Tapped backing boards vs stationary metal
backing boards.

If there are illustrations or illuminations on
books the metal boards may damaged them.
also the sharp edge may cut or groove.

The beech wood tapered boards are easier
on books. By moistening waste sheet
wood board will adhere in place. If
there is too much swelling because of
thinned it is easier on books. If beech board
become scored they can be planed smooth.

the plane to Firenze as we were two hours

jammed full as everyone was returning
to the town where they were born to vote
on the next day. Found a porter who got
me a 1st class seat. In compartment

who had been waiting for me since
noon.

May 18th - Good dinner & much talk. To bed at 10:30
& slept until 10 next morning. After breakfast
went in search of the Albicco's. Found them
then back to Maria's for lunch & bed again.
Wrote letters & bed again. Had bath &
dressed for dinner & to bed. I think
I have caught up with my lost sleep.

Rain, Thunder. Wake up again about 2 & afraid to
take a sleeping pill. Had balance of brandy & just
as I was about to go to sleep heard a nightingale
singing. So at last I have heard one!

Still over-cast but got to B.N. before it rained.
Catching cold so after lunch bought papers &
went back to Maria's to bed. Bought some
brandy. "Samborotta" Read all about the
