Dear Mrs. Elsdon,

Thank you for your letter of July 22, 1975. I have delayed my answer to your letter hoping that some photos of the Oceano garden would surface. However, I must report that none have turned up at our house so I have "put the word out" to my mother and aunt. I know some will appear sooner or later and then I'll give you a call and we can meet at some mutually convenient time and place.

Enclosed are copies of: a letter and newspaper clipping (plus translation) delivered to Harold Guiton from a Mrs. R. Voorthuyzen; a letter from H. Schierink and a letter from Mrs. Lupke. All parties appear to be related to Bert. I hope that you won't mind, but I took the liberty of providing Mrs. Lupke with your name and address with the thought that the two of you might like to communicate with each other. Maybe some valuable information for your book can be obtained from these people.

When I have located the photos I'll
give you a call.
Best regards to you.

Sincerely,

Angus Crites
