISPLAY

This percolator display is another silent salesman with a strong sales story on the new features of this world famous percolator group. It calls attention to the five sizes and the exclusive features of these fast sellers.

FRYER DISPLAY

To properly display this unusual French Fryer, we have prepared this cut-out card. It lists the important features and presents a strong sales talk when customers are shopping through your store.

SEE INDEX INSIDE BACK COVER

The West Bend Matched Line
Satin-Ray Finish with Red or Black Trim
Silver-Sheen (Polished) Finish with Black Trim

SELLING COMPLETE SETS FOR LARGER UNIT SALES

The new matched set is your opportunity for larger unit sales —because today's kitchen calls for ensemble furnishings. The set idea has developed more profitable merchandising in several ways:

1. Selling complete sets instead of individual items.
2. Repeat store traffic—when one or two utensils are purchased at a time until the set has been completed.
3. Replacements are suggested when a matched set is displayed. When the customers are shown the complete set, they immediately want to replace old and obsolete pans.

Many housewives are anxious to start a set when they discover it can be obtained a few pieces at a time. And the increased visits to your store will undoubtedly sell other pieces besides the Matched Aluminum Ware.

SATIN-RAY FINISH

(Illustrated Above)

Now Available with Black or Red Trimmings

This beautiful and popular finish is now available with either the black or red bakelite trim. The choice of two different trimmings provides two distinct sets for group merchandising. Satin-Ray radiates a glow of diffused light which is particularly pleasing to the eye, and exceptionally easy to display attractively. Its rich appearance is emphasized still more by the contrasting trim of cherry red or jet black.

SILVER-SHEEN FINISH

The matched line is also available in the brilliantly polished finish called Silver-Sheen. This finish is made up with the black bakelite trimmings.

MANY SET COMBINATIONS

With the individual utensils, illustrated on pages 4, 5 and 6, you can make up as many different sets as you find it possible to sell profitably. The set illustrated above contains 9 pieces. It is only one of the many sets which you can make up in variations of size and price. A five piece set is advantageous for merchandising when you want to show matched utensils and not have the price run too high. Larger sets, of course, are more advantageous for display as well as attracting those customers who are buying a complete new set. Brides' sets always run into more pieces than your other utensil sets.

Drip Coffee Maker

Number	Gauge	Finish	Molded Trimmings	Capacity Cups	Ship. Wt. Per Doz. Lbs.
528	18	Silver Sheen	Black	8	24
1548	18	Satin-Ray	Red	8	24
1558	18	Satin-Ray	Black	8	24

Packed one to corrugated carton.

Designed to match the other numbers in the new ensemble. Six-rivet connection attaches handle socket securely to the Coffee Maker. No-drip spout is easily cleaned. Cover fits both pot and dripper.

See other drip coffee makers, pages 14, 16, 27, 37.

Double Boiler

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
431½	18	Silver-Sheen	Black	1½	21
1531½	18	Satin-Ray	Red	1½	21
1551½	18	Satin-Ray	Black	1½	21

Individually wrapped.

New straight-sided double boiler. Square bead construction flush with both inset and bottom. Permits use of bottom as regular sauce pan. Triple-tinned steel handles have modern appearance of silverware—fluted ends and lineal decorations on top surface.

See other double boilers, pages 20, 39.

Tea Kettle

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
514	18	Silver-Sheen	Black	4	22
1524	18	Satin-Ray	Red	4	22
1534	18	Satin-Ray	Black	4	22

Packed one to a chipboard carton.

Whistles When Water Boils

One of the most popular numbers in the matched line — a new tea kettle which is really convenient and economical. A unique trigger arrangement operates the whistle cap on the spout—when pouring or filling.

See other tea kettles, pages 12, 21, 37.

Sauce Pan Set

Number	Gauge	Finish	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
241	18	Silver-Sheen	1	9
241½	18	Silver-Sheen	1½	10
242	18	Silver-Sheen	2	12
1421	18	Satin-Ray	1	9
1421½	18	Satin-Ray	1½	10
1422	18	Satin-Ray	2	12

Individually wrapped.

Set No.	Case Lot	Ship. Wt. Per Doz. Lbs.
247	1 doz. sets	22

Consists of 1 ea.: 241, 241½, 242 pans.

1427	1 doz. sets	22

Consists of 1 ea.: 1421, 1421½, 1422 pans.

The sauce pans follow the same design as other items in the new West Bend line. The handles are particularly good looking.

See other sauce pans, pages 18, 19, 20, 38.

Features Illustrated on Page 7

Percolator

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
522	18	Silver-Sheen	Black	2	17
1542	18	Satin-Ray	Red	2	17
1544	18	Satin-Ray	Black	2	17

Packed one to a chipboard carton.

Cover fits deep over basket—eliminates boiling over. No hinge on cover—eliminates breakage. Glass top matches molded knobs of other items. Six-rivet connection attaches handle socket securely to percolator.

See other percolators, pages 17, 36.

Sauce Pots

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
324	18	Silver-Sheen	Black	4	24
326	18	Silver-Sheen	Black	6	26
1454	18	Satin-Ray	Red	4	24
1464	18	Satin-Ray	Black	4	24
1456	18	Satin-Ray	Red	6	26
1466	18	Satin-Ray	Black	6	26

Individually wrapped.

Fitted with unusually heavy steel handles—easy and convenient to grip. Handles are accurately machined to fit contour of pot. Tight, square bead construction for sanitation.

See other sauce pots, pages 20, 39.

Covered Sauce Pan

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
344	18	Silver-Sheen	Black	4	24
1474	18	Satin-Ray	Red	4	24
1494	18	Satin-Ray	Black	4	24

Individually wrapped.

Molded knob on cover fitted with finger-tip protector so that finger tips do not come in contact with warm cover.

See other sauce pans, pages 8, 18, 19, 38.

Covered Kettle

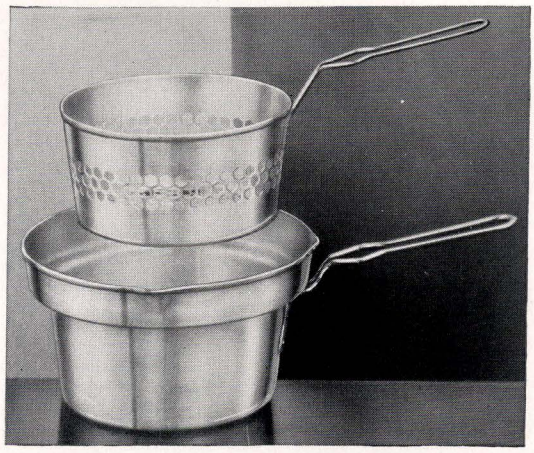

Number	Gauge	Finish	Molded Trimmings	Capacity Qts.	Ship. Wt. Per Doz. Lbs.
374	18	Silver-Sheen	Black	4	30
376	18	Silver-Sheen	Black	6	32
1486	18	Satin-Ray	Red	6	32
1496	18	Satin-Ray	Black	6	32

Individually wrapped.

Cool molded grip is baked on the bail handle. Natural sure-grip contour for easy handling. Notched ears keep bail away from side of kettle. Handy lift facilitates draining.

See other kettles, pages 19, 39.

Features Illustrated on Page 7

French Fryer

No.	Gauge	Finish	Capacity Qts.	Top Diam. Inches (Outside)	Ship. Wt. Per Doz. Lbs.
1575	20	Satin-Ray	4	9 1/8	34

Individually wrapped.

A modern utensil with many exclusive features. Expansion chamber prevents oil from bubbling over and thus eliminates fire hazard. Snug-fitting basket with hexagonal perforations in sides and bottom for quick draining. Deep, narrow pan with cool handles and easy pouring lips.

See other fryers, pages 11, 32, 40.

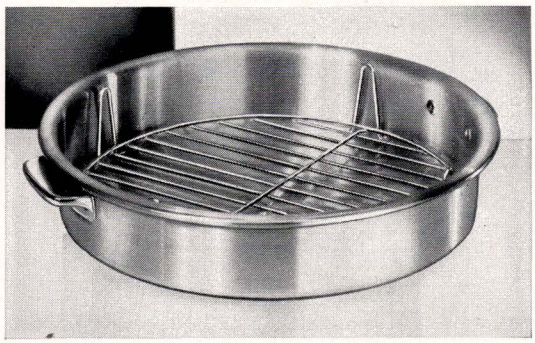

Fry Pan

No.	Gauge	Overall Top Diam. Inches	Bottom Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1510	12	10	9 1/4	1 7/8	19

Individually wrapped.

A well balanced fry pan with straight lines and triple-tinned steel handle. Designed to harmonize with other numbers in the matched line. Made up in Satin-Ray finish only.

See other fry pans, page 21.

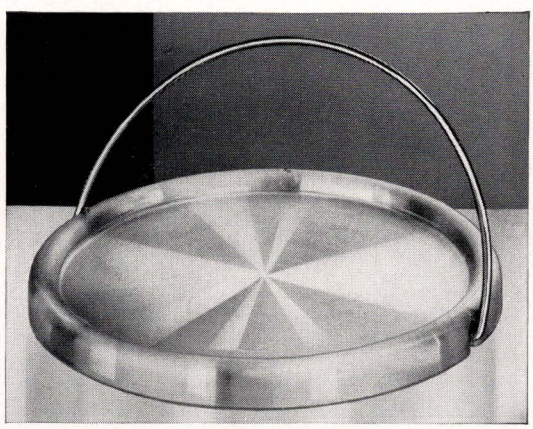

Roaster-Broiler

No.	Gauge	Finish	Top Diam. Inches (Outside)	Depth Inches (Inside)	Ship. Wt. Per Doz. Lbs.
1412	16	Satin-Ray	13 1/16	2 5/8	34

Individually wrapped.

A convenient two-in-one utensil which matches the design and finish of all other pieces in this beautiful group. Rack may be inverted or removed. When not in use as a broiler, it provides an excellent open roaster for oven use.

Super-Heavy Round Griddle

No.	Gauge	Diam. Baking Surface, Inches	Overall Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1930	8	10	11 1/2	3/8	30

Individually wrapped.

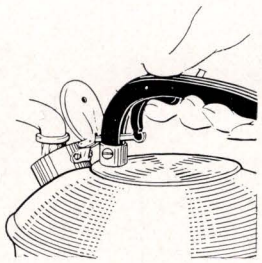

Heavily tinned wire steel handle. An excellent greaseless griddle on one side, broiler on other.

See other griddles, page 9.

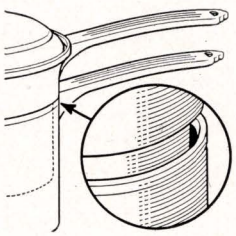

Molded Baked-on Grip Special Ear and Lift

Cool molded grip is baked on the bail handle. Natural sure-grip contour for easy handling. Notched ears keep bail away from side of kettle. Handy lift facilitates draining.

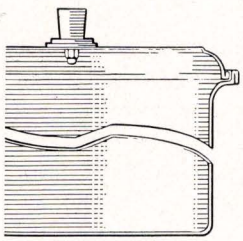

Trigger Lifts Spout Cap on Whistling Tea Kettle

Unique trigger arrangement operates cap on spout when pouring or filling. Note natural position of index finger on handle when operating trigger. Whistle in cap gently sings when water boils.

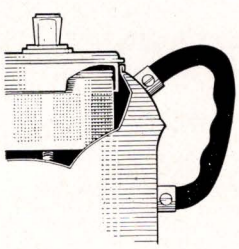

Modern Steel Handles Straight-Sided Double Boiler

The triple-tinned steel handles with fluted ends and modernistic lines are rich in appearance. One-piece construction for greater strength and rigidity.
New straight-sided double boiler. Square bead construction flush with both inset and bottom. Permits use of bottom as regular sauce pan.

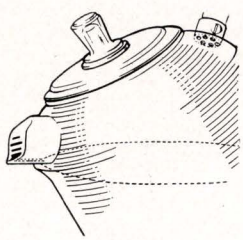

New Knob and Bead

Square bead construction of both cover and utensil provides easy cleaning and sanitary seal. Molded knob on cover fitted with finger-tip protector so that finger tips do not come in contact with warm cover. Knob attached with hexagonal, rust-proof aluminum nut.

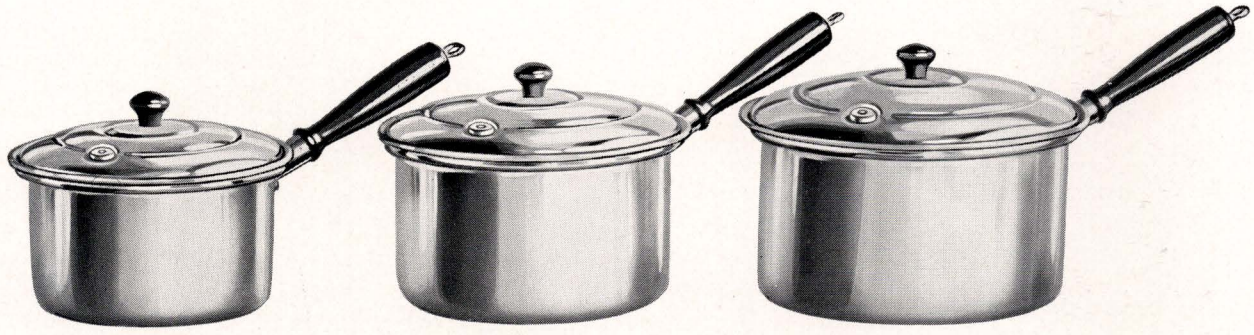

Percolator Cover No Boiling Over

Cover fits deep over sides of basket and eliminates boiling over. No hinge on cover to break or loosen. Sturdily constructed basket fitted with water distributor which insures thorough and even percolation.

No-Drip Spout

Cover fits deeply over basket — eliminates boiling over. No hinge on cover—eliminates breakage. Especially constructed no-drip spout, easily cleaned. Glass top matches molded knobs of other items. Six-rivet connection attaches handle socket securely to percolator.

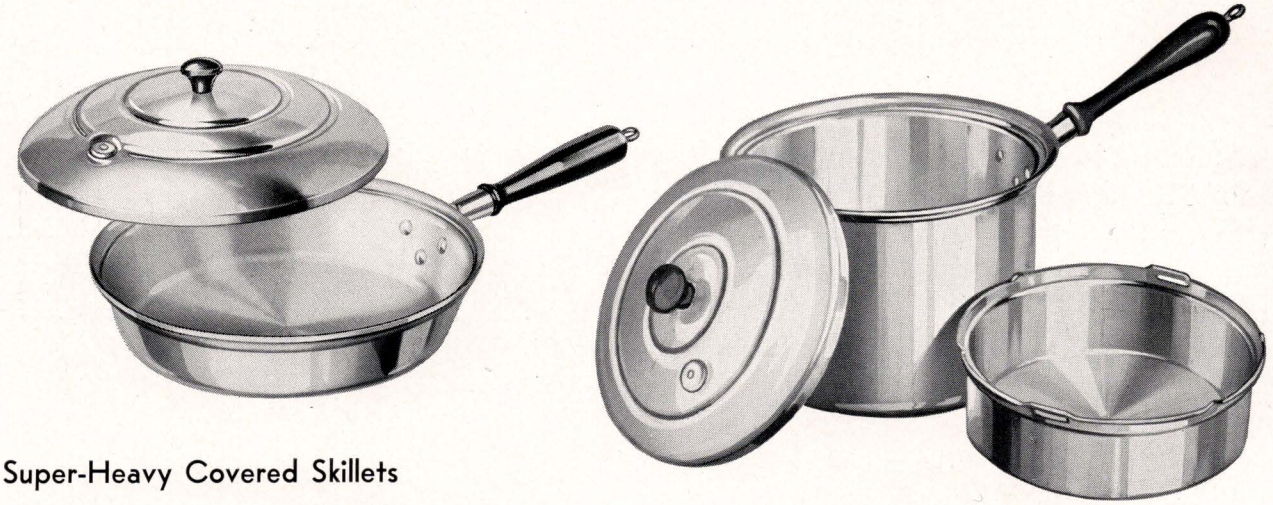

1252—2 quart 1253—3 quart 1254—4 quart

Super-Heavy Sauce Pans

No.	Gauge	Capacity Quarts	Depth Inches	Diam. of Bottom Inches	Ship. Wt. Per Doz. Lbs.
1252	10	2	4	6½	33
1253	10	3	4½	7¼	38
1254	10	4	4⅞	8¼	42

Individually wrapped.

These triple-thick Sauce Pans in three convenient sizes are typical of the extra quality of "West Bend" Super-Heavy Ware. Covers fitted with Thermoplax Knobs attached with aluminum, rust-proof, hexagonal nuts. Covers have self-basting and steam vent features. Patented turn-proof handle.

Super-Heavy Covered Skillets

No.	Gauge	Top Diam. Inches	Depth Inches	Ship. Wt. Per Doz. Lbs.
1920	8	10	2¼	37
1921	8	11	2⅜	42

Individually wrapped.

Here are two Super-Heavy Covered Skillets with many new features: Self-sealing, self-basting covers, removable handle; Thermoplax, non-burn knob; curved edge for easy stirring; flat bottom for more efficient heating.

Super-Heavy Combination Sauce Pan

No.	Gauge	Cap. Quarts	Inside Diam. Inches	Depth Inches	Capacity Tray, Qts.	Ship. Wt. Per Doz. Lbs.
1244	10	4	8	5⅝	1½	45

Individually wrapped.

The pan is twice as efficient as any ordinary Sauce Pan, because two foods can be prepared at the same time. Constructed of heavy gauge, pure aluminum throughout, insuring even heat distribution and perfect adaptation to waterless or minimum water cooking. Self-basting cover with steam vent and Thermoplax Knob. Turn-proof handle.

No. 6-65 Super Heavy Set

Composition

No.	Gauge	Size	Item
1252	10	2 qt.	Sauce Pan
1253	10	3 qt.	Sauce Pan
1244	10	4 qt.	Combination Sauce Pan
1921	8	11 inch dia.	Covered Skillet

Individually wrapped.
Packed one set to a corrugated container.
Shipping weight, 175 pounds per dozen sets.
Recipe booklet furnished with each set.

All of the utensils in this set are especially designed for Waterless Cooking. The thick aluminum is particularly efficient in saving fuel and food—food is prepared over a low burner. The combination sauce pan serves as two utensils because two foods can be prepared at one time, one in the inset pan and the other in the regular utensil.

Super-Heavy Griddle With Wooden Handle

No.	Gauge	Diam. Baking Surface, Inches	Overall Diam. Inches	Depth Inches	Ship. Wt. Per Doz Lbs.
1925	8	10	11½	⅜	31

Individually wrapped.

Turn-proof handle. Needs no grease, thus eliminating odor and smoke. Fine for griddle cakes or broiling. Extra thick.

No. 1930 Griddle (with bail handle). See page 6.

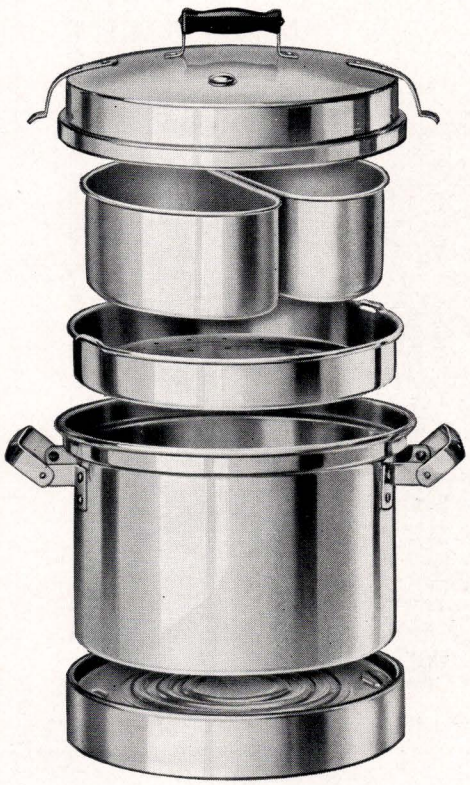

Super-Heavy Chicken Fryer

No.	Gauge	Top Diam. Inches	Bottom Diam. Inches	Overall Depth Inches	Ship. Wt. Per Doz. Lbs.
1221	8	11	8¼	4⅛	38

Individually wrapped.

A large chicken fryer with deep cover which allows approximately a 4 inch depth inside. It's a convenient utensil when preparing fowl — large enough for two small chickens or one large fowl. Two cool Thermoplax non-burn handles on side of cover. Removable turn-proof handle on pan. Outside in beautiful polished finish. Inside Sun-Ray finish.

Super-Heavy Ware Cooks with Little or No Water

The Waterless Cooker

GENUINE WEST BEND MODEL

SPECIFICATIONS

No.	Gauge	Capacity Quarts	Capacity Inset Pans Each, Qts.	Ship. Wt. Per Doz. Lbs.
138	18	8	1½	75
142	16	12	2	97

Each cooker is packed in corrugated carton, and contains complete instructions in 24 page recipe book.

Prepares a complete meal at one time over one heating unit turned low. Retains practically all of the genuine flavors and healthful elements such as minerals and vitamins in the food. The Waterless Cooker makes unusual savings in fuel and food. Food shrinkage is reduced to a minimum. Cheap cuts of meat are tender and nourishing.

See other cookers, pages 41, 42.

THE ONE UTENSIL FOR EVERY KITCHEN

All Year Profit Number

Construction Features

1. All rivets are tight and rigid. Snug fitting cover secured with heavy nickel-plated clamps prevents the escape of moisture and food aroma.
2. Automatic release valve in cover insures positive temperature control.
3. Rounded corners make the utensil easy to clean.
4. Special Air-su-lated base enables cooker to be used on any type of heating unit.
5. Dual inset pans are equipped with slits for convenient removal with ordinary fork.
6. The steamer tray provides greater utility for steaming purposes.
7. The entire cooker is especially designed to give ample space below the dual pans.
8. Large dual pan capacity.
9. 24-page recipe booklet with complete instructions packed with each cooker.

Has Many Sensational Appeals

SERVES MANY PURPOSES
Besides preparing complete meals at one time, The Waterless Cooker is excellent for baking, roasting, boiling and steaming.

HEALTH APPEAL
When cooking the waterless way, many of the valuable mineral salts and nutritious elements in foods are saved. Ideal for growing children who need vitamins and minerals.

ECONOMY
Saves both fuel and food. Saves fuel because a complete meal is cooked over one low burner. Saves food because there is less food shrinkage and because cheaper cuts of meat become tender and nourishing.

CONVENIENCE
After the meal is started in The Waterless Cooker, it needs no watching. Food does not scorch, burn or boil down. The housewife will have more time for the many other things she likes to do.

CANNING
The recipe book contains complete instructions on how The Waterless Cooker can be used for canning. More savings.

COOL KITCHEN
With only one burner turned low, the kitchen remains cool. This is most appreciated on summer days.

There Is Only One Waterless Cooker and West Bend Makes It

New

FRENCH FRYER

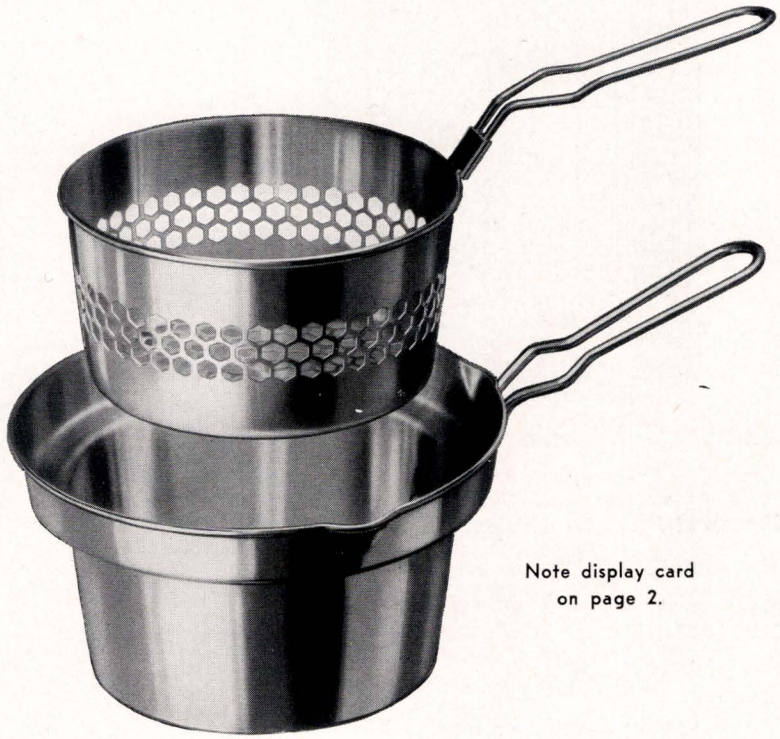

with All-Aluminum Fryer Basket

No.	Gauge	Capacity, Qts.	Top Diam.	Ship. Wt. Per Doz. Lbs.
3075	20	4	9 1/8	34

Packed one to a corrugated carton.

A modern utensil with many exclusive features. Expansion chamber prevents oil from bubbling over and thus eliminates fire hazard. Snug-fitting basket with hexagonal perforations in sides and bottom for quick draining. Deep, narrow pan with cool handles and easy pouring lip.

See other fryers, pages 6, 32, 40.

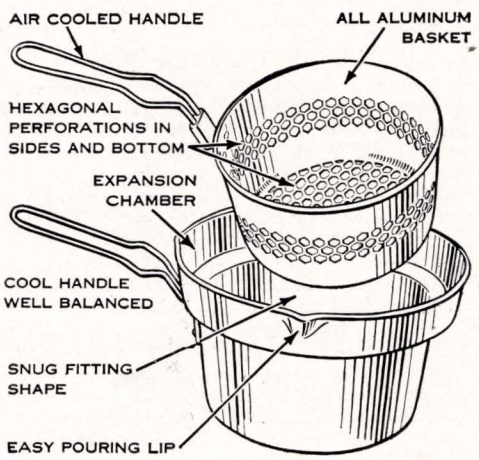

Note display card on page 2.

TIME AND TEMPERATURE GUIDE

Food	Temperature	Cooking Time
Croquettes (Cooked meats)	390° F.	1 minute
Doughnuts	360° F.-375° F.	3-5 minutes
Fritters (Uncooked mixtures)	360° F.-375° F.	3-5 minutes
Potatoes (1/2" strips)	385° F.-400° F.	5 minutes
Oysters	390° F.	1 minute
Fish	375° F.-400° F.	3-5 minutes

EXCLUSIVE FEATURES

Now a new French Fryer which meets every modern requirement. It provides the new, convenient, healthful way of preparing crisp and full-flavored foods. This utensil adds many delicious variations to the every-day menu.

CONVENIENT TO USE

1. Fill fryer with 1 1/4 to 1 1/2 quarts of cooking oil. Use only 1 1/4 quarts of oil for raw foods, such as potatoes or fish, which contain a great amount of moisture. Use 1 1/2 quarts of oil for doughnuts, fritters and similar foods.

2. Heat oil or fat to proper temperature, cover bottom of basket with food, then fry as long as recipe requires.

3. When food is cooked, lift basket, shake gently to drain off surplus oil and turn out on absorbent paper to drain.

4. Clear oil by straining through filter paper or clean, white cloth. In this manner the life of the oil is prolonged for further use.

A New Utensil—Easy to Use and Easy to Clean

Whistling Tea Kettle

No.	Gauge	Capacity Qts.	Metal	Case Lot	Ship. Wt. Per Doz. Lbs.
702	22	2	Aluminum (Satin Ray)	12	18
703	22	2	Aluminum (Polished)	12	18
4462	26	2	Solid Copper	12	22
4512	26	2	Chromium Plated on Solid Copper	12	22

DISCONTINUED—NO STOCK

Packed one to a corrugated carton.

Beauty and Cheer for the Kitchen

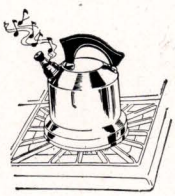

With its striking futuristic design, the Whistling Tea Kettle provides beauty and cheer for the kitchen. No other utensil is more delightful as well as practical to use than this new whistler.

See other whistling tea kettle, page 4.

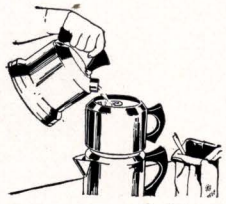

Easy to Fill

The removable whistle permits easy filling directly through large spout. Wood Knob on whistle remains cool.

Whistles When Water Boils

When the water boils, the tea kettle whistles. No wasted fuel—turn off the heat as soon as the water boils.

In Making Coffee

Exceptionally quick when making 2 to 9 cups of coffee. Note the Thermoplax non-burn handle on the Whistling Tea Kettle.

Preparing Tea

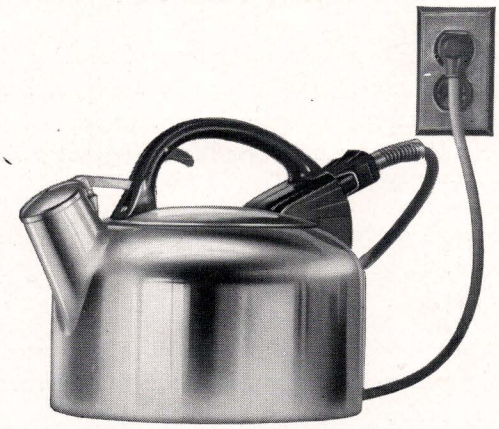

There is no waste of time, energy or fuel in making tea when you have a Whistler. The cheery whistle reminds you when the water starts to boil.

Many Other Uses

For a dozen other occasions during the day—in baking and cooking — when hot water is wanted quickly.

SPEEDMASTER ELECTRIC TEA KETTLE

Speedmaster Electric Tea Kettle

No.	Gauge	Capacity Pints	Bottom Diam. Inches	Ship. Wt. Per Doz. Lbs.
3703E	16	5	7 1/8	45

Packed one in corrugated carton.

Hot Water . . . Anytime . . . Anywhere

The Speedmaster is the newest electrical appliance which is needed daily in every home. And it's economical to operate because it saves up to 40% compared to heating water on the open electric range unit.

Whistles When Water Boils

The Speedmaster is convenient—a mild whistle serves as a gentle reminder when the water boils, and that the current should be shut off. Another convenient feature is the trigger on the spout cap. When filling or pouring, the cool trigger lifts the cap on the spout.

Additional Specifications

Listed Under Reexamination Service of Underwriters' Laboratories.

1150 Watts ..... 110-120 Volts
Working Capacity ..... 5 pints
Kettle ..... Polished 16 Gauge Aluminum
Handle ..... Molded, Rich Black
Cord ..... Heavy Duty Rubber (with angle plug), 7 feet

The Drip Method of Coffee Making

WEST BEND ALUMINUM

Now Replacing Other Methods

Within the past few years America has been turning to Drip Coffee—because it is a delicious, full-flavored and wholesome beverage. Drip Coffee tastes better — it is healthful to drink and is free from any harmful or undesirable elements.

Only the rich aromatic oils are extracted from the coffee by the drip method. These oils are stimulating and aid digestion; they bring out the full flavor and taste of the coffee. Always uniform, drip coffee yields the same goodness and strength at every making. There is no chance for error.

Tests Favor Drip Coffee

Several tests have revealed that the drip method extracts only the desirable stimulating ingredients from coffee. The harmful and undesirable elements are not as quickly dissolved as the aromatic oils and thus remain in the grounds.

Recommended and Endorsed

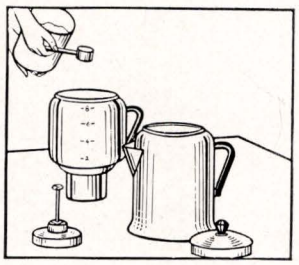

Leading food authorities and dietitians recommend this improved coffee brewing method and national magazines have devoted pages of space to modern drip coffee making methods.

The principle was endorsed by the Coffee Roasters Association after the Massachusetts Institute of Technology had carefully investigated the various methods of coffee brewing.

Three Easy Steps

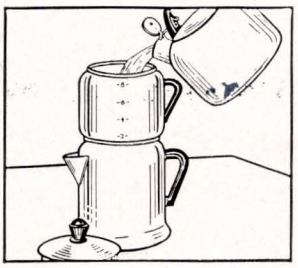

1

Measure coffee into dripper—always the same—no guessing. Then place water distributor over grounds and set dripper on pot.

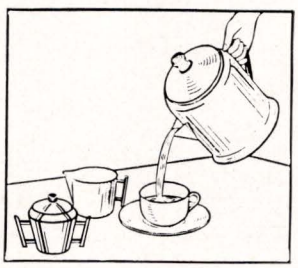

2

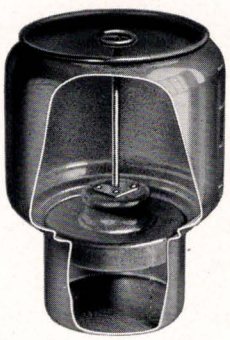

Pour boiling water into dripper — graduation marks on side of dripper make it easy to prepare exact amount of coffee desired.

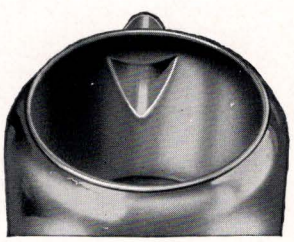

3

After water has dripped through, you have uniform, full flavored drip coffee — ready to serve immediately. It is always good and healthful to drink.

One-piece dripper construction; convenient handle on water spreader.

Sanitary spout—easy to clean. Welded — will not leak. No corners or crevices to collect sediment.

Thermoplax non-burn handles securely attached to pot and dripper.

Rounded Corners and Open Spouts — Easy to Clean

Kwik-Drip Coffee Maker

No.	Gauge	Capacity Cups	Case Lot	Ship. Wt. Per Doz. Lbs.
566	20	6	12	21
569	20	9	12	28
572	20	12	6	40

Packed one to a corrugated carton.

West Bend Drip Coffee Makers

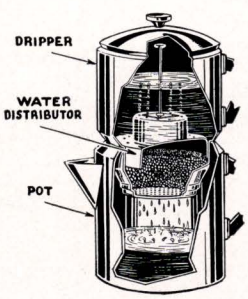

No.	Gauge	Capacity Cups	Case Lot	Ship. Wt. Per Doz. Lbs.
594	20	4	12	19
599	20	9	12	30

Packed one to a corrugated carton.

For Making Full-Flavored, Aromatic Drip Coffee

The new Kwik-Drip coffee makers are typical of West Bend quality. They are modern in style and design — with the highly polished aluminum shaped into attractive lines. Each coffee maker is equipped with Thermoplax knob and handles. They have sanitary spouts—no corners or crevices—easy to clean. Cover fits both pot and dripper.

See other drip coffee makers, pages 4, 16, 27, 37.

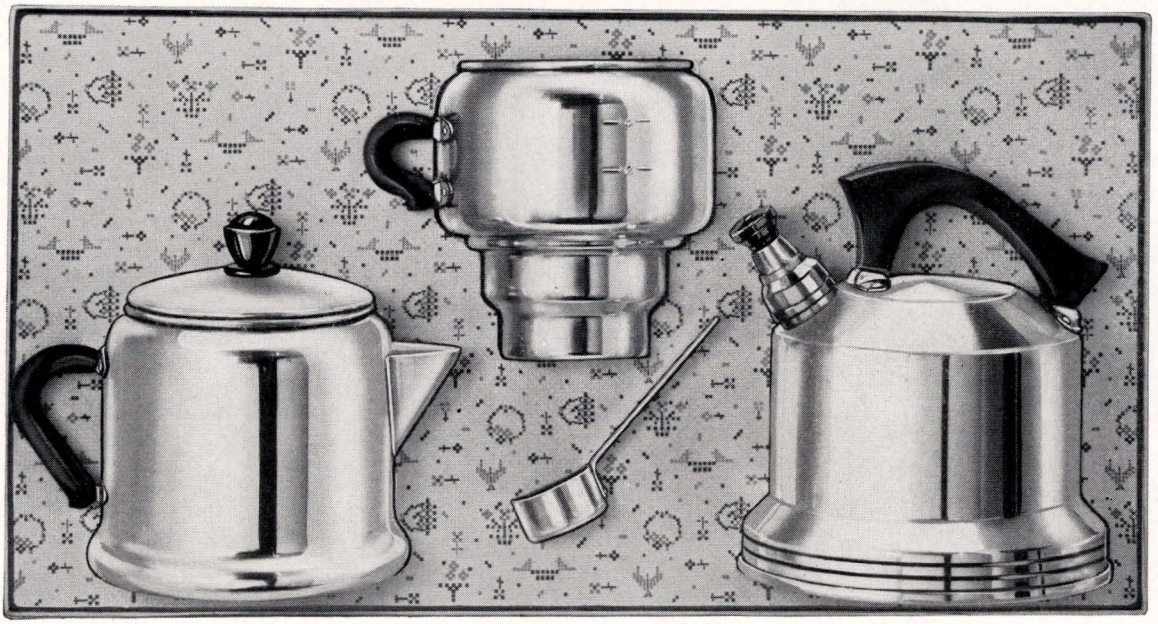

One-Piece Dripper

With built-in perforated disc, the dripper of the Kwik-Drip Coffee Maker is the one-piece type and is entirely separate from the pot. The scientific water distributor is equipped with a convenient handle. No corners or crevices to collect sediment; no filter cloth or paper to replace; no fussing or watching. Easy to use; easy to clean. Prepares rich, flavorful coffee at every making.

Distinctive lines together with an attractive embossed design on both pot and dripper clearly make the West Bend coffee maker one of the most popular numbers in the line. The graceful non-burn Thermoplax handle adds still more beauty to the West Bend design. Simplified one-piece dripper construction—perforated disc is built into dripper. Scientific water distributor is equipped with convenient handle. Cover fits both pot and dripper.

See page 27 for Electric Heat-Rite Base to fit drip coffee makers.

Drip Coffee Tastes Better and is Easy to Make

No. 6-51 Coffee Making Set

No.	Gauge	Composition Capacity	Item
566	20	6 cup	Drip Coffee Maker
105	20		Coffee Measure
703	22	2 qt.	Whistling Tea Kettle

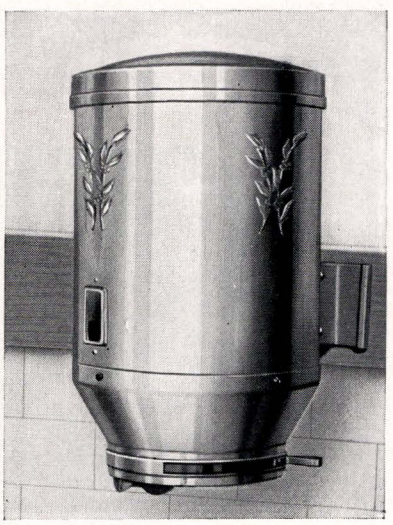

Packed in corrugated cartons.

No. G6-51 calls for same set packed in gift box display. Shipping weight per dozen sets: No. 6-51, 54 pounds; No. G6-51, 56 pounds.

This three piece coffee set prepares delicious, full-flavored coffee every time—without chance of error. The measuring spoon measures the exact amount of coffee, 1 spoonful per cup. The 2 quart Whistling Tea Kettle provides the necessary boiling water. Just pour it to the proper graduation mark on the dripper (2 to 6 cups). The patented dripper controls the dripping time and yields uniform strength at every making.

The matched drip coffee set in polished aluminum is unusually popular because of its practical features. Its size fills the need of a coffee making set for the average family. The Whistling Tea Kettle has many uses in addition to boiling water for drip coffee. See page 12.

Meas-o-matic Coffee Dispenser

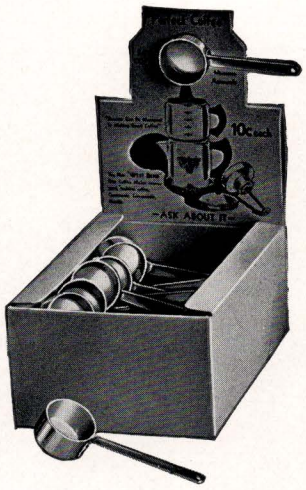

No.	Gauge	Capacity Lbs.	Case Lot	Ship. Wt. Per Doz. Lbs.
545	20	2½	6	39

Packed one to a corrugated carton.

The new Meas-o-matic is a self-sealing dispenser which measures coffee automatically and prevents oxygen from robbing the coffee of its freshness. It saves the aroma and coffee flavor. The flavor cannot get out; the oxygen cannot get in. Each forward movement of the release lever automatically measures enough coffee for making one cup of beverage. No loss or waste.

A small window indicates when the supply of coffee will permit refilling. Its convenient capacity of 2½ pounds allows ample storage space for one or two pound purchases.

The Meas-O-Matic Is a Self-Sealing Coffee Dispenser

Coffee Measures (1 Cup)

No.	Quantity	Shipping Weight Per Doz. Lbs.
104	24	24

Twenty-four spoons (1 cup size, No. 105) in attractive display carton. Level measure of spoon correct amount for each cup of coffee. Bowl is made of 20-gauge aluminum with strong steel handle securely riveted.

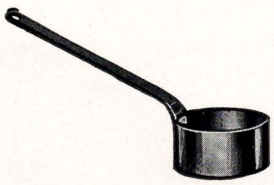

Single Service Drip Coffee Maker (With Cover)

No.	Gauge	Cups	Shipping Weight Per Doz. Lbs.
101	24	1	6

Packed one to a chipboard carton.

For making one cup of full-flavored drip coffee just as rich and stimulating as the beverage prepared in the larger coffee makers. Rests right on the coffee cup—convenient and efficient—cover may be inverted and used as tray when Dripper is removed from cup. No pot to wash.

Coffee Measuring Spoon (1 Cup)

No.	Gauge	Ship. Wt. Per Doz. Lbs.
105	20	1

Measures exact amount of coffee necessary for preparing one cup of beverage. Aluminum bowl and nickel-plated steel handle.

One Cup Dripette

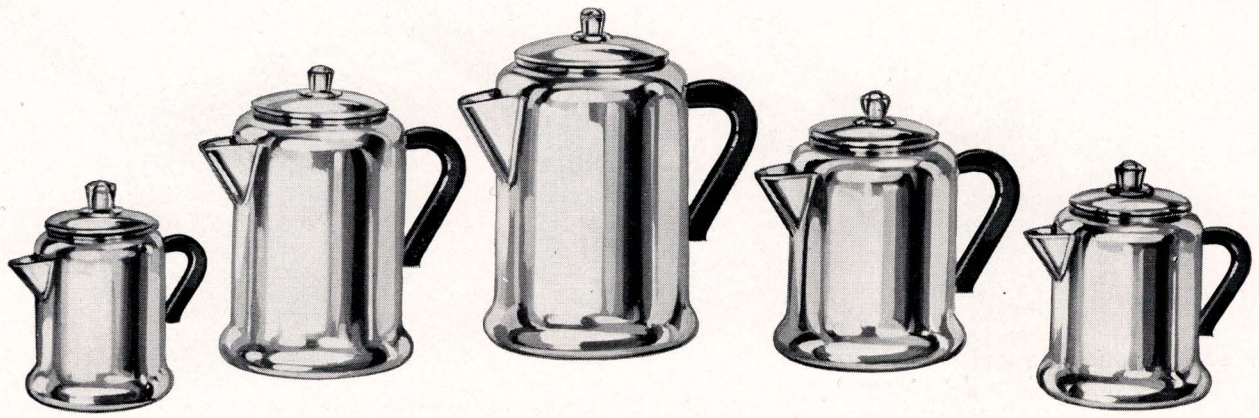

No.	Gauge	Capacity Cups	Ship. Wt. Per Doz. Lbs.
102	24	1	5

Individually wrapped.

P102 (same as above but packed one to a chipboard carton).

A modern convenience for making one cup of delicious drip coffee. Its construction is similar to the larger drip coffee makers and, therefore, prepares coffee which is just as rich and stimulating. Rests right on the cup. Embossing on side of dripper. Black, ebonized handle securely riveted. With the one cup Dripette, you have no pot to wash.

See larger drip coffee makers, pages 4, 14, 27, 37.

New West Bend Percolators

No.	Gauge	Capacity Cups	Ship. Wt. Per Doz. Lbs.
540½	20	2	11
541	18	4	16
541½	18	6	19
542	18	8	20
543	18	12	25

Packed one to a chipboard carton.

An entirely new design with a small glass top, new modern handle, and tall straight lines. The new West Bend percolator has beauty and design for use on the dining room table and afternoon coffee service. Each size is equipped with Thermoplax non-burn handle, welded spout and flat base for economical heating. The cover has a deep flange which prevents boiling over. No hinge or rivets on cover to come loose.

Note percolator display on page 2.

See other percolators, pages 5, 36.

Fountain Percolator

No.	Gauge	Cups Capacity	Ship. Wt. Per Doz. Lbs.
560	18	9	45

Packed one to a corrugated carton.

An unusual value which combines charm, efficiency and strength. Wide base prevents tipping. Fine perforations of coffee basket and water spreader insure uniform percolation and clear coffee.

Egg Poacher

No.	Gauge	Cap. of Pan Qts.	Top Diam. (Inside)	Ship. Wt. Per Doz. Lbs.
24	20	1½	7 7/16	15

Individually wrapped.

Poaches four eggs at one time. Quick and convenient to use. Insets constructed for easy removal with prongs of a fork. Without insets, the egg poacher may be used as a convenient stew pan.

Modern Straight Side Sauce Pans

Heavy Sauce Pan Set

292½	14	2½ qts.	Oven Pan with cover
293½	14	3½ qts.	Oven Pan with cover

Packed one set to a corrugated container.
Shipping weight, 129 pounds per dozen sets.

One Burner Cooks a Complete Meal

Practical and economical. Roaster is large enough for two chickens, a 12-lb. turkey, or almost any size rolled roast. The vegetables and dessert for a complete meal can be prepared in the four oven pans. Specially constructed handles and flat covers which allow the utensils to be stacked, save oven space. Handles have white nickel finish — best for oven use.

Also Ideal for Top Stove Cooking

Each pan has a flat bottom with a special heat-absorbing finish—diameter of utensils conforms with diameter of heating element. No heat wasted. Specially constructed handles allow utensils to be grouped in a square — and thus save space.

Aluminum Saves Time and Fuel

The No. 6-53 WEST BEND Bride's Set

Today's bride looks for ensemble furnishings—even for her kitchen. This new West Bend set of fifteen utensils contains a selection of those pieces she will surely want. And each item has the Good Housekeping Seal of Approval.

The Bride's Set is not only extremely good looking—its utensils are designed for convenience, economy and long life. What more could be put into this tempting set?

Extra profits await the dealer who promotes this beautiful Bride's Set—in spring, summer and fall. And remember, there are housewives who were brides several years ago but who never have had an opportunity to get this beautiful set.

When placing your order ask for display material.

Built from Chefs' Specifications

Aluminum Is Long Wearing and Easy to Clean

Electric or Gas — 24 and 48 Cup
Genuine Bakelite Handles

Prepares delicious flavorful drip coffee—with uniform results every time. Restaurant and lunch counter patrons now prefer drip coffee for its rich full flavor.

The Drip Coffee Urn is made of highly polished aluminum and fitted with genuine Bakelite handles. Dripper has one piece construction. Convenient to operate—controlled dripping time. Capacity indicators on both one and two gallon drippers. Special aluminum connections and Tomlinson faucet—coffee comes in contact with only one metal. All possibility of chemical action between two different metals eliminated. Electric base has two-heat unit, fitted with heavy duty appliance cord. Flange on lower edge of base permits urn to be fastened to table or back-bar with screws.

Equipped with Tomlinson No-Drip Faucet and Glass Gauge (as illustrated)

Shipping weight, 260 pounds per dozen sets.

Items No. 703, 166, 907, 910, 678 and 976½ will be found in the West Bend section of the catalog. Other items in the Cooksbest-Badger Section.

Here's a large useful set that is one of the most popular in the line. It not only has a utensil for every purpose, but also several sizes in the utensils which are most often needed. The liberal number of pieces in the set provides an attractive display for window or counter.

Save Fuel with Aluminum

Aluminum is a quick and even conductor of heat—an important economy feature which represents a definite saving in time and fuel. When cooking and baking with aluminum utensils, you are utilizing all the available heat with the least amount of waste. Aluminum is recommended for healthful and wholesome cooking by leading food and health authorities.

The No. 6-54 COOKSBEST Bride's Set

The bride will welcome an opportunity to purchase a complete set of modern utensils for her kitchen. Or her many friends or relatives will be happy to find this appropriate gift. The Cooksbest Bride's Set contains a selection of those utensils most often needed in every home.

In this set you will find many of West Bend's features of convenience and economy. The sides are straight for efficient heating and all corners are rounded for easy cleaning. All handles are easy and convenient to use. An inexpensive set which will practically furnish the kitchen.

Year around profits will be realized from the Bride's Set—in spring, summer, fall and winter—someone is always furnishing or refurnishing her kitchen. Utensils like other furnishings are now purchased with a plan—the Bride's Set is your plan for larger unit sales.

When placing your order ask for display material.

NEW MODERN PERCOLATOR in 4 Sizes

No.	Gauge	Capacity Cups	Ship. Wt. Per Doz. Lbs.
8551	22	4	13
8551½	22	6	15
8552	22	8	16
8553	22	12	19

Packed one to a chipboard carton.

Graceful New Design with Thermoplax Handle

A brand new percolator which tops them all in good looks and appeal. Both the base and glass top harmonize in design with the cover which has no hinge to break or work loose. This new type cover fits deep over the coffee basket, thereby preventing the tendency to boil over.

The graceful, easy-pouring spout is welded on and therefore will not become loose or unsightly. Flat bottom of percolator provides quick and economical heating. The Thermoplax handle is the non-burn type, securely attached to the pot. All sizes of the percolator are fitted with the one size of glass top.

See other percolators, pages 5, 17.

Tea Kettles

No.	Gauge	Capacity Quarts	Diam. of Opening Inches	Diam. of Bottom, Inches	Ship. Wt. Per Doz. Lbs.

Each cooker is packed in corrugated carton, and contains complete instruction and recipe booklet.

Other cookers on pages 10, 42.

With the Waterless Cooker a complete meal can be prepared at one time over one heating unit turned low. All of the genuine flavors and life-giving elements, such as minerals and vitamins, remain in the food when cooking the waterless way.

The Health Cooker makes unusual savings in fuel and food. Food shrinkage is reduced to a minimum—no loss or waste. Cheaper cuts of meat are tender and nourishing.

Roller Bearing Clamps

The special roller bearing cover clamps are particularly easy to operate. Even more important, they draw the cooker cover to the pot tightly and closely so as to prevent the escape of food aromas and moisture. The roller bearing feature also prevents scratching of the cooker pot.

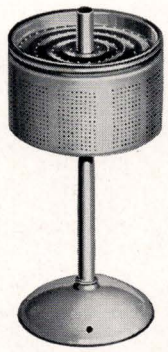

CONSTRUCTION FEATURES

1. All rivets are tight and rigid. Snug fitting cover secured with three roller bearing clamps prevents the escape of moisture and food aromas.
2. Automatic Release Valve in cover.
3. Rounded corners—easy to clean.
4. The reversible nickel-plated steel base has corrugated rings insuring even distribution of heat.
5. The dual inset pans are equipped with slits for convenient removal with ordinary table forks.
6. The tin plated wire rack may be used either to hold the inset pans in place, or it may be inverted for canning purposes.
7. Twelve page recipe book with complete instructions packed with each Cooker.

Tested and Approved since 1927 by Good Housekeeping Institute — GOOD HOUSEKEEPING MAGAZINE

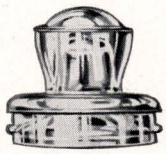

Prepares Complete Meal at One Time Over One Burner

Percolator Inset

No.	Shipping Wt. Per Doz. Lbs.	Fits Items No.

Packed six in partitioned corrugated carton.

P-9036 (Same as 9036 but one to corrugated carton) 41

Cooks Entire Meal at One Time Over One Burner

Prepares healthful, flavorful meals with little or no water. Saves fuel and food. Convenient and modern —place a meal in Cooker and turn the heat down low — and forget until ready to serve. Recipe leaflet included with every Cooker.

The New Economy Cooker

No. 9129 with Single Pan

Nine Quart Size

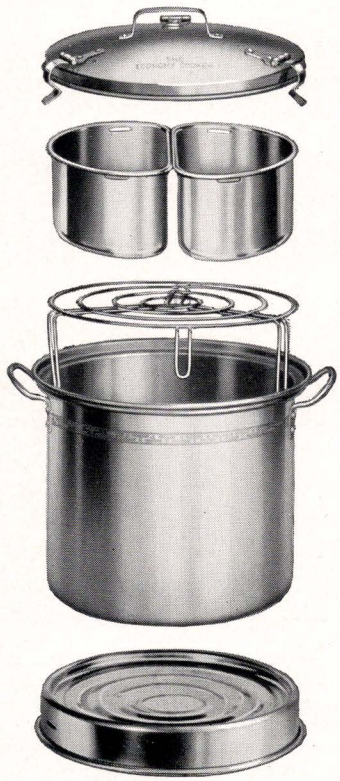

No.	Gauge	Capacity	Inset Pans Capacity Each	Case Lot	Ship. Wt. Per Doz. Lbs.
9129	22	9 qts.	2½ qts. (Single)	4	48
9139	22	9 qts.	1 qt. (Dual)	4	50

Each Cooker is packed in corrugated carton, and contains complete instruction and recipe leaflet.

The Economy Cooker prepares a complete meal at one time over one heating unit turned low. It uses little or no water and therefore, food shrinkage is reduced to a minimum — no loss or waste. All the genuine flavors and life-giving elements, such as minerals and vitamins, remain in the food. The Economy Cooker assures healthful and wholesome cooked foods.

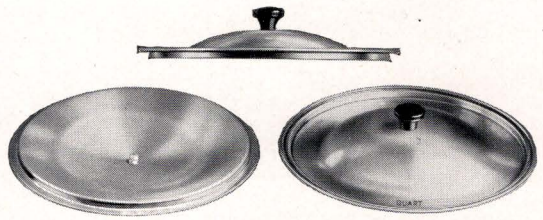

CONSTRUCTION FEATURES

1. The Economy Cooker is made from hard sheet aluminum. Distributes the heat quickly and evenly.
2. Automatic release valve in cover.
3. All rivets are tight and rigid. The clamps are nickel-plated and securely fastened to the cover.
4. Patented construction for removing inset pans—slits allow easy removal with ordinary forks.
5. Modernistic design — aluminum highly polished to a lustre finish. Rounded corners—easy to clean.
6. Base made of tinned steel.
7. Eight-page folder containing instructions and recipes packed with each Cooker.
