Craig T Conety

In high school, I was a math nerd and liked to build things, so I studied to become a structural engineer. After college I served two years as a US Army combat engineer. For the next 11 years I worked for an international company in Detroit that designed and built large industrial facilities. In 1979 I had a job opportunity that ticked all the math and building boxes. So, I moved my family to Illinois where I coordinated the design and construction of many high-rise buildings in the greater Chicagoland area.
Kathy and I both love the outdoors, and we have enjoyed hiking, camping, fishing, canoeing and cross-country skiing-often in Michigan's upper peninsula.

4 grandchildren, 2 boys, 2 girls, all married
2 great-grandchildren, aged 3 and 1
Graduated from Trenton State College in 1964 with a degree in Kindergarten- Primary education, taught second grade for 1 year, then retired to raise my family.

My husband was tra6nsferred to London by Merrill Lynch for 2 1/2 years in 1987- 1990 to stem the losses in the stock market. That gave us an opportunity to take weekend visits to Europe, which opened our eyes to a wider world. We had only vacationed at the Jersey shore, so it was a wonderful opportunity for us to expand our horizons. Our 2 older kids were in college in the states, but our youngest son came with us and had the wonderful opportunity of attending the American School in London. He blossomed there and got a fabulous education as well as meeting students from all over the world.

My husband and I are relatively healthy with just the normal aches and pains, and challenged memories.. We live half the year in Stuart, FL (in a wonderful gated community, complete with a Chapel). the other half in Long Branch, NJ, overlooking a little branch of the Shrewsbury River to Monmouth Beach, the beginning of the Jersey shore area.

Fred's bio- 1&1/2 months after school ended I enrolled in the S.M.W. Local 10, a 4 1/2 year (Sheet metal workers) apprentice program. In early 1965 I bought a house in White Meadow Lake, Rockaway N.J. and got married. 3 years and 2 children later bought a house w/beach rights and a boat dock on Lake Hopatcong. Our beach was right across from the Bertrand Island Amusement Park (gone now), nice for the kids. Always had a boat at the beach dock, you can't teach the kids to ski and fish without one. I learned and skied on Barnaget Bay at age 7, and had them up on skis at the lake around that age. After 3 more children, everything disappeared in 1979!

I started over and in 1981 met Kathleen (my future wife), and in 1982 we bought a house in Tranquility (yes, N.J.) across from the lake. In 1995 we took a train to New Orleans and eloped. In 2018 we moved to Gods Waiting Room - THE VILLAGES, FL. We have been here 8 years and haven't been to half the great restaurants, might not live long enough to try them all. Our children stop in between our doctor visits (HA-HA).

We are among the most fortunate and we wish all my 1960 classmates the very best because they ARE and were the very BEST.

Well, I've taken enough of your time and my typing finger is tired.

Mal Fichman

Fichman to be honored in Hawks' Hall of Fame

By Mike Prater
The Idaho Statesman — August 8, 1991

The Boise Hawks will honor former manager Mal Fichman tonight, inducting him as the first member of their Hall of Fame.

Ceremonies begin at 6:30 p.m. at Memorial Stadium, followed by the Boise-Everett game at 7.

Fichman's jersey, bearing the number 4 also will be retired.

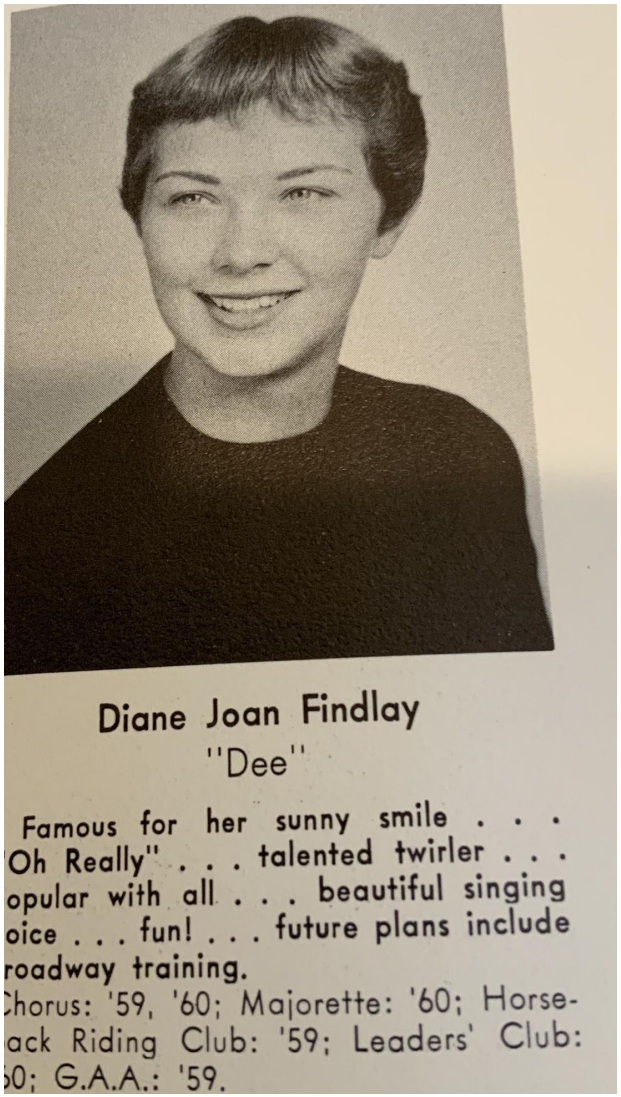

"We will have a plaque honoring Mal and it will become a permanent feature at Memorial Stadium," Hawks president Ken Wilson said.

Said Wilson: "He provided a significant amount of hard work and dedication in bringing a professional franchise to Boise. There were a lot of hoops to jump and an enormous amount of things to do and Mal did it all."

When the Hawks became affiliated with the California An in 1990, Fichman left Boise and managed independent Erie of th Class A New York-Penn Leagu the Stedler Division title.

Aug. 24th I'm being invited back to the NBC hit: "THE RISE AND FALL OF REGGIE DINKINS". I did an episode for them the first year and now I've been invited back.....life is good....I've had lots of ups and downs...both physically and emotionally...haven't we all....but I pick up my big girl pants and I start all over again. Life has been good to me.

Worked various manufacturing jobs and at one point had a mobile tire service business, Jacod Tire Service, throughout the 1970's. During 1977, purchased a Victorian home in Haworth and spent many years reviving it to former glory. In the early 1980's, became a production Supervisor at Marcal Paper Mills in Elmwood Park and over time became responsible for all finished good manufacturing ("Converting") and oversaw the creation and installation of new production equipment as Vice President of Converting. Transitioned to RONCO Manufacturing in Scranton, PA around 2000, a builder of packaging and safely equipment and later took a manager position at Royal Paper in Arizona. In retirement, relocated to the Keene, NH area and spent time tinkering on many things including engineering an overhead cam Packard 356 Straight 8 (Packard – Dodge Science Project | An overhead cam straight eight engine…). Became widowed in 2024 as an outcome of a tragic auto accident and now resides at the Veterans Memorial Home in Paramus, stricken with dementia.

I graduated from the University of Maine with a degree in Microbiology, but I spent the bulk of my working life involved in International Marketing, working for suppliers to the global paper market. This gave me the opportunity to live in a number of countries, including Canada, Belgium, Singapore and Saudi Arabia. I spent a lot of time in traveling around the world, exploring and meeting wonderful people. I miss the traveling and visiting new places, but we are enjoying life in Florida. We still travel to visit family in the Chicago area and in Arizona. We have managed one international trip most years, including Europe, Japan and the Middle East. Of course we have both cruised extensively in the Caribbean and to Mexico.

I've was briefly married shortly after university, was divorced,-single- and finally found the right woman and was married for over 45 years and then lost my wife, Anne, to cancer. Anne and I never had any children. We moved to The Villages, FL in 2001.

After Anne passed, I was blessed to find another wonderful women to share my life with. Karen and I were married in 2019. Karen has 7 children and we now have 16 grandchildren. No great grandchildren yet.

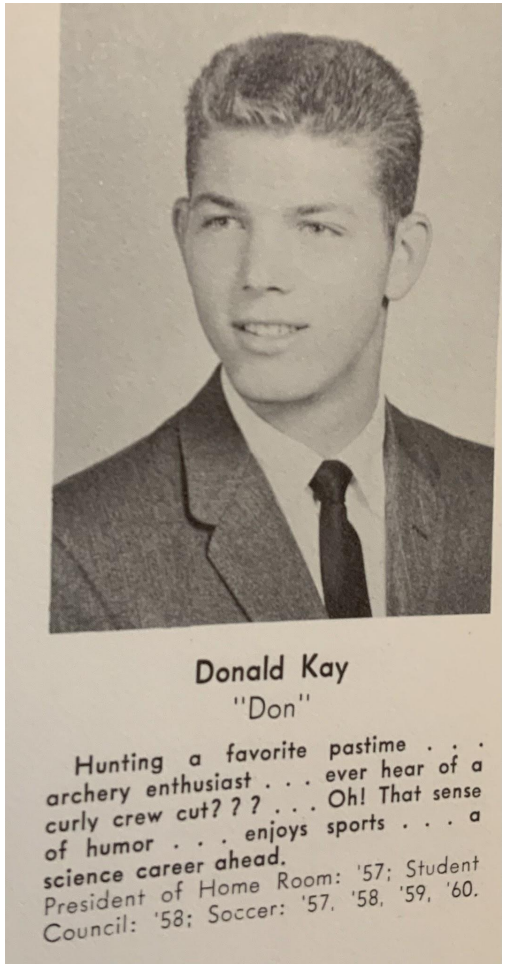

I am retired and living in an over 55 community, called The Villages, located in Central Florida, about 60 miles north of Orlando. I have been here for 25 years and Karen has lived here for about 12 years.

Marriage status: Married 52 years to Pat; I became a widower in 2017. Not wanting to grow old alone, I signed up on Match.com and a lovely lady, Sandy, in Wind Gap, PA, found me; ironically, we both graduated high school the same year. We have been married now for nine years, living the dream in the heart of the PA Slate Belt.

Children: Pat and I had two children, Elizabeth and Michael who passed away in January, 2025.Elizabeth and her husband, Eddie, have twin girls and a boy who are my biological grandchildren.
With my step family, I have a stepson, step daughter inlaw, three step granddaughter girls, and three step great-grandchildren, two girls and a boy.

I taught science in the Hopatcong School District, Hopatcong, NJ, for thirty-four years. I retired in 1998 at age fifty-five and never looked back enjoying the many things that retirement has to offer.

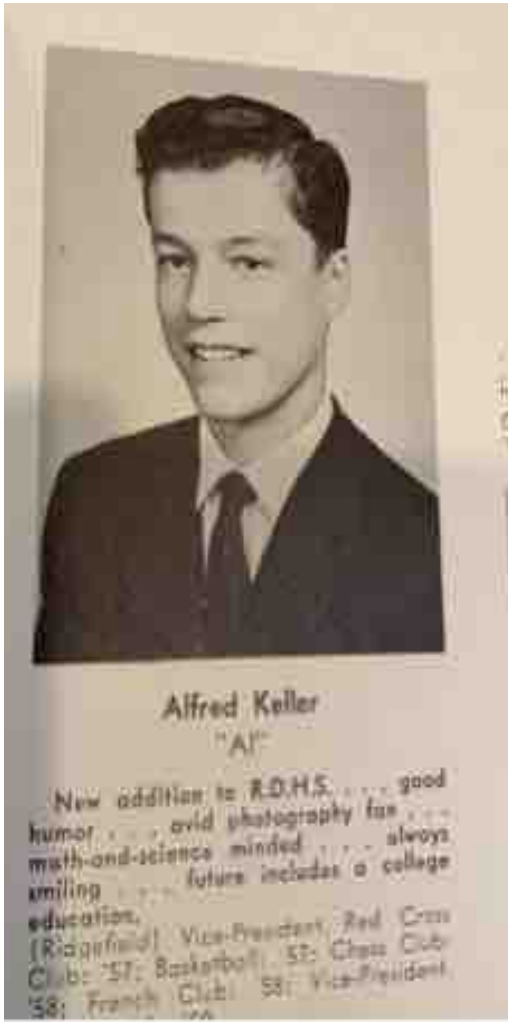

Donald Kay

Donald Kay, Wind Gap, Pa.

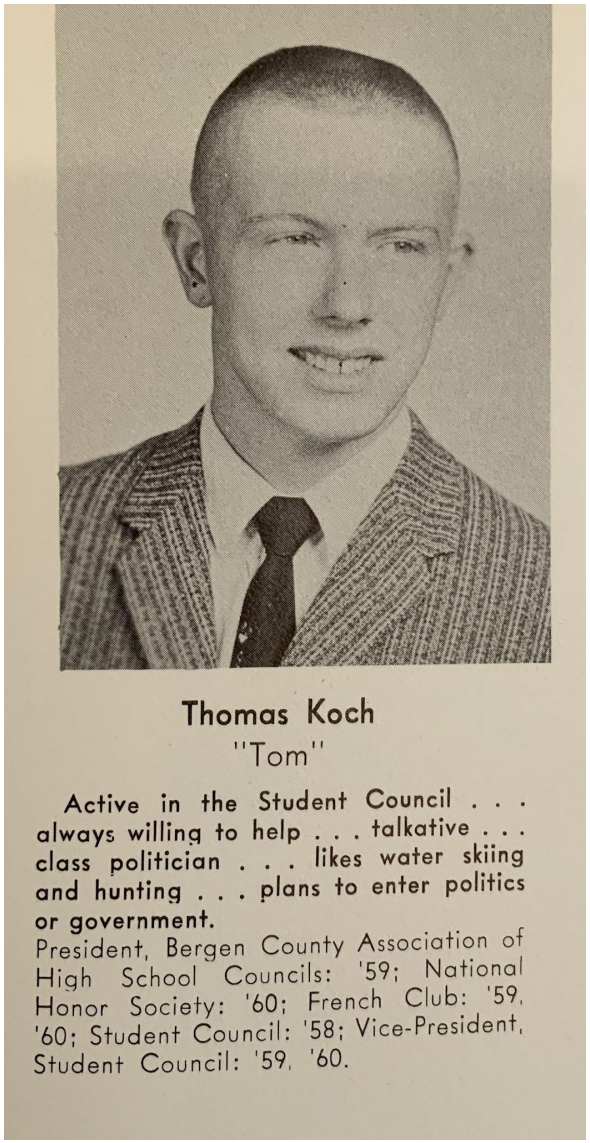

Donald says, "The quest for this 'trophy' began three seasons ago; I wanted to kill a buck over a decoy. At 83 years of age and now hunting alone, tree hunting is no longer an option. Three seasons ago I became intrigued with decoys but was not convinced that they worked, so I sent one to my friend Lucian, who had a spot where one might prevail; it did, and he killed a buck. The following season I had a decoy that brought in a large buck; however, it was too dark for a shot. The following year a mature buck was headed for the decoy, but he must have seen movement through the mesh of the tent and he bolted. This past season I was in a tower blind, and this 'trophy' approached the decoy with purpose. He provided a double-lung shot at 10 yards; the Raven crossbow, Death Grip Bog Pod, Flambeau Scrapper Buck decoy with the antlers removed and some doe estrus applied to the tail, and a Ram Cat broadhead sealed the deal, and he expired quickly 70 yards out. I consider this buck a 'trophy' because of all the time spent planning and hours of anticipating over the decoy. In 69 years of hunting, I have had the pleasures and thrills of hunting woodcock, ruffed grouse, pheasants, bobwhite quail, waterfowl, turkeys and whitetail deer."

Got admitted to the Vermont Bar 12/67 and promptly called up to meet the two year commitment I made through the ROTC program at Middlebury. I served one year at Ft. Knox, mostly defending AWOLs, then my second year in Vietnam. Long story short, I spent my year primarily behind the lines and out of any real danger, and I salute those who carried the burden and were constantly at risk. (R.I.P. Ben Tebault)

Back home, I engaged in 38 years of law practice in a small firm in a small city. No huge verdicts just an ordinary practice centered on wills, trusts, estate planning and administration, and real estate.

I also spent 11 two-year terms in the Vermont House of Representatives, where I developed a special interest in substance abuse, addiction, treatment, and recovery.

Since my wife, Sally, and I both retired about the same time, we've done a lot of traveling, and I spend a lot of time gardening

I have 50 years of involvement with Boy Scouts, as a youth and as an adult from troop committee member and merit badge counselor to Scoutmaster to Council Vice President. In my last phone conversation with Jim Gift, we reminisced about how we nearly drowned each other while working on Lifesaving Merit Badge. But we both got the badge! 😂😛

Over the years. I've been involved in Lutheran church activities from worship chair and council member in my congregation in Montpelier, to Synod Council member, to a member/delegated' at five different national conventions/assemblies.

I've concluded that politics are a disease of the blood, and I've never found the remedy. After leaving the legislature, I have continuously served on one Republican committee or another, with mixed results, but more often than not suffering from wins by Democrats.. Bernie? Who's he?

As we keep getting unwanted but appreciated notices from Carol, we are thankful for the really great group of kids that made up the River Dell Class of 1960, and we are reminded that we have far fewer days ahead of us than we have behind us. Treasure every day, because it is a gift from God, and just waking up in the morning is a blessing. So each day, rejoice, give thanks, and ask yourself "how can I make life better for someone else today?"

Graduated from Penn State with honors in 1964. Drove out the West Coast with two guys from class 61; was immediately reclassified 1A. They were both 4F. Joined the Marines in Hollywood, was an enlisted man for about a year, went to OCS and then 18 months of flight training at Pensacola. Got my wings in December 1966. Assigned to a Huey training squadron at Camp Pendleton.

Shipped out to Vietnam in May 1967, joined a Huey squadron. Wounded twice; the second time spent five weeks in a hospital in Japan. (it was a thrill a minute.) Returned to the states in June 1968. Released from active duty in November in 1969. Tried several civilian jobs and eventually became a district attorney investigator, Los Angeles County; retired in 1998. Moved to the greater Denver area in 2021 to get out of California, and to be near the grandkids. Live with my wife, Pam and my dog Buttercup. Great to be alive!!

I'm widowed for over 20 years, we had no children, after graduating from NYU at the Bronx campus, where in my senior year I was President of the student body, I enlisted in the Army, and as a Special Agent in Military Intelligence, I spent 15 months in south west France, then a tour in Vietnam. After Nam, as a civilian, I was a Special Agent in Naval Intelligence in NYC. As Vietnam was beginning to wind down, there was a reduction in force and I, lacking 3 months for tenure, was riffed. I spent the next 30 years working for NYC's Department of Environmental Protection in various managerial investigation and enforcement capacities, including being Deputy Inspector General of DEP, and a year with the city's Department of Investigation. I had a good career, and have been retired for over 25 years. I thank River Dell for the education and experiences it provided . I've lived in Ridgefield for over twenty years.

Hi, Ted. Here is my basic info. I am happily married to wife Julia and recently celebrated our 55th anniversary. We live on Cape Cod (Chatham) in the summer and spend winters in Venice FL. We have 2 kids, Michael and Susanne. Mike has 3 children, 15, 13 and 9, so obviously no grandkids yet. We get together once a year with Dave Townsend and wife Gayle but other than that, have not had recent contact with RDHS classmates.I forgot to include my education details and work experience. I got a BS in industrial engineering from Lehigh and an MBA from Stanford. Although I began my career with an industrial company, Ingersoll-Rand, most of my experience was in investment management. I spent 20+ years with Mass Mutual, retiring as Senior VP and Managing Director of Equities. After that I spent 5 years helping a college fraternity brother launch a wealth management firm. I hung up my cleats for good around 2000 and have been happily retired since.

Marital status: widowed

2 grown children: Richard and Laura, both married

Retirement: I taught 2nd grade for 1 1/2 years before I married Lou. Then we moved to another location since his career required him to live close to NYC because he played for the NY Giants.

Although I didn't resume teaching, my life's work was volunteering for our local hospital as one of the leaders for the hospital's major annual fund raiser. We raised over $100,000 annually, so it was a worthwhile project.

Benjamin Lee Tebault

Vietnam War

Lost, but never forgotten. Benjamin Lee Tebault was born December 4, 1942, in Portland, OR, and later moved to Oradell, NJ. His home of record is Oradell, NJ. He had two sisters, Elizabeth and Sara. Benjamin attended River Dell Regional High School and graduated in 1960.

Tebault served in the US Marine Corps where he attained the rank of Captain (CAPT/03). He was a member of Marine Fighter/Attack Squadron 212, Kaneohe Marine Corps Air Station, Hawaii.

On June 4, 1972, Tebault was killed in action in the Binh Dinh Province of South Vietnam. He was returning from a bombing run when his F-4 Phantom aircraft was shot down by enemy fire. He was 29 years old. He was on his second tour in Vietnam. He was the last known Bergen resident to die in the war.

Tebault is buried at Skyline Memorial Gardens, Portland, OR, alongside his parents, Ethel M. Tebault and Alfred L. Tebault.

He had two sons, Jason Lee and Jonathan Benjamin and a wife, Patricia.

His picture and a plaque acknowledging his sacrifice hang in the lobby of River Dell Regional High School. Tebault was awarded the Purple Heart, the Bronze Star and the Distinguished Flying Cross.

I have been married to the same, wonderful woman for 65 years! We have had 2 children (boys) and they have produced 5 grandchildren. Unfortunately, these grandchildren (ranging in age from 19 to 42) have not, by choice, given us any great-grandchildren to spoil.

I am now retired and have been for 8 years. I worked quite a long time until I felt that I was not doing the quality work that I wanted. I guess that is what happens when you live as long as I have. My working years were filled with my work in theoretical physics and numerical software. Some of it was very fulfiling. The first 20 years (or so) I was a professor of theoretical physics at Chicago State University and with the theoretial physics group at Argonne National Laboratory. The work in physics led me into having to do many numerical calculations and so essentially the rest of my career was focused here. For some of my projects I had to do the computations on a computer and found that I liked it. Eventually I left Argonne and worked for a small software company which I eventually took over. The softrware that I developed was used by many institutions in many countries. One of the main ones was the Bank of Italy in Rome. I lived in Rome for a short tlime and then spent many years commuting between Florida and Rome. Eventually these trips became a little difficult for me, so that is when I retired.

I moved from Chicago to Florida 40 years ago. For the first 20 years (more or less) my wife and I lived in Palm Harbor in a house that we had built for us. When age crept up on us, we decided that we did not like all the maintenance work on the house, so we moved into a much smaller house in Oldsmar where we have been for the last 20 years or so.

This has been my life in a nutshell. I feel very blessed to have been able to live the life I had (although I am enjoying retirement as well). I hope this covers the information that you need for your list.
