1964

"CAR ELEVEN" at San Diego
depot, Santa Fe train # 77, 2/14/64.

PAGE ONE

RAILWAY HISTORICAL SOCIETY OF SAN DIEGO, INC. will hold the March meeting on Monday, March 2nd, 1964 in the Safety Room of the Santa Fe Railway station at 7:30 P.M.

RAILROADING IN SOUTHERN CALIFORNIA

NEWS AND VIEWS ALONG THE IRON TRAIL

First things first....the program on trail walking in the Grand Canyon presented by our good members "Mac" and Ruby McCleary at the February meeting was a gem. Mac gave us a little show on some ghost lines of the S.P. and after showing those slides and giving out some of the "teeth" from those ghost railroads he really got into high gear. A complete slide show with wonderful slides, background music (via tape recorder) and a wonderful narration of everything seen on the screen, also via tape recording. A very neat and professional showing of that great wonder of nature, the Grand Canyon. The slides took us down various trails at several different visits made by Mac and Ruby. Those of you that were absent missed a good show.

On Friday, Feb. 14th the new private car berthed in San Diego made her maiden voyage on Santa Fe and Union Pacific trackage. Returned earlier in the month from the San Bernardino shops the car had final work done at San Diego which included new carpets, upholstery, drapes, fittings and the dining room refinished in antique white and gold. The car is quite a show of elegance both outside and inside. The exterior is finished in solid blue with gold leaf striping and lettering. The interior is natural wood (other than the dining room) with gold drapes, red carpet and much red fabric in the lounge section chairs. The dining room chairs are done in gold fabric. The car is very fine and rides very well on six wheel trucks equipped with roller bearings. It is self contained with heating, power, air conditioning, etc.

The Newsletter editors were fortunate in having an invitation to ride the car from San Diego to Los Angeles on this first trip. Car Eleven was headed for Las Vegas, Nevada via train #77 on the Santa Fe (San Diegan) and #6 on the Union Pacific out of Los Angeles. We left town with Alco #51 on the point and about a 16 car train! Speeds of 100mph were reached through the El Toro, Irvine and Tustin area, the car rides well! Original plans were to go on the S.P. to San Francisco but some backwardness on the part of S.P. caused the Car Eleven owners to change to the Las Vegas trip. Problems with the S.P. have since been ironed out for future trips.

Saturday, February 15th was the big day for the little train, Orange Empire Trolley Museum chartered a three car special, Fico-Rivera to Barstow and return. This trip with a pair of "A" unit Alco passenger diesels, an old combine, coach and famous observation car 1509 proved to be a real fun trip for the 130 lucky ticket holders. The weather was beautiful all the way and photo stops are a ball with a small train. Horse power was not lacking either, a pair of 4,000 HP total diesels can make three cars hustle right along, even up hill. An interesting saw-by was made going east on Cajon Pass with a very long freight. Much railroading was enjoyed and it seemed all aboard were looking forward to another such trip in the future.

MORE NEWS ON PAGE TWO.....OVER PLEASE-

R.H.S. of S.D., Inc. NEWSLETTER, distributed monthly to all members and exchanges to other railfan groups. Items printed in the newsletter are not necessarily those of the society and the editor takes full responsibility.

(Barbara & Corky Thomson, editors.) 3/1/64

RAILWAY HISTORICAL SOCIETY OF SAN DIEGO, INC.,
P.O. BOX 9351, SAN DIEGO, CALIFORNIA, 92109.

1964 SOCIETY OFFICERS

EARLE A. SWAINE.....President.
GLADYS L. SKEEN.....1st Vice-President.
CHARLES T. MANN.....2nd Vice-President.
CLIFFORD G. SKEEN.....3rd Vice-President.
FRED R. FINKE.....Treasurer.
HARLAN HATZ.....Recording Secretary.
BARBARA J. THOMSON....Corresponding Secretary.
SEETH L. THOMSON.....Excursion Director.
LWIGHT E. COUCH.....Historian.
ERNEST C. MAJORS.....Director.
DONALD DECKER.....Director.

1964.....OUR NEW SOCIETY YEAR HAS STARTED.....

March 1st begins our new year, all members now signed up for the year will find their new 1964 membership card included with this issue. Those of you who have so generously donated to the Equipment and Restoration Fund will also find a receipt for donation, we thank you.

We were supposed to have a new copy of the Constitution and By-Laws included with this newsletter but ran out of time and paper. The new copy will be mailed to all 1964 members with the next newsletter or during the month of March before the next issue.

A new revised copy of our Information Bulletin is also in the works. Tom Matson made up the last such bulletin and it will be reprinted with new additions.

If you can possibly attend the monthly society meetings, we urge you to do so. We have a nice group and enjoy seeing you all, our monthly programs are always worth seeing and we are quite sure 3rd V.P. Cliff Skeen has some good material in line for us during 1964. Remember, the first Monday night of the month, Santa Fe station, downtown San Diego, 7:30 P.M. in the safety room, upstairs to your left. BE THERE!!

We are a group-member in the Orange Empire Trolley Museum at Perris, Calif. This does not make each of you a member, we are basically a supporting membership. Individual memberships in O.E.T. must be done by the members, associate or regular memberships are open. For information, write to: ORANGE EMPIRE TROLLEY MUSEUM, Post Office Box 501, Perris, California, 92370.

RR'ing IN SOUTHERN CALIF...Continued

The Mount Rubidoux Chapter of Pacific Railroad Society has made an agreement with Orange Empire Trolley Museum to sublease the center strip of the mile-long unused right-of-way south of Perris. The chapter leases the strip from the Santa Fe. It is a portion of the old original California Southern. The O.E.T. hopes to start placing poles soon and laying track. The chapter will have permission to use the trackage also for any equipment they may have, both groups will jointly get the benefit of the trackage and it will give O.E.T. some main line running.

While mentioning the Mt. Rubidoux Chapter, this group is considering pulling out of the Pacific Railroad Society and renaming. The distance from L.A. to the San Bernardino-Colton area plus the number of chapter members from that area make it rather foolish to continue as a part of P.R.S. The two groups will continue to cooperate with each other on excursions and activities but this will allow the Rubidoux group to operate in their own local area. The name is being considered changing to California Southern Railway Museum. The chapter owns and operated former Soo Line observation car #54. They are currently trying to give the car a name, car 54 is so popular, on TV it is a wild police car, in San Bernardino it is their car, in San Diego it is our old trolley, car 54. They are considering naming it MT. RUBIDOUX or the FRED T. PEREIS, in honor of the responsible for the California Southern coming through the San Bernardino area. The town of Perris was named after him.

The S.F. is laying double track through the San Timoteo Canyon to help increase train movements over the hill to Beaumont. This is the busy east-west line from Colton to Indio. Work is expected to be completed in May.

Potash shipments are again making the rails shine into San Diego. Recent repairs to the conveyor at the port are hoped to keep the bulk loader working trouble free. The S.D.S.A.E. is moving alfalfa pellets via box car due to a shortage of lined covered hoppers. Seems the hopper cars are all in service, that just ain't enough of them to go around!

Heavy patronage on the San Diegan recently rated three high-level cars to carry the loads, higher capacity of such cars holds down train length and gets the ticket holders over the line in transcontinental style.

Some of the big 2400hp 800 series road-switchers recently were in use on the San Diego line for night freight hauling.

MAINTENANCE DEPT.

2nd V.P. Tom Mann is in charge of restoration and up keep of society owned railway equipment. This is a rough job, there are plenty of things to be done but very few people available to do them. Presently the restoration of our very old streetcar # 54 continues at the Whaley House in Old Town. Car 54 is presently looking as if it might be complete but there is still much to be done. If you can help with painting and sanding, contact Mr. Mann. Work parties on the old trolley car are usually held on Saturday. Up at the San Diego County Fair we have the last of the beautiful PCC streetcars as used on San Diego streets, this is car 528. It is in need of sanding and painting, we need good careful workers for this, no sloppy workers. Our big iron, locomotive 104, the famous old Baldwin of San Diego & Arizona Eastern service will require much work prior to the 1964 fair in late June. Coupled to the 104 is our real pride and joy, open platform observation car 050, the "Carriso Gorge". This old wooden, truss rod car will require more work too.

As you can see, there is always work to be done and many of the people best suited for this type of work have dropped from society membership or moved away. We are always in need of fresh blood interested in helping to keep these fine railway items in presentable shape. Everyone is always wanting more equipment, a museum site, etc., but these same people don't help maintain the equipment after we get it or they drop out and thereby aren't eligible to be a part of the big society job.

Up at the Perris museum we have our San Francisco streetcar 171, this car is in need of paint work. It will require hard work by interested hard working people, no loafers needed. Most of the so called traction fans have pulled out for want of easier things in life, we are still burdened with the fine equipment so we must look for new and willing workers.

There will be work days scheduled soon on all of this equipment, if you are able, please try to help with the work load. We realize many of our members are up in years and there are many that are not to old to work but have serious health problems which prevent them from doing any heavy work. We need some good young, strong workers...willing to follow orders and do the job as it should be done.

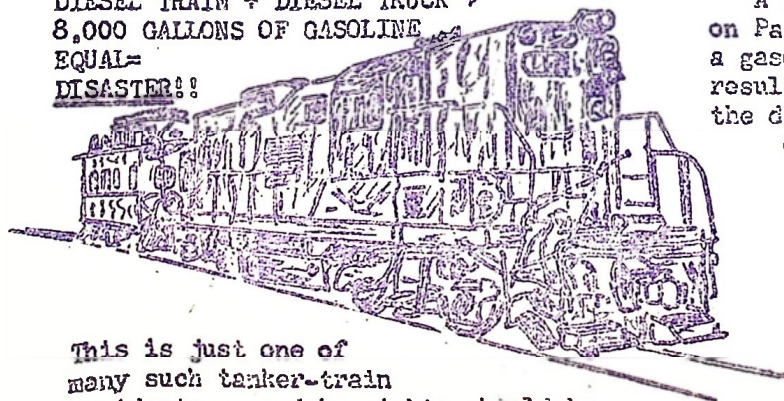

MODEL RAILROADERS ARE TRAIN LOVERS (At least some of them are!!)

Don't be mistaken when you hear the words "model railroader" because they may not be as you think. Many model railroaders are sincere lovers of the big trains and resort to the miniature version to carry on their interest in railroading. (Some just play toy trains!)

A group of pretty interested railfans is the Pacific Beach Model Railroaders Club, they like trains and railroading (most of them) and follow the operation of the big trains in the scaled down way on their PACIFIC BEACH & WESTERN RR. This is an HO scale system located at the fairgrounds in Del Mar. They meet and operate a regular schedule every Tuesday night.

On Wednesday, March 11th, 1964 the P.B.&W. crowd will hold their annual installation of officers at a dinner meeting. This will take place at the Midway Chuck Wagon in the private banquet room (Fireside Room) at 7:30 P.M. All members of P.B.&W. are invited to take part and join in the festivities. If you are interested, contact Corky or Barbara Thomson after 4:pm at 276-3266 or send your money in to the club box, P.O. Box 9351, San Diego 9. Dinner is \$3.50 per person, includes meal, tax, tip and chances on some very nice door prizes. Drop a card for a brochure, or send your check, or call, EUT...plan now to be a part of the 15th anniversary dinner of the Pacific Beach Model Railroaders Club, Inc. (HO & 1 1/2" scale)

DIESEL TRAIN + DIESEL TRUCK +
8,000 GALLONS OF GASOLINE
EQUAL=
DISASTER!!

This is just one of many such tanker-train accidents....and by rights should be the last.....but a careless driver can create the next one, and kill once again.

A southern Pacific diesel switching train on Pacific Electric right-of-way recently hit a gasoline truck in the Sepulveda area. The result was death to everyone involved, including the driver of the death weapon, a loaded truck of highly inflammable gasoline.

The sketch at left is drawn from a photograph taken by Joe Schmitz after the ill fated diesel was towed to the diesel service area at Taylor Yard in L.A. The floor of the caboose was burned out by the angry gasoline flames. All trainmen aboard died.

THANKS TO THE DONORS

With the arrival of 1964 membership renewals we were also fortunate to have some of our members include a little extra for the Equipment and Restoration Fund which is responsible for the up keep of our railway equipment and such restoration projects as our Car 54 project.

The following persons did their share to help keep the fund going and we thank them all: William Allison III, W.F. Byrne, Joel Chambers, Elbert Cann, George Guth, Everett Jones, George Llewellyn, Jr., E.J. Lupien, Morey McDonald, S.C. Nickler, Jon Sapp, Murray Smith, Robert Smith, Fred Ticknor, Louis Thomas, Mrs. M.J. Woody, John Cranston.

A NEW RAILROAD Now under construction is a new railroad, right close to home too. The Pacific Beach & Western is now clearing right-of-way, ballasting, laying new track and bridges on the new outdoor $1\frac{1}{2}$ inch scale, $7\frac{1}{2}$ inch gauge railroad. The line is to circle the dike parking lot at the fairgrounds in Del Mar. This is the lot along the slough behind Harvest Hall.

Over two hundred feet of track have been put down and ballasted, one ten foot bridge is in, complete with cement footings, one switch is in for the first passing track and there is lots of enthusiasm as the line progresses.

This is a railroad big enough to ride on and have fun doing so, it will feature live steam locomotives, diesels and electrics. The last two types will get the power from gasoline engines or batteries but the live steamers are the real thing, oil or coal fired.

Work has been progressing on the first and third Sunday of the month. Anyone with the urge to help or just wanting to see what it is all about is invited to drop by anytime from about 10am to 4pm. For more information on the new line contact Corky Thomson or Tommy Mann.

For a first hand meeting with this group of miniature railroaders come to their 15th anniversary dinner on Wednesday, March 11th. Dinner, program, door prizes, all for \$3.50 of your hard earned money! Send for your dinner reservations today, Pacific Beach Model Railroaders Club, Inc., P.O. Box 9351, San Diego, 92109. The dinner will be at the Midway Chuck Wagon, same place and private room as the one the R.H.S.D. had in January. JOIN THE PBAW FOR AN EVENING AMONG RAILROADERS, MARCH 11, 1964

REMEMBER The March R.H.S.D. meeting is on Monday night, March 2nd in the safety room of the Santa Fe depot, 7:30 PM, "BE THERE"

LOOKING FOR A HOME The little 0-4-0 at Vista is searching for a home, a place to perform a steam locomotives work for the pleasure of people. Space, money, someone to lease the equipment??? Here is a good working steam engine just crying for a place to run....any of you know of anyone or a place?? Contact Mr. & Mrs. Follard if you know of a place where the train can be operated.

OURS AND MINE A few special cars have been around lately, the big heavy duty flat car on S.D.C.A.E. last month, a U.S. Army flat car of 54 foot length, a train of military equipment for the army to participate in war games and a recent shipment of military tanks going to the east. The southbay power plant got that new generator on the double truck flat, the army flat was loaded with ten jeeps, it had six wheel buckeye trucks, 200,000 lbs cap., the train of military items was quite novel, equipment was unloaded on the team tracks by Market St. The vehicles were driven and ferried to Coronado. The string of flats soon with tanks was headed east. (saw them again at San Bernardino and later at Barstow 2/15/64)

More and more, specialized service type railroad cars are appearing on the railroads.

EXCURSIONS Possibility of a charter bus to O.E.T. and Cajon Pass is slim at this time for April because of the big yearly Pacific RR Society excursion to Eakersfield in April. We don't have the exact date as yet. HOW MANY WOULD PREFER A PRIVATE BUS TRIP TO O.E.T. and THE SAN BERNARDINO-CAJON PASS-COLTON AREA??? Drop us a card with your interests.

In May the county museum group will run a special train from San Diego to Fallbrook, returning to Oceanside for bus connection to the marine camp and Armed Forces Day doings. Return to Oceanside and train back to S.D. We don't have fares as yet but this is to be run on Saturday, May 16th to the best of our knowledge. We will have more information soon.

Proposed trips also include a three car charter trip similar to the recent O.E.T. deal to Barstow. We hope to run a trip of this type on a Sunday but probably only as far as the summit of Cajon Pass. (from San Diego) Fare would be around \$12.50 per person. INTERESTED?

October will be the month for a trip to Orange Empire Trolley Museum, via Santa Fe special train all the way. More on that later. PACIFIC COAST REGION CONVENTION of the Natl. Model RR Assoc. will be held in San Diego on MAY 1 - 2 - 3. Keep those dates open if you are interested in model railroading activities.

1. ALLISON, William C., III - 1400 Woodruff Ave., Los Angeles, Calif. 90024 (474-4053)
