which has been raised. Among the groups which have not reported since the organization of committees to promote the plan are the insurance men, undertakers, auto, tire and accessories dealers, printers, bakers, and the lumbermen. Quotas for each group, however, have been set and the committees in charge have assured promoters of the plan that the amounts will be raised as agreed upon.

In preliminary discussions officials stressed the necessity of making the campaign citywide and thorough rather than rapid, most of those anxious to bring the institution here being of the opinion that the allotted time will permit the use of methods which will assure each group its proportionate allotment.

No information was available Thursday as to the outcome of a conference to discuss the hospital plan, which was to take place Wednesday between James M. Kurn, president of the Frisco, and company executives in New York. A committee chosen from members of the chamber a few weeks ago reported that Mr. Kurn is highly in favor of the proposed institution. Great attention has been given the statements in which Mr. Kurn said the Frisco is solidly behind the movement.

FIND WAY FOR HOOVER TO PICK POSTMASTERS

WASHINGTON, March 5.—A loophole has been found in the law which will permit President Hoover to appoint all the 300 postmasters who failed of confirmation in the senate, it was learned Thursday at the White house.

A way has been found by which all will receive their pay for work done until their nominations are confirmed or rejected by the senate next December.

Of the 300 nominations, 171 are reappointments and 129 are new.

The 1931 auto show in St. Louis attracted 9,312 people to view the 285 cars the opening day.
