| 1. The first step in the process of creating a new product is to identify a market need.           | 2. The second step is to develop a prototype of the product.              |
| 3. The third step is to conduct market research to determine if there is a demand for the product. | 4. The fourth step is to develop a business plan for the product.         |
| 5. The fifth step is to secure financing for the product.                                          | 6. The sixth step is to manufacture the product.                          |
| 7. The seventh step is to distribute the product to the market.                                    | 8. The eighth step is to monitor the product's performance in the market. |

1. The first part of the paper is a review of the literature on the effects of the 1997 Asian financial crisis on the economies of the Asian countries. It shows that the crisis had a significant negative impact on the growth of the Asian economies, and that the impact was more severe in the countries that had a higher degree of financial liberalization.
