MITCHELL AND MALIK LTD. enjoys a world-wide reputation for fine marbled paper supplied to rare book libraries. We have been selected for the C.A.C. Conservation Index as a leading firm in our field.

HAND MARBLED DESK ACCESSORIES AND STATIONERY

We have applied our expertise to desk accessories and stationery, to produce a superb range of quality products many of which are handmade throughout.

SPECIAL MATCHED ORDER

Because we make the hand marbled paper ourselves, it is possible to place a special order for specific colours and designs to match and make up sets.

MARBLED PAPER

Each finished sheet of hand-marbled paper is unique. The skill of the craftsman makes one sheet appear similar to the next. The samples are a guide to key colours and patterns. However, variations are inherent in a hand process as traditional hand-marbling is not a machine printing process. The fine continuous 'line' and clarity of colour can only be achieved by carragheen marbling. A total of 15 separate hand operations go into the making of each sheet of marbled paper.
