## 10 cents

The Logan Square Baseball Club is entering upon its eighteenth season of successful play, both in Chicago and the surrounding states. This season the Chicago Midwest Baseball Association, which embraces as members almost every semi-pro and amateur baseball team in the middle west, is playing on a free lance schedule. From a Chicago standpoint we believe this is the kind of baseball that the fans prefer, as it gives us the chance of playing the best attractions in the United States, and allows us to encourage and play

## NOTES

The new twilight league formed last week, taking in light park clubs which will be played on a regular schedule, is being well received by the semipro fans in Chicago. Each club will play two twilight games a week and a Saturday game. Logan Square Park will not have any twilight games, but will play their league games at home every Saturday.

The Pyotts have been going at a good clip of late, and their defeating the Sturgis club last Sunday shows that they will have to be reckoned with. Just wait until the Squares get at them.

We expect that by next week we will have all the cripples on the club in shape.

The Logan Squares leave Sunday night, May 20, for Jackson, Tenn., and Blytheville, Ark., playing three games in each city. They will return Saturday morning, May 27.

**DO YOU KNOW**

The longest semi-pro game on record was played at this park on Sunday, September 25, 1923, between Joliet and Logan Squares. It lasted twenty innings and was won by the Logan Squares, Joe Weiss hitting a home run over the center field bleachers. Buck Freeman and Eddie Miller were the opposing pitchers.
