Dear Kathleen,
Congratulations on your rewrite! I like it very much, a vast improvement over my condensed version. I've done a little cutting but it will appear essentially as you sent it. Would you send me a list of the R & E and the rare plants. It might be appropriate to list them in a box if there is space.
Questions: How would you like to be listed in the notes? member of the SLO cpt of CNPS and champion of the N dunes? what about your husband? And who is RJM who has a page of slides? One might be good to use as it shows the effect of the OHVs on the vegetation. How should he be listed? Where were those photos taken, Oso Flaco? Guadalupe? There is lots of good photo material so it should come out well.

DATE

You may be interested to know that the SNAP advisory committee wrote a letter to the OHV comm. urging them to allocate \$ and to G Van Vleck urging him to watch them. Hope it helps!

Please send your reply soon, The map didn't arrive today but expect it will by Mon.

Many thanks for your diligence and good humor!

Phyllis
