Tree Translations

On view through Nov 21

Featuring works by

Annie Hejny & Gaylord Schanilec

Exploring all aspects of these magnificent species from the details in the bark, the shapes of the roots to their significance in our human lives, Hejny and Schanilec showcase a variety of artworks directly inspired by Minnesota and Wisconsin trees.

This activity is made possible by the voters of Minnesota through a Minnesota State Arts Board Operating Support grant, thanks to a legislative appropriation from the arts and cultural heritage fund.
