CONSERVATION TISSUES

Barcham Green first introduced machine-made tissues for conservation purposes 30 years ago. Each paper is made in England to our own specification entirely from abaca (manila hemp) and jute imported from the Far East. They are thus very strong, flexible, long fibred and permanent. They can be torn controllably in any direction, unlike most machine-made papers.

L2 TISSUE - 9 g/m² : an improved version of our original lightweight (L) tissue, L2 is even stronger and has a degree of wet strength. It is specified by many national institutions world-wide both for localised repairs and for lamination and properly used gives a nearly transparent result. It is also widely used for stuffing textiles including wedding dresses.

510 x 760 mm (20.1 x 29.9 inch)	£645 per 10,000 sheets
*24 x 36 inch (610 x 914 mm)	£925 per 10,000 sheets
3300 x 1 m (10,827 ft x 39.4 inch)	£410 per reel
*100 x 0.93 m (327 ft x 36.6 inch)	£350 per 20 reels

*These sizes are not stocked but especially made to order. Please allow 4 - 6 weeks for despatch.

M TISSUE - 30 g/m² : developed in 1976, M tissue is designed as an alternative to oriental hand-made tissues for backing and florentine repairs. like L2 it is available in reels as well as large sheets which saves time by reducing joins to a minimum on large maps etc. As well as being much less expensive than oriental papers, it is also made out of the finest fibres whereas analysis of comparable papers during development showed that they often contained up to 50% woodpulp. M tissue, especially in reels, is widely used by textile conservators for wrapping and similar purposes.

510 x 760 mm (20.1 x 29.9 inch)	£880 per 5,000 sheets
1000 x 1 m (3,282 ft x 39.4 inch)	£370 per reel

We can only supply paper in multiples of the price units listed above. If you require a special size, please ask for a quotation. We reserve the right to modify these prices at any time.

All prices are ex-Mill and the costs of delivery to docks, FOB charges, ocean freight and insurance will be added to the invoice. Payment is due in advance against our pro forma invoice or by irrevocable letter of credit payable on sight confirmed by the Midland Bank PLC or one of the other three London clearing banks. Payments must be made in pounds sterling and banks etc instructed that all charges will be paid by the customer.

Whilst every effort is made to ensure that all paper supplied meets our standards, our liability extends only to the invoiced value of faulty paper and does not cover any consequential loss. Any contract of sale will be deemed to have been made under English law and will be subject to the jurisdiction of English courts in the case of any dispute which cannot be otherwise resolved. Foreign courts shall have no authority to rule on cases of liability or other disputes.
