To Prof. Per-Ingvar Brånemark  
 The Institute for Applied Biotechnology  
 Fax. No. +46-31-778-2512  
 From: Yataro Komiyama  
 Fax. No.: +81-8-8588-8163

Date 000321

Dear Prof. Brånemark,

Thank you very much for your telephone of 000319.

The cherry blossom is waiting for your visit. The day time temperature is about 15°C.

① I made the confirmation of restaurant Lilla Dalarna today.

Time and Date at 6:00 P.M. on 000401 (Sat.)

Attendant: 13 Prof. Brånemark and Barbro, Prof. Asano, Dr. Ehira,  
 Dr. Iwatani, Dr. and Mrs. Kobayashi, Dr. and Mrs. Sohara,  
 Dr. and Mrs. Yoneyama, Yoko and Yataro

② The contents of your lecture on 000402 (Sun.)

Please include the following aspects.

• The unknown episodes of discovery of osseointegration

You did not tell the detail about the discovery of osseointegration  
 in Japan, recently.

The attitude toward the research.

Please advise young researchers on the attitude for research in medicine and in  
 dentistry.

The clinical application of implant treatment which has been based on the  
 benefit for patient as the highest priority.

The real reasons that you had waited more than 15 years to introduce to the  
 dentists in the world from your first clinical application. Please discuss about  
 your prudence for the application of nonbiologic material for human being.

I am looking forward to seeing you, soon. If you have the request, please let me know.

Please have a safety trip to Asia.

Yours sincerely,

Yataro Komiyama
