Drueke GAMES

ESTABLISHED in 1914, the Wm. F. Drueke Co. is one of America's oldest manufacturers of fine chess sets. Originally specializing exclusively in the manufacturing of choice sets, the acceptance and appreciation of connoisseurs has led to a large and diversified line. Today the heritage of two generations of painstaking effort and devotion to the creation of fine games is still the inspiration guiding the artisans at Wm. F. Drueke & Sons.

Supplementing these intangible qualities are the latest types of equipment coupled with modern and economical assembly operations. From the drying of the lumber to the final finishing, complete control assures maintenance of these standards. The combination of these merits has significant relation to your orders for any of these products.

No. 500 Roulette Chips and Rack — Oblong Walnut finish rack complete with 200 ⅞″ interlocking unbreakable Chips — assorted colors — with cover.

No. 500-S — with smooth chips — with cover.

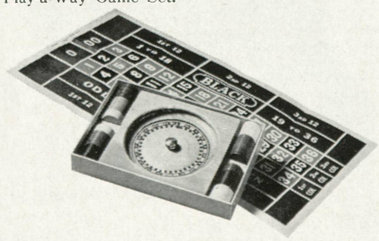

Contents of Play-a-Way Game Set

The set contains an ingenious miniature roulette wheel mounted on a handsomely finished wood base. It has the necessary ball and a heavy three-colored layout pad.

There's a neat pocket-size checker board of beautifully finished hardwood, with ivory-lacquered squares. The opposite side of the board is designed for backgammon. A handy tray contains a full set of checkers and chessmen, also dice and counters for backgammon and acey-ducey.

There is also a walnut finished hardwood cribbage board. When packed the cribbage board forms one side of the cabinet. This can be readily slipped from the grooves, ready for use. Cribbage pegs are included.

A built-in rack (see cut) contains 200 plastic poker chips and a pack of bridge-size playing cards. Other items include a layout for Michigan Rummy, and a 32-page book of rules for a variety of games that can be played with this Drueke Play-a-Way Game Set.
