

SLHS DVD and Tape List

As of March 2022

General Notes: All of the following recordings of some of the past SLHS program presentations and events dating from approximately 1974 through 2010 are stored in an approximately 1-foot by 2-foot plastic box with a blue top and located in Drawer 3 of SLHS File Cabinet 5. The DVDs listed below will generally play without a problem given some patience with identifying compatible software. The cassette tape recordings are generally of lesser quality, particularly with regard to program presentations, likely for lack of sufficient recording setups. SLHS began offering recordings of some of its presentations via its website in the 2010's and currently offers recording of most of its presentations via its website.

DVD List: All video based on 4.7 gigabyte DVD-R or RW media. "?" indicates information not provided on the DVD.

Title - Subject	Notes
Cherry Hill - Overview of Albany historic site by ? Ackerson	Unverified.
