Foreword

During the stress and strain of the past four years, the class of 1956 has met and surmounted many obstacles. It is now ready to go out into the world as teachers.

Many of us have thought seriously about our future, others not so seriously. Be that as it may, we are once again at the threshold of a new experience, an experience that will put to use the theories, practices, and ideals that we have acquired at ESSTC.

It is with this in mind that the staff of the 1956 Stroud has developed the theme that gives unity to this yearbook. As the reader turns the pages, he will notice on the divider sheets symbolic pictures with quotations. These pictures and quotations are not mere decorations, but they are reminders of the underlying thoughts so basic in life—the obvious that man tends to overlook. We may be masters in the future; we may have been servants in the past; but, it is so very true in all cases that the master is often the servant and the educator is often the pupil.

PRESIDENT'S HOME

DINING HALL

A TRIBUTE TO

Dr. Joseph F. Noonan

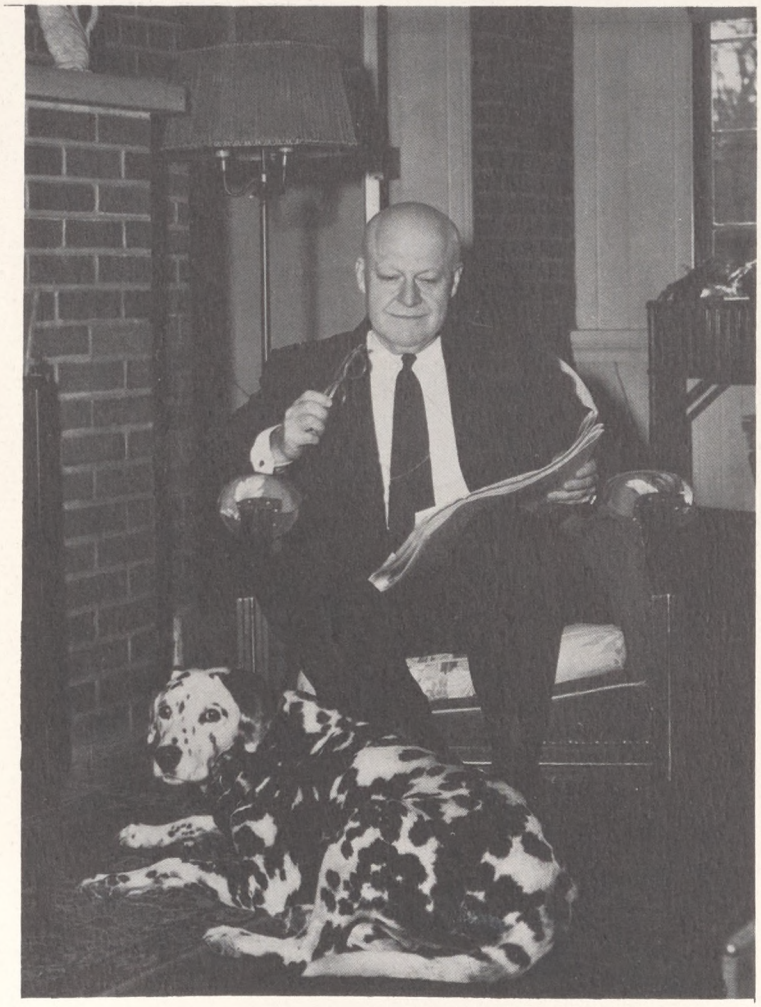

Dr. Joseph F. Noonan, who retired as president of our college on October 1, 1955, leaves behind him a long and varied record of educational and public service in Monroe County, as well as a warm and friendly feeling in many hearts.

Dr. Noonan has served as president of East Stroudsburg State Teachers College for the past sixteen years. His associations and affiliations through the years have extended to numerous colleges throughout the nation. He has been active in the Pennsylvania State Education Association and the National Education Association and is the author of numerous articles on education which have appeared in the journals of these organizations.

A competent executive and a financial wizard, Dr. Noonan has devoted much of his own time to the planning and creation of an extended building program for this college. He has been instrumental in the establishment of educational building appropriations during past legislative sessions, and has served as chairman of the buget and legislative committees of the Board of College Presidents.

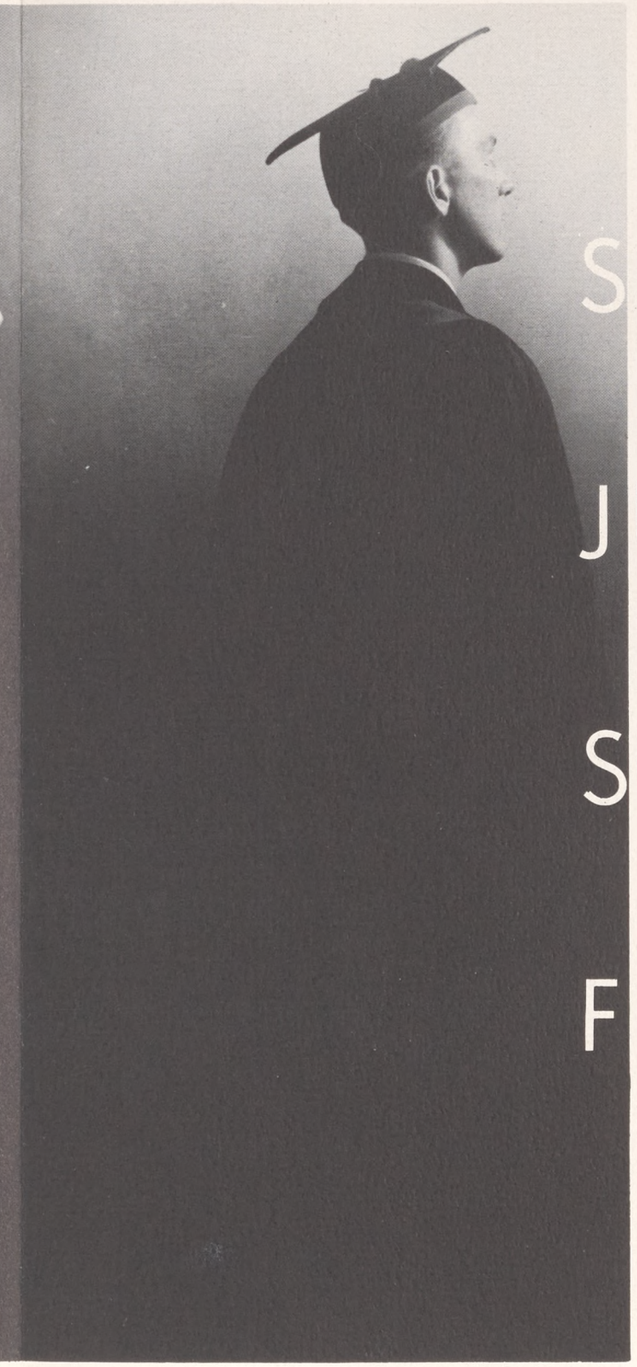

All returning upperclassmen have noticed the absence of the sincere smile, friendly hello, and hearty handshake belonging to our recent president. Dr. Noonan has won a place in our hearts as a fine leader in education, a just and fair executive, and a friendly and approachable companion.

STUDENT TEACHING

"He that hath a way to keep a child's spirit active and free and yet restrain him has the secret of education."

Providing dramatic play is an essential part of physical education.

The climax of every student's college career is the semester of student teaching done by each senior in one or two of the area's cooperating schools. The students specializing in elementary education have experiences in both the Laboratory School and a regular public school in the surrounding area. Secondary student teachers are assigned to schools in which they teach their major and minor subjects. Both elementary and secondary experiences are provided for the Health Education majors.

Student teaching provides the opportunity for each student to test the various theories, principles, and teaching methods to which he has been exposed in his previous years at college. It also provides an opportunity for him to use his initiative and ability.

The work of the student teacher is done under the supervision of cooperating teachers and supervisors. To many underclassmen, these teachers are people to fear. However, as each college student will discover, the purpose of these supervisors is to help solve the general and specific problems of the student teacher, and to help him vary his methods and procedures.

The student's duty is not restricted to teaching. He also observes and records the procedures of the experienced cooperating teacher. This is highly valuable. Other duties just as important are clerical planning, classroom management, extra-curricular activities, long-range classroom planning, selecting subject matter, testing results, and establishing good public relations.

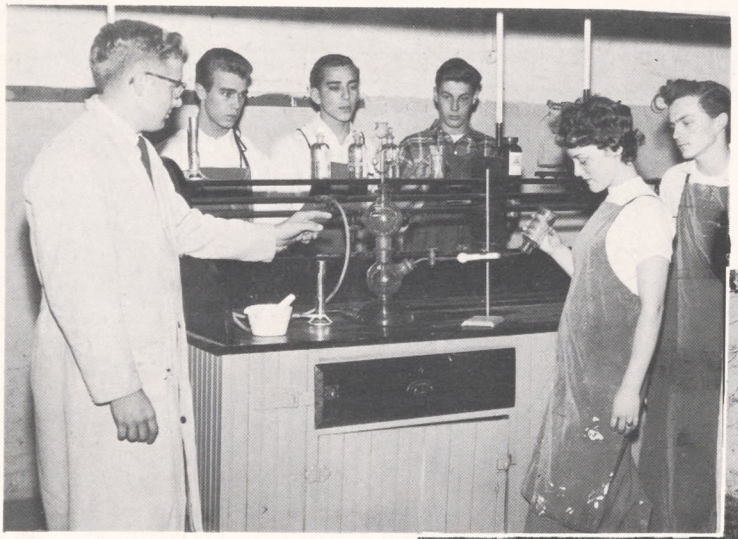

Student teaching is an experience which every beginning teacher should have. It is a practical experience which no amount of educational background can equal. It is at this time that each student teacher realizes the importance of restraint. It is at this time also that each student teacher realizes that a child's growth is dependent upon spiritual freedom and activity. Therein lies the success of teaching.

Concrete materials provide many meaningful experiences at all age levels.

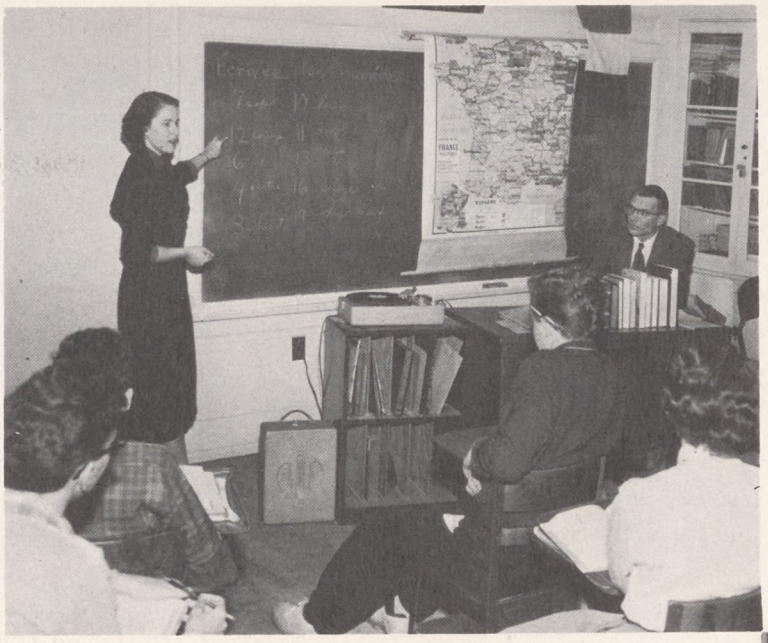

Our environment becomes interesting when we know and understand it.

Careful working habits as well as a knowledge of chemistry are developed in the classroom.

Through careful training, traffic hazards are reduced greatly.

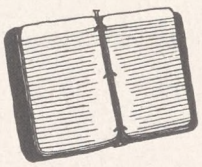

Greater world understanding is achieved through a knowledge of foreign language.

Through classroom grouping, advancement is assured for a greater percentage of students.

The results of a new group experience are enjoyed by everyone.

Physical education is an essential part of our learning experiences.

REGISTRATION FORM AND CONTRACT

A registration fee of Two Dollars ($2) to cover expenses of checking references of the applicant should accompany this form properly filled out. It is further understood by the signers of this contract that if no position has been furnished by the Bureau to the applicant each portion of the registration fee so has not been actually expended by the Bureau in securing the references of the applicant shall be refunded to the applicant on demand after thirty (30) days from the date of receipt thereof. A period of one year from date of receipt will be given upon payment of this fee. The payment for this service entitles the applicant to active membership in the Bureau for a period of one year. Acceptance of the services of the Bureau after expiration of the registration period is made under the terms of this agreement.

A five per cent (5%) commission on the first year's salary is due the Bureau immediately upon acceptance of employment from information furnished by the Bureau to a member or employer. This commission will be five per cent of the salary for the term of the employment, if employment is continued the balance of a full year's commission will be given upon payment of this bill. This commission may be paid in either of three ways: (1) Cash payment within ten (10) days of the date of bill for which a discount of 2 per cent (2%) of the amount of the bill is allowed, or (2) Fifteen Dollars ($15) on receipt of bill and the remainder in two notes bearing interest at six per cent (6%) per annum in approximately thirty (30) and sixty (60) days respectively after the work is to begin, or (3) Any reasonable arrangement as to payment of commission will be considered with an large initial payment to principle desired. Any bona fide increase, or salary for additional work, or concession by the employer, received during the first twelve (12) months of employment is also subject to a commission of five per cent, payable at the end of the year.

When maintenance is included as part of compensation, it is estimated for the school year at $600, which amount will be added to the cash salary as the basis upon which the regular commission is computed.

Applying for one position and accepting another with the same employer obligates a member to a commission to the Bureau.

Application for a position does not place the member under obligation for commission, but after employment through the Bureau is accepted failure to begin or complete the employment will not affect the payment of the commission to the Bureau.

If the member obtains an increase of salary in his present position, as an indirect result of negotiations through the Bureau for another position, commission is due on such increase.

Information as to vacancies is strictly confidential, and solely for the benefit of the member to whom it is sent. Any member who divulges such information to another person agrees to assume responsibility for payment of the commission if employment results.

All correspondence from the Bureau must be answered promptly, and a decision given. It is imperative that this be done. Notification must be given the Bureau at once of any change of address, acceptance of a position, whether or not secured through the Bureau, with any details helpful to keeping the member's record up to date, and of any change in kind of position desired.

The Bryant Teachers Bureau, Inc., does not guarantee employment to any member, but will co-operate fully with the member to secure the kind of employment desired.

We hereby agree to comply with the terms and conditions of contract as above indicated.

WHO'S WHO

Who's Who Among Students in American Colleges and Universities is a national organization, founded to give special recognition to those outstanding students selected as "Leaders of Tomorrow." These students are chosen by a special faculty committee. The quota is proportionate to the school enrollment, and is determined by the National Committee. Criteria for selecting these students are scholarship, qualities of leadership and a sense of civic responsibility.

The chosen members are presented with a certificate of award and are entitled to wear the Who's Who pin. The organization also provides its own placement bureau in order that its members may have ample opportunity to make use of their abilities. A biography of each student selected is printed in the annually published book, *Who's Who In American Colleges and Universities.*

Being chosen is an honor for these students, and also a challenge. These are the students who are expected to become the leaders in their chosen fields. It is their responsibility to guide other people in both thinking and action; to guide these people to a better, more peaceful world.

Harry Emerson Fosdick summed up all this when he said, "No life ever grows great until it is focused, dedicated, and disciplined."

KAPPA DELTA PI

Membership in the Gamma Xi Chapter of Kappa Delta Pi is one of the highest honors which can be obtained on this campus. In order to become a member, a student must have a quality point average of 2.2 and be a leader in all aspects of college life. Invitations are open to those juniors and seniors who have successfully fulfilled these requirements, and who the members in charge consider qualified. Kappa Delta Pi is a national honor society and strives to uphold the high educational standards of an intellectual and scholastic nature. This is done by providing programs of a high caliber. Various speakers are secured whose achievements are of a nature conducive to this type program. Panel discussions also play an important part in the year's program.

The main function of the year is the Dean's Tea, sponsored by the members of the Gamma Xi Chapter, for those students who have received a quality point average of 2.0 for the first semester of each year. It is held in the lounge of Shawnee Hall, and is considered one of the highlights of the year's social activities.

SIGMA TAU DELTA

Through the interest and effort of Dr. Martha L. Smith, the Delta Zeta Chapter of Sigma Tau Delta was installed on this college campus. The students shown below are charter members of this organization.

Sigma Tau Delta is a national professional English fraternity whose aims are to advance the study of literary masterpieces, to encourage worthwhile reading, to promote the mastery of written expression, and in general to foster a spirit of fellowship among students specializing in the English language and literature. The words Sigma Tau Delta are the initial letters in Greek of the English words symbolizing *sincerity, truth* and *design.*

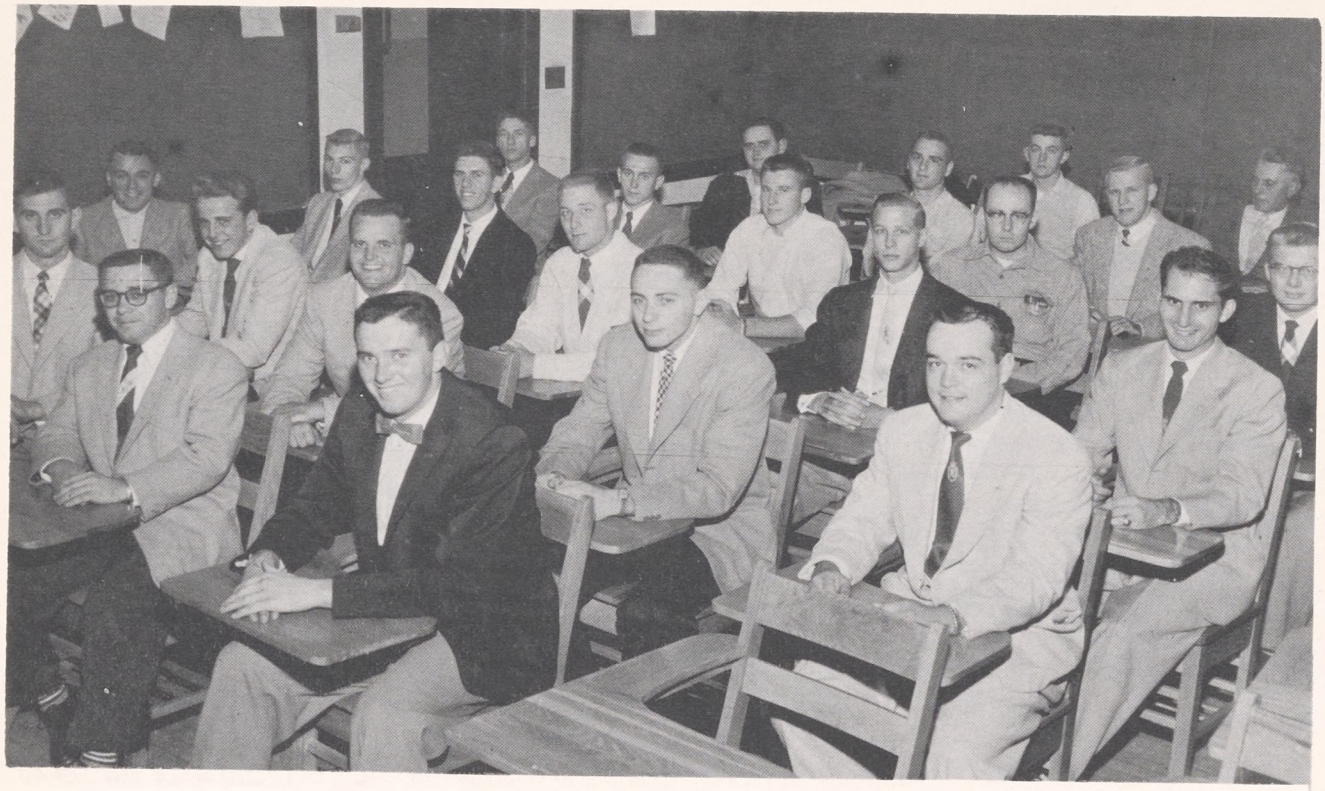

The organization admits to membership those juniors and seniors who major or minor in English, and whose average in English subjects is 2.0 or above.

Activities included in the club's programs are criticisms of contemporary writers, reading of original creative writing by members, and speakers who are concerned with literary subjects.

Original poetry and prose selections by members are sent to the national publication, *The Rectangle.* Thus it endeavors to stimulate achievement by providing the reward of membership and congenial association with persons of like aspiration at the college.

ALPHA PHI OMEGA

Alpha Phi Omega is a fraternity "to assemble college men in the fellowship of scouting." Its purpose is to develop friendship and to promote service to humanity.

Our local chapter, Delta Upsilon, follows closely the service motive of the national organization.

The first of its services is to the student body and faculty. One duty is the direction of traffic during Homecoming, Alumni Day and at the various educational conferences. Each year an "Ugly Man" contest is conducted and the money obtained is put into a fund for specific future purchases.

Its second service is directed to youth and the community. This includes assisting in the scouting program of the community and sponsoring a blood drive in cooperation with the Monroe County Red Cross.

The purposes then branch out to the nation. This is done in conjunction with service to the community. Experiences are shared with youth in order to better prepare them to become good citizens of the nation.

Members themselves benefit from these directed services. These benefits are derived from opportunities for leadership, responsibilities in the operation of the chapter, and in fellowship.

"Of all the things that man can give, service is the greatest."

SIGMA ZETA TAU

In 1947 the Tau Chapter of Sigma Zeta came into existence on our compus. Members of this national honorary science and mathematics society are those juniors and seniors who have achieved a satisfactory scholastic standing in their field of specialization.

Last year the Tau chapter received the Founders' Cup which is recognition of chapter scholarship by the Society. This chapter award is to encourage chapter scholarship and its related activities rather than individual achievement.

The activities of the Tau chapter are selected according to the primary purposes of Sigma Zeta: to encourage and foster the attainment of a knowledge of the sciences. Several outstanding local men and women have been invited to present programs to the open meetings of the chapter. Members are therefore exposed to professional experience from which they may gain valuable insight and knowledge. Tau chapter, in addition to trying to fulfill the purposes of the society, also seeks to help the student body directly or indirectly. Students needing help in any or all of the sciences or mathematics may attain that help by contacting members of Sigma Zeta Tau.

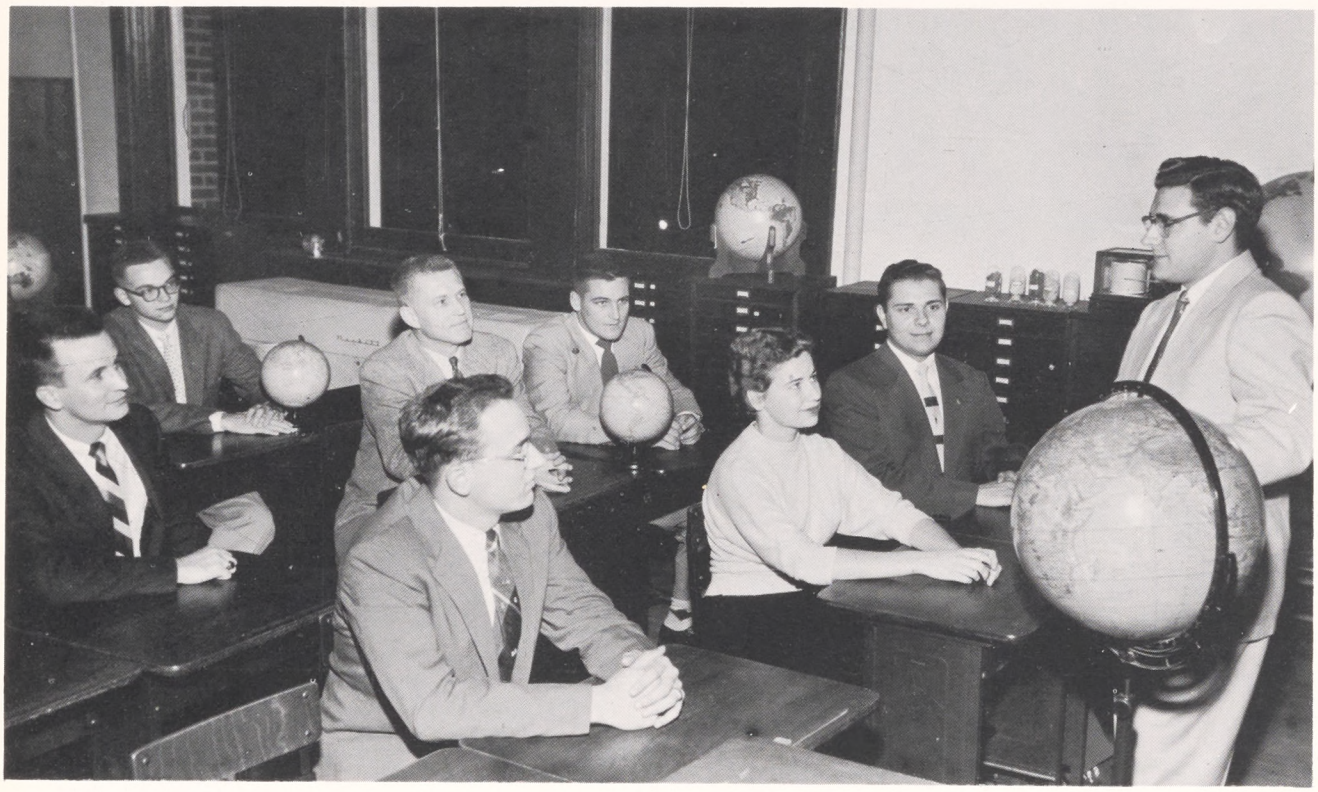

GAMMA THETA UPSILON

Gamma Theta Upsilon, a national professional geography fraternity, is represented on our campus by the Omega Chapter. The purpose of this fraternity is for the advancement of geographic knowledge in the teaching field. Those majors or minors in geography who have six credits or more in geography and whose scholastic average in that subject is above that of the college average are eligible for membership in the society.

Meetings are held on the first and third Wednesdays in the geography room. The programs of these meetings include interesting speakers, illustrated lectures, and group discussions of a geographic nature. The fraternity also works in close cooperation with the college geography department, which sponsors a geography conference each Spring that is attended by many in-service teachers and leaders in the field of geography.

Members of the society are encouraged to join the Pennsylvania Council of Geography Teachers which keeps members informed on the latest teaching techniques and materials to insure their professional growth.

ALPHA PSI OMEGA

Iota Omicron is the local chapter of Alpha Psi Omega, an international honorary dramatic fraternity. Membership in this society is open to those students who have shown interest and appreciation in dramatics by doing a high standard of work through the Mask and Zany Club. To be eligible for membership one must have satisfactory scholarship and meet the requirements of both the national constitution and the local chapter.

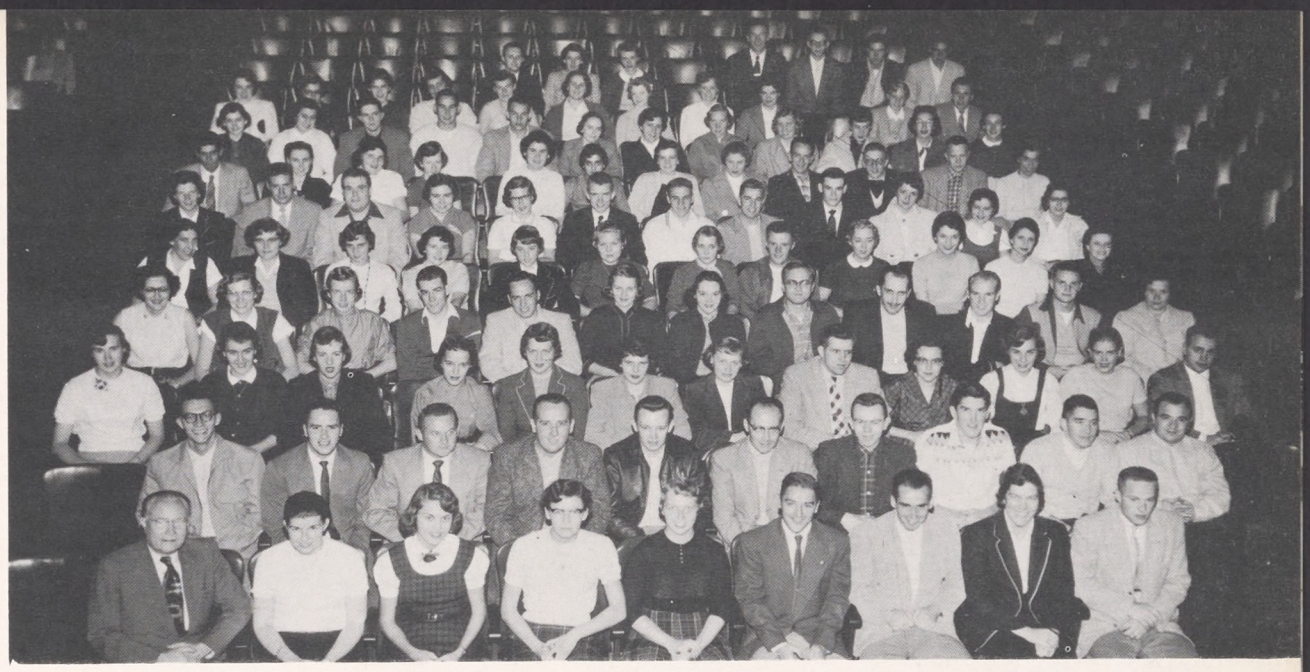

It is the purpose of Alpha Psi Omega to develop dramatic talent and the art of acting, to cultivate a taste for the best in drama, to foster cultural values, and to unite the dramatic forces of all colleges and universities. The Iota Omicron chapter sponsors and participates in various activities on the campus and in the community. Some of these activities are two three act plays, a Christmas Pageant, and several holiday radio programs. The fraternity has two initiation dinners, and schedules one New York theater party each year.

The Stroud Staff consists of those members of the graduating class who wish to produce a pictorial and recorded story of life as they've seen it on our college campus. It is not possible to record every activity or affair, but truly representative events have been chosen to make it possible for the reader to understand the college story. Thomas Hayne Bayley states this well when he writes: "Friends depart, and memory takes them to her caverns, pure and deep."

"Those who desire to create harmony in the world must first establish order in their own communities."

THE STUDENT SENATE

The Student Senate is composed of a president, sixteen senators, and three faculty members. The chief purposes of the Senate are to promote personal and group responsibilities; to foster cooperation; to establish and determine the social, civic, and athletic life of the college; and to stimulate a pride in the name of the college. The duties include the allocation of money to the various councils and executive committees, conducting student elections, and reviewing the minutes and auditing the books of all student organizations.

WOMEN'S EXECUTIVE COUNCIL

The Women's Executive Council is an organization composed of women students elected by the entire women student body. The primary purpose is to help each woman student enjoy a happier campus life. The council, with the cooperation of the Dean of Women, plans the social program for the coming year. Parties, class teas, and a chocolate fest provide a variety of entertainment for the girls. The women students, following a plan formulated by the council, share the responsibility of maintaining desirable dormitory conditions. Each hall of the girls' dormitory has three counsellors with specific duties to make dorm life attractive and comfortable, and to whom women students can express their grievances and make suggestions for improvement.

Social Council

Focusing attention on campus social activities, the Social Council serves the student body by sponsoring those social events of the college year which are not class functions. These include the Fall Reception, Homecoming Day, Christmas Festivities, the Alumni Dance, and several minor activities. The Council also maintains equipment which is available to other groups.

Entertainment Council

Every year two members are elected by each class to represent them in the Entertainment Council. The council is responsible for one assembly program per year, and is also in charge of the movies every Friday night. Their ultimate goal is to attain a worthwhile scholarly type of entertainment for the entire student body.

Why all this toil and
trouble?
"Up-up, my friend,
and clear your looks
or surely you'll grow
double."

SOCIAL ACTIVITIES

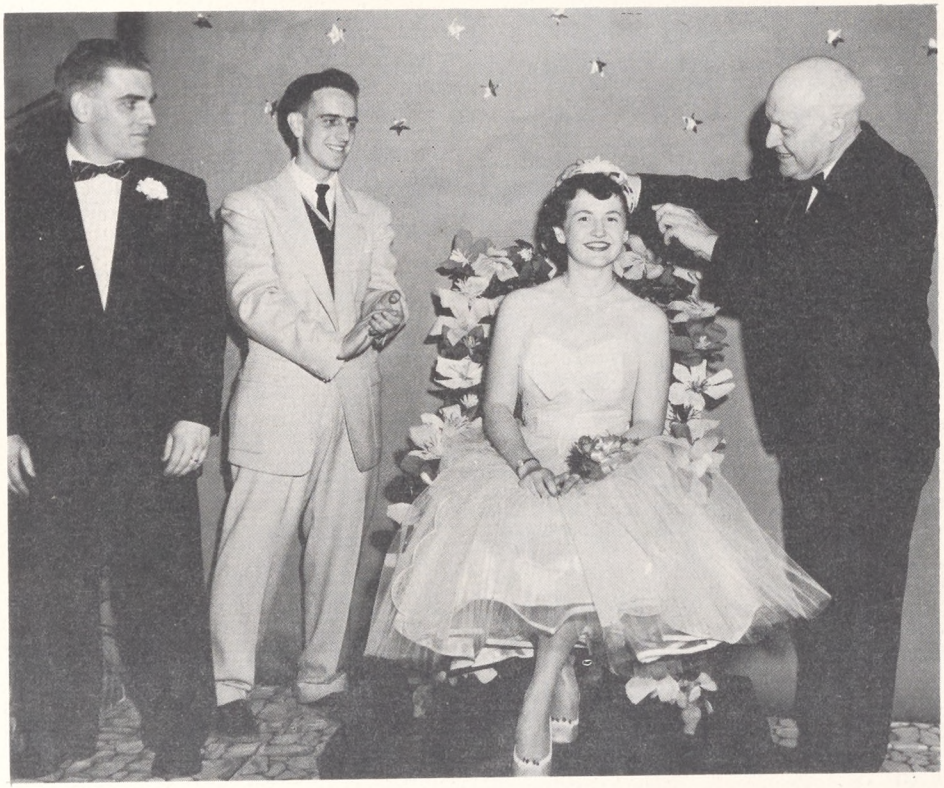

Stars look down on an enchanting scene.

THE JUNIOR PROM

Harriet Davis is crowned Queen by President Noonan.

Dancing spirits aren't dampened even by the snow.

STAIRWAY TO THE STARS

Let's try it this way.

Stars aren't always in the sky, are they?

Opened wide enough, Dr. Graham?

Even **Profs can have fun.**

MARDI GRAS TIME

The Queen commands, "Festivities begin!"

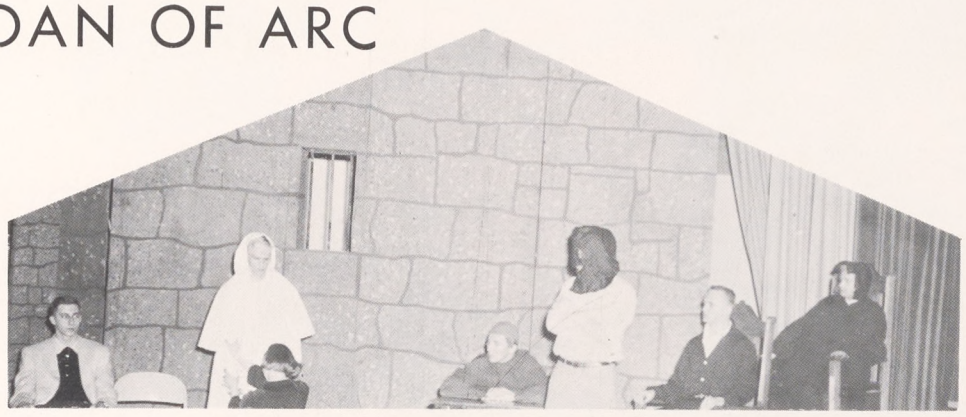

This is Basin Street?

Vivid portrayal sets the stage for the crowning of the Dauphin.

JOAN OF ARC

Joan of Lorraine stands trial for heresy.

"We'll fight!"

The weekend exodus begins.

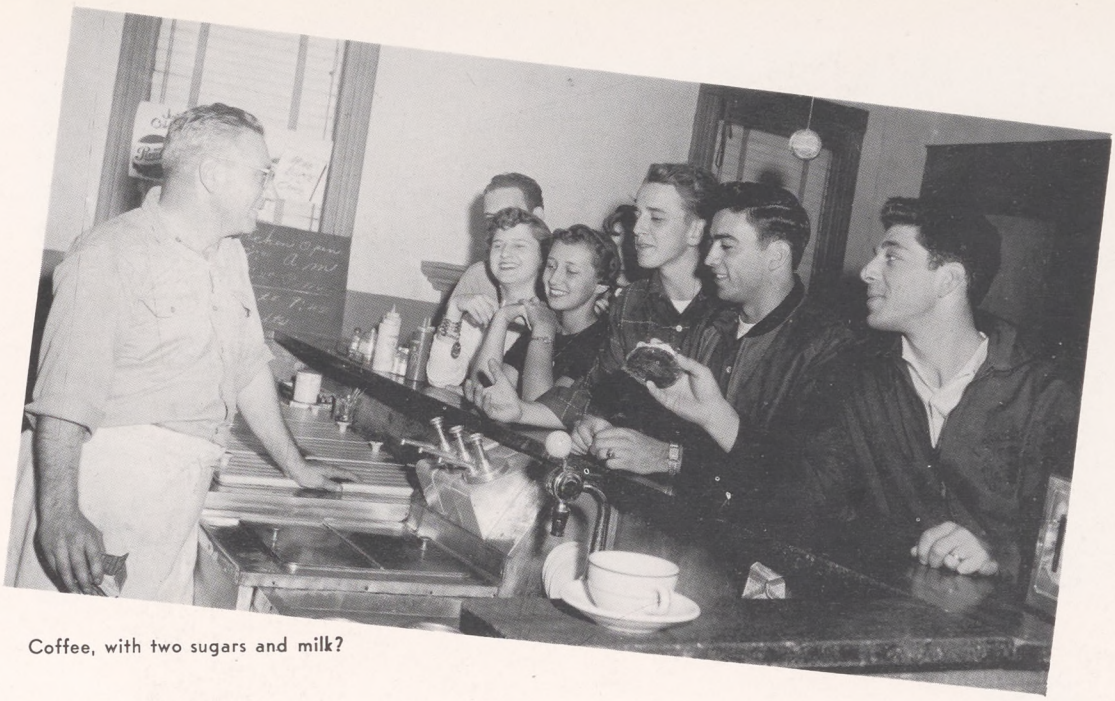

An early education.

AFTER HOURS

It's our trick!

Coffee, with two sugars and milk?

BEFORE HOURS

Watch it! Here's Mr. Palaia.

Sixty cents an hour for this?

Hurry, Frosh, you're late!

DURING HOURS

Last minute cramming doesn't help.

Got a cigarette?

It's almost 7 o'clock, men!

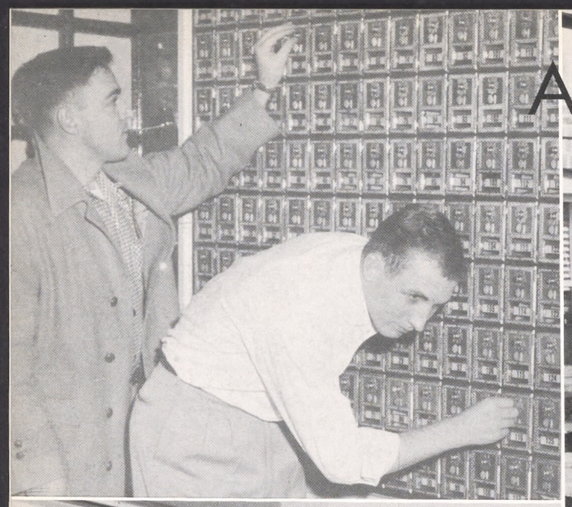

BETWEEN HOURS

Strictly stag jam session.
