

SIERRA CLUB

Kathleen Jackson
Phone: Paso Robles 238-4353

RELEASE SEPT. 7

On September 12 the Sierra Club will resume its Sunday afternoon strolls in the Nipomo Sand Dunes. The public is cordially invited to join these easy and leisurely walks of two or three miles in one of the beauty spots of south San Luis Obispo County.

Meeting time through the month of September will continue to be 3:00 p.m. - enabling the group to enjoy the unusual shadow effects of late afternoon which accentuate the many dune formations. Camera fans are urged to bring their photographic equipment.

Meeting place will continue to be on Highway One at the intersection of Oso Flaco Lake Road. This point is 13 miles south of Pismo Beach (and three miles north of Guadalupe) on Highway One.

It is advised to bring drinking water, sweater and a snack.

For further information the leader of the trip may be contacted: Gilbert Wilkes, III, 405 10th Street, Paso Robles.

Guest naturalist on this occasion will be Bill Denneen of Nipomo, instructor in natural sciences at Allan Hancock College in Santa Maria; Denneen's years of study of the Nipomo Dunes' unique ecology and his popularity as a leader of youth trips outdoors, qualify him as an interesting interpreter on this outing.

Families with children are most welcome. And adults of almost any age can take this walk without difficulty.
