

Tell Us About Your House!!

For 30 years Glendale Heritage Preservation has kept records on many of the historic homes in Glendale. Research in the 1970's on 59 pivotal structures lead directly to recognition of the Glendale Historic District by the National Park Service. Now GHP would like to expand its archives to include information about all the homes in Glendale.

Please tell us as much as you can about the history of your house so we can preserve this information for future generations. In 100 years, even a new house today will be historic.

Suggested information:

- Your house address *78 Coral Avenue.*
- Names of persons currently living at this address. How long?
Todd, Jennifer, Dylan, Haley Grueninger.
- Tell us as much as you know about previous owners or occupants. Do you know the names of the original occupants? *I believe the original occupant was Claude Stanton, and he was the caretaker of Hetherington Farm.*
- Tell us as much as you know about when the house was built and any significant changes over the years. Do you know the name of the builder?
Built in 1962 - was a Sears "kit home" - The caretaker for Hetherington Farm stayed in the house. (Claude Stanton?)
- Do you have pictures of your house or occupants that you would give to us or let us copy?
Yes.
- Do you have any maps, drawings, or records about the history of your house?
There is a print of Hetherington farm before Hetherington was developed, I believe our house is on the print.
- What interesting events have happened at your house? Is there a link with other Glendale residents or organizations?
The home was part of a large farm at one time - I have been told that Elsie the cow is actually buried here somewhere.
**Also, I have dug Indian Artifacts from the yard*
When we moved in - it had a buzzer system to the farm, so they could call him when they needed him.
