

Maidenform Flats, a green meadow in the Nipomo Dunes, was cleaned up of old cans, broken glass, papers and tinfoil last Sunday afternoon by Sierra Club members on their weekly "Sunday in the Sand Dunes" walk. The Flats is a popular recreation spot for hikers, dune riders, campers and picnics.

Cleanup trips are one of the activities of the Sierra Club, a conservation organization, which works constantly to keep the out-of-doors a place of beauty and recreation for all. Mrs. Lydia Hammonds of Paso Robles was the leader. Mr. Ralph Baker of Shell Beach was the naturalist on the outing.

This coming Sunday, August 15, the weekly walk in the scenic sand dunes will be led by Mrs. K. D. Walling of Morro Bay, 690 Olive Street, 772-8529. Assistant leader will be Mr. John Fleming Vice-Chairman of the Conservation Committee of the Santa Lucia Group of the Sierra Club. There is particular interest in the dunes area at this time because of the study for a dunes state park, currently being conducted there by the California Division of Beaches and Parks.

The public is welcome on all Sierra Club outings. It is suggested participants bring drinking water, a snack and sweater. Children are most welcome. Meeting time for this easy, leisurely sand dunes walk of approximately two miles is 3:00 p.m. Meeting place is at the intersection of Highway One and Oso Flaco Lake Road, which is on Highway One approximately 13 miles south of Pismo.
