

T. W. & C. B. SHERIDAN, NEW YORK AND CHICAGO

Paper and Blank Work Folding Machine

This machine is especially intended for use in *folding blank work and writing paper, in sections, quires, or single sheets*; it can also be used to very great advantage in folding ream paper and many kinds of job work, such as card boards, wrappers, memorandum books, guard books, etc.

In folding memorandum books or other small work by this machine, the paper can be folded in sections in its full length, and afterward cut to any required size.

Paper can be folded by this machine much more accurately, and is forced back closer, than by hand.

The amount of pressure can be regulated to suit any desired purpose.

The receiving box placed either front or back of the machine as ordered. The machine will fold 420 reams per day in sections of six sheets. Machine runs 56 strokes per minute. 26 ins. wide, with speed pulleys and countershafts complete. Price, \$400.00 Boxing, \$15.00

Excelsior Book Index Cutter

For cutting indexes, with round corners, on blank or other books. It is a great labor saver, and does the work in the most perfect manner.

No time lost in changing cut from one index to another, the independent Index Rack Feed requiring simply a change of racks to cut any index. Change requires only two or three minutes.

Every index cut is absolutely true and cannot change, as the racks are all cast-iron, trimmed to the index. Easily worked by a boy or girl, and will cut from 600 to 1800 books in a day, according to the sizes of the books to be handled. Machines are fully guaranteed.

Ten Index Racks go with each machine. Additional racks, \$1.25 each.

No. 1 Machine, \$400.00

(Cuts from smallest up to largest size book.)

No. 2 Machine, \$350.00

(Cuts books from 10 ins. long down to smallest size book.)

Boxing, \$7.00
