

New Jersey Stitcher, No. 3

The machine occupies about the space of an ordinary sewing machine. The No. 2 Machine should run about one hundred and twenty-five revolutions per minute. (Pulley, eight inches diameter, one and one-half-inch face.) The No. 3, about one hundred and ten revolutions. (Pulley, 10 inches diameter, two and three-eighths inches face.)

The machine makes a stitch longer than most others, producing neater and better work. The wire may be round or flat, in size as thin as No. 28, or as thick as the work may require. Every machine sold is guaranteed.

No. 2.—Stitching from two sheets to three-eighths inch in thickness, - - - \$200.00.
