Dear Stella,

Sorry late in writing, a quick note,

Talas N.Y. has no natural Goat Vellums in stock she has rung around N.Y. with no luck. Talas suggests I order from Bands England the 12 skins, but I am not treated kindly by Bands because of the awful things & tangles Jim Lewis & P.W. got into (I don't know if they ever paid Ha!) actually I had nothing whatever to do with their order & have always paid mine but still I may not get prompt service from them & also I am heavily in Red till a big private job is finished; all this comes down to whether you could arrange to order from Bands the skins required.

NATURAL GOAT VELLUM ^{B.90} of a similar weight to the samples enclosed & we will have to take a chance on quality received. September looks very close! it is not very convenient from my point of work but V. O'neigh & baby goes to
except that

England. If Band's can fulfill order before
I fly West ~~& far~~ then shall we still go
ahead? If you wish me to push order
through Talas N.Y then phone me as soon
as you receive this scribbled Note.

Sorry to write in this manner
all seems hurried, but if I put of
coming this year it may never happen Ha!

Best Wishes hope life is fun

Chris
