## SHAY STEAM-UP JANUARY 1 FOR PUBLIC

New Year's Eve in San Diego will once again be highlighted by the sound of steam whistles as PSRMA will hold its third annual New Year's Steamup.

The fire will be started in the shay's boiler at 7pm with an expected rolling time of 10pm. Of course midnight will be the highlight as the whistle is blown welcoming in 1970.

This year will be a special thrill for through the efforts of member Bill Richards, the shay will be equipped not only with its own whistle, but with the whistle from the Coos Bay loco and a whistle from Terry Durkin's collection. So bring your tape recorder!!

The shay will be under steam all night with New Year's Day activities beginning with operation for members at 10am and public operation from 12-5pm. Hopefully membership operation can be held after 5pm, dependent on public attendance.

A work party held December 13th was a huge success with the cab being washed down and a new coat of paint applied to the boiler. Those assisting were, Dick Pennick, Bob DiGiorgio, John DeKelso, Jim Lyerle, Dan McLean, Bill Richards, Terry Durkin and Jerry Windle.

Those wishing to serve on the train crew January 1, are requested to attend a training session December 28th at the locos beginning at 2pm.

This year, we are pushing for 500-plus attendance by the general public, so we can use all the help we can get for train crews, crowd control and refreshment handling plus who-knows-what. Any members desiring to help out should attend the training session or contact Bob at 448-6161 for an assignment.

This annual steam-up is one of the club's main functions during the year and as club members it is your duty and privilege to participate so let's see everybody down at the locos on New Year's!!!!
