 A Few Choice Recipes
Try them and discover why
millions use and praise
DAVIS' O.K. BAKING POWDER

BREAKFAST ROLLS
Scald one pint of milk and put in it a tablespoon of butter or lard. Into one quart of flour thoroughly mix two teaspoons of Davis' O. K. Baking Powder; one tablespoon of sugar and one tablespoon of salt. Add the milk, working it in slowly so as to make a smooth dough. Roll out and cut with a biscuit cutter, spread a little butter on each roll and fold over one half. Bake in quick oven.

WHEAT MUFFINS
Two cups milk; two cups flour; two eggs, whites beaten separately; one even tablespoon melted butter; two teaspoons of Davis' O. K. Baking Powder and a little salt. Beat the yolks of the eggs, stir in the milk, add the butter then the flour after the baking powder and salt has been mixed with it; lastly, the beaten whites. Put in hot well greased gem pans.

CHOCOLATE CAKE
Two cups of powdered sugar; half a cup of butter; three eggs; half a cup of milk; three cups of flour; three teaspoons of Davis' O. K. Baking Powder and two squares of chocolate. Cream the butter, sugar and yolks of eggs, add milk, then whites of eggs beaten stiff, then flour, beat hard and add the chocolate previously dissolved in half a cup of water or milk. Use white icing of sugar and water.

STEAMED SUET PUDDING
Three cups of bread crumbs; one cup of flour; two teaspoons of Davis' O. K. Baking Powder; one and a half cups of chopped suet; one and a half cups of shelled raisins chopped; one cup of molasses; one cup of milk; one teaspoon of salt; one teaspoon each of cinnamon and cloves; nutmeg to taste. Steam or boil three hours. Divide in two portions, putting each in stoneware bowls. Sauce: One tablespoon of butter; one cup of powdered sugar; the yolk of one egg; when beaten light and creamy flavor with nutmeg.

Try Rumford Biscuit.

1 quart flour, 1 level teaspoon salt, 2 teaspoons Rumford Baking Powder, 2 tablespoons butter or lard, milk or milk and water to mix (about 1 1/2 to 2 cups).

Sift well together the flour, salt and baking powder, rub in the fat as lightly as possible with the fingers, just working it until the fat is well blended with the flour. Then mix to a very soft dough with the milk, or milk and water, having this always as cold as possible. A flexible knife is preferable to either a spoon or the hand for mixing. Roll to about three-quarters of an inch in thickness. Cut into biscuit and lay them, not touching each other, on a baking pan. Bake in a quick oven twelve or fourteen minutes.

The chief requirements for good biscuits are (1) A very soft dough, so soft as to be almost sticky. (2) Very little handling because much manipulation destroys their lightness. (3) Very quick oven. If biscuit are not allowed to touch each other in the pan they will be found lighter and more delicate than where they are placed close together.
