MITCHELL & MALIK LTD

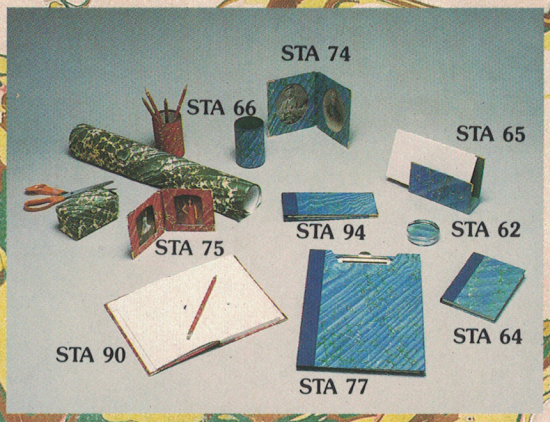

PRODUCERS OF FINE MARBLING ENGLAND

MITCHELL AND MALIK LIMITED was formed in 1975 in Salisbury, Wiltshire and fast earned a reputation for high quality hand-marbled paper, supplying bookbinders and rare book libraries in many parts of the world. In 1982 it moved to a converted barn in Mere giving enough space to produce a wide range of desk accessories and stationery. This year it has once again branched out and put together a collection of occasional furniture with the interior design market in mind. Each piece can be made to the customers' own requirements for a particular setting. A separate brochure is available.

HAND-MARBLED STATIONERY AND DESK ACCESSORIES.

Our range of stationery and desk accessories, illustrated here, is entirely handmade. Each year we bring out new papers to supplement the traditional patterns and in this way we can offer a choice of colourways and designs which will enhance any setting, modern or classical. (We would suggest that you limit your range of colourways so that the customer can make up sets).

MARBLED PAPER

Each finished sheet of hand-marbled paper is unique. Water-based inks, made up in our workshop, are floated on a size made from carragheen moss and the pattern carefully combed before being picked up by a prepared sheet of paper. The fine line and clarity found in Mitchell and Malik's papers can only be achieved by this time honoured method. The skill of the craftsman makes one sheet appear similar to the next, giving uniformity while retaining the individuality of each sheet. The paper is waxed to bring up the colour and give durability. There are myriad variations on a theme and Mitchell and Malik prides itself on originality and innovation.
