

T. W. & C. B. SHERIDAN, NEW YORK AND CHICAGO

PERFECTION "C," STEAM POWER

Morrison's Wire Stitcher

Price, \$150.00

For stitching pamphlets through the fold it is desirable to flatten the wire as little as possible.

The machine will stitch books up to one-fifth of an inch thick, and must be adjusted for the different thicknesses by means of the index hand.

For books up to	$\frac{1}{32}$ inch thick,	set index hand to.....	No. 01
"	"	$\frac{1}{16}$	" about.... 2
"	"	$\frac{1}{8}$	" 3, etc.

Should the stitching be required tighter, set the index hand to a lower figure ; if looser, to a higher figure.
