

CONCORDE

P y t h o n

Concorde is the distinctive book covering material from France. Python represents just one design within Concorde's dynamic range. This attractive print captures the natural beauty of snake skin without endangering a precious reptile. Python comes in two attractive colors which are ideal for three piece covers. Apollo is the golden python and it lends itself to earth tone colors. Hades is the black python print which complements most colors. Python, like other Concorde prints is a rayon cloth with a special paper base to assure that no glue or adhesive penetrates it's beautiful surface. Apollo and Hades are stocked in 55 yard rolls, 54 inches wide.

VELVAHYDE

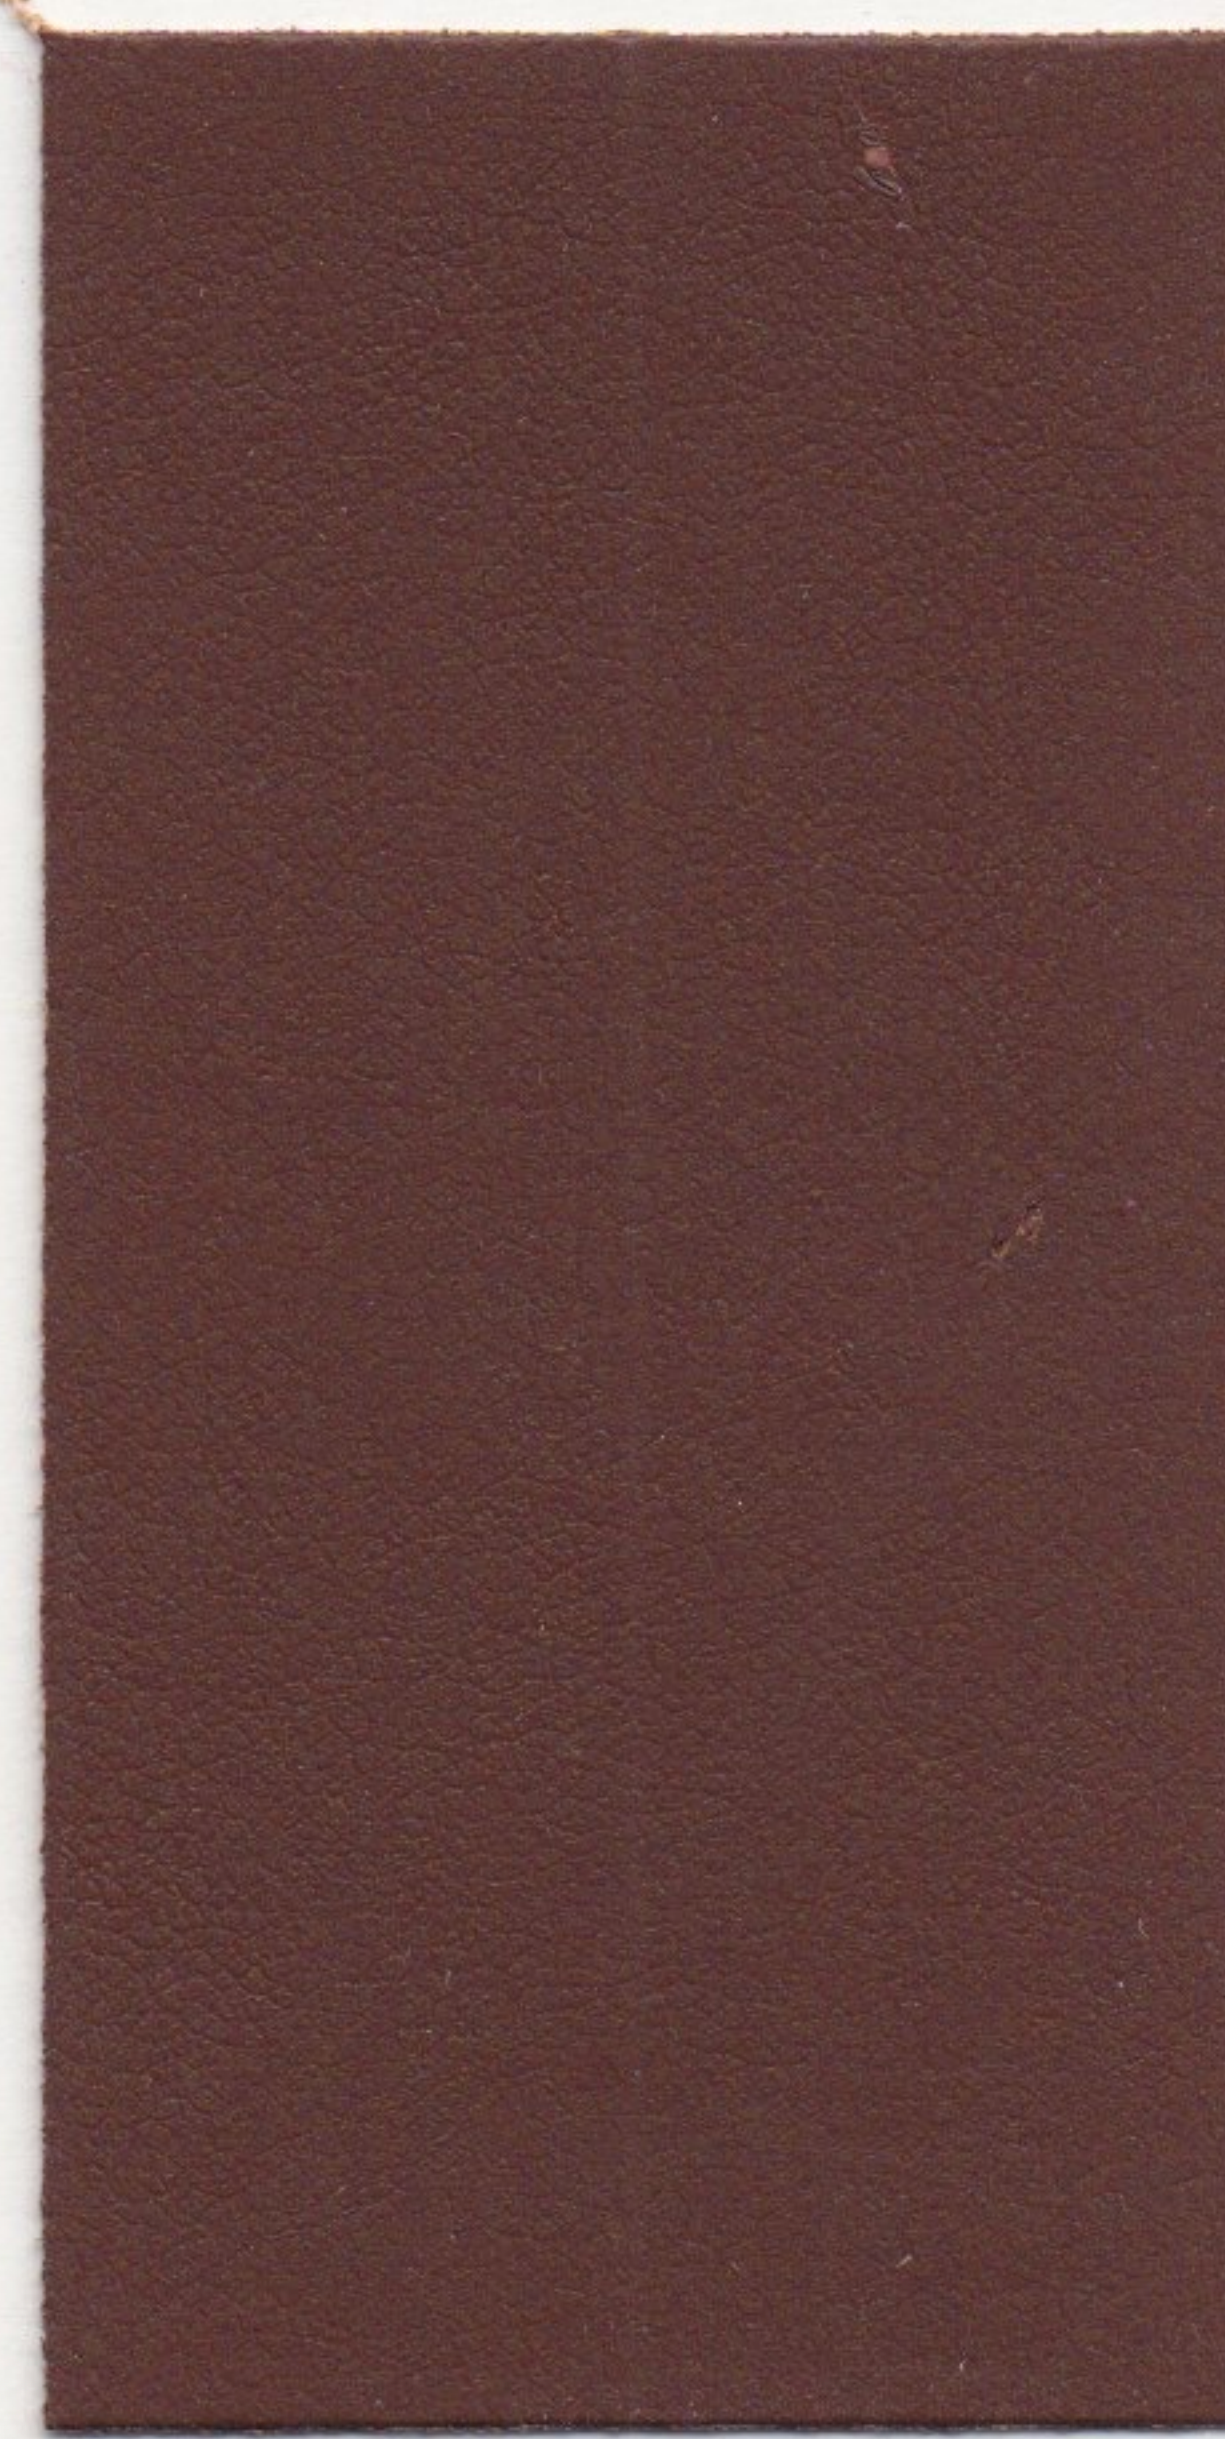

Soft and supple to the touch and a pleasure to the eye, Velvahyde is the world's superior polyurethane. Velvahyde embodies the warmth of its' Italian designers and seduces those who are lucky enough to touch its gentle skin. The velvet finish of Velvahyde conceals a strong body of durable cotton. This special combination lends itself to many applications where quality and beauty are important. Velvahyde is available in six attractive colors from our San Diego warehouse in rolls 55 inches wide, 5 yard minimums.

KANO GOAT

The Fulani People of Northern Nigeria tend their goat herds in the open savanna around the city of Kano. The goats are prized for their distinctive hides which bear a longitudinal grain. This natural grain is shown at its best through our careful tanning process. **Kano Goat** is especially suited to the quality book binder. We offer **Kano Goat** in six attractive colors indicated below. As usual we also offer the swift and courteous service that you have come to expect from Crown Rivers.

RED

GREEN

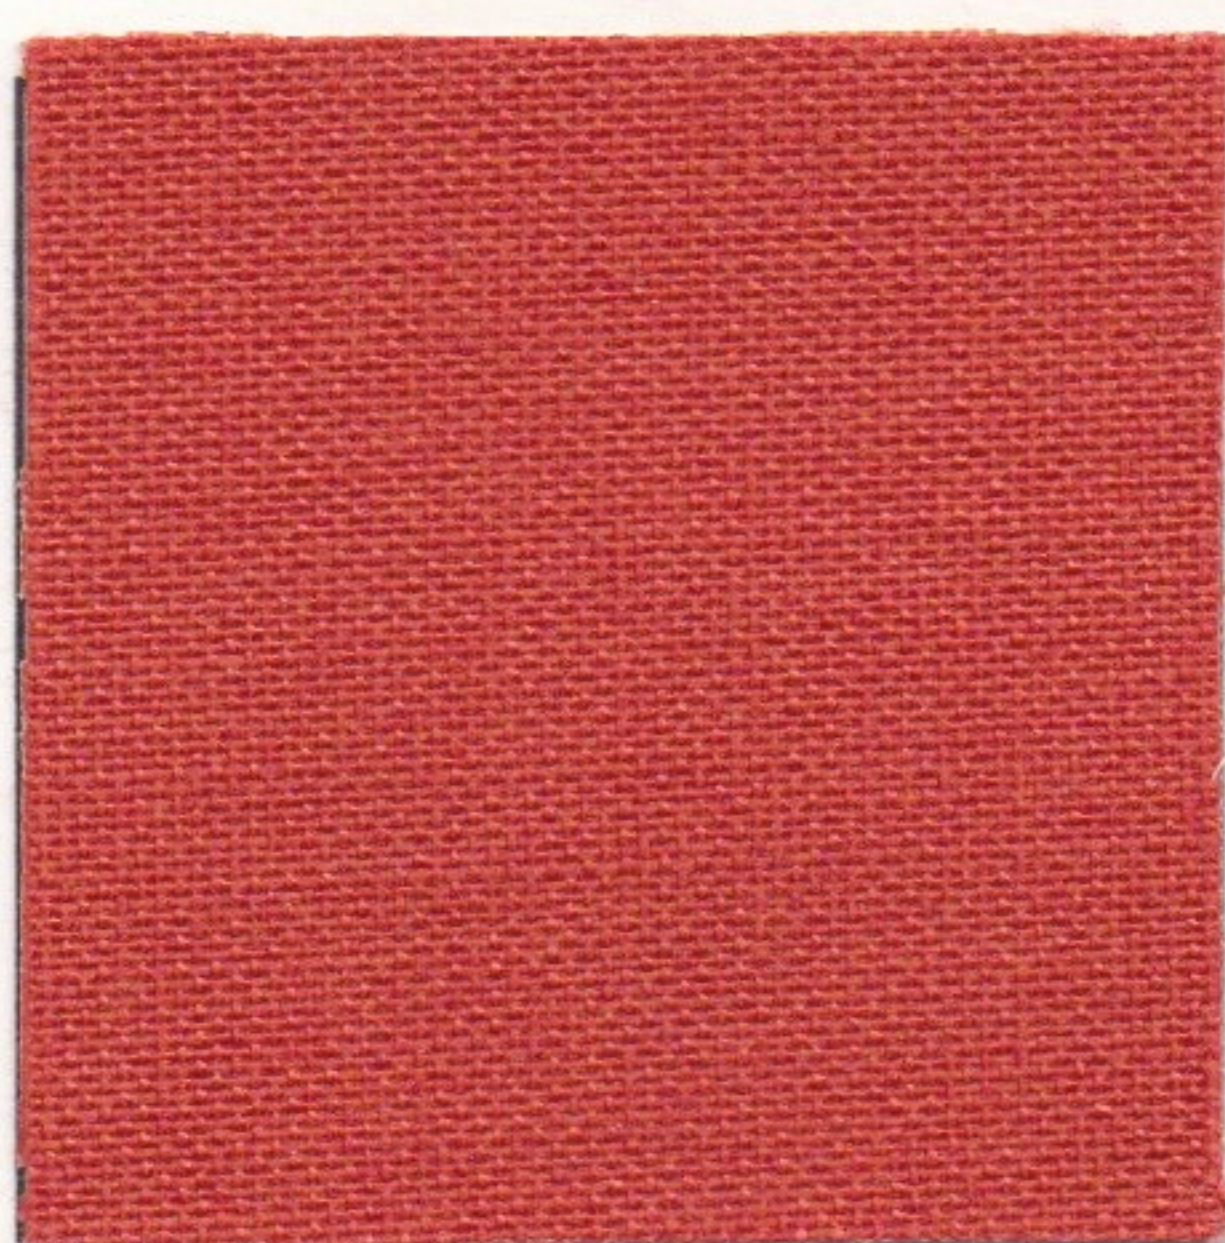

BROWN

Kano Goats are offered in a full aniline glazed finish. The skins are hand boarded to give the leather a softer feel and also a less glazed finish. The size per dozen is between 55 and 60 sq. ft. and the thickness between .75 & .8mm. The leather is vegetable tanned and of the highest quality. Special color-matches are available at 500 sq.ft. minimums and require 5 to 6 weeks order time.

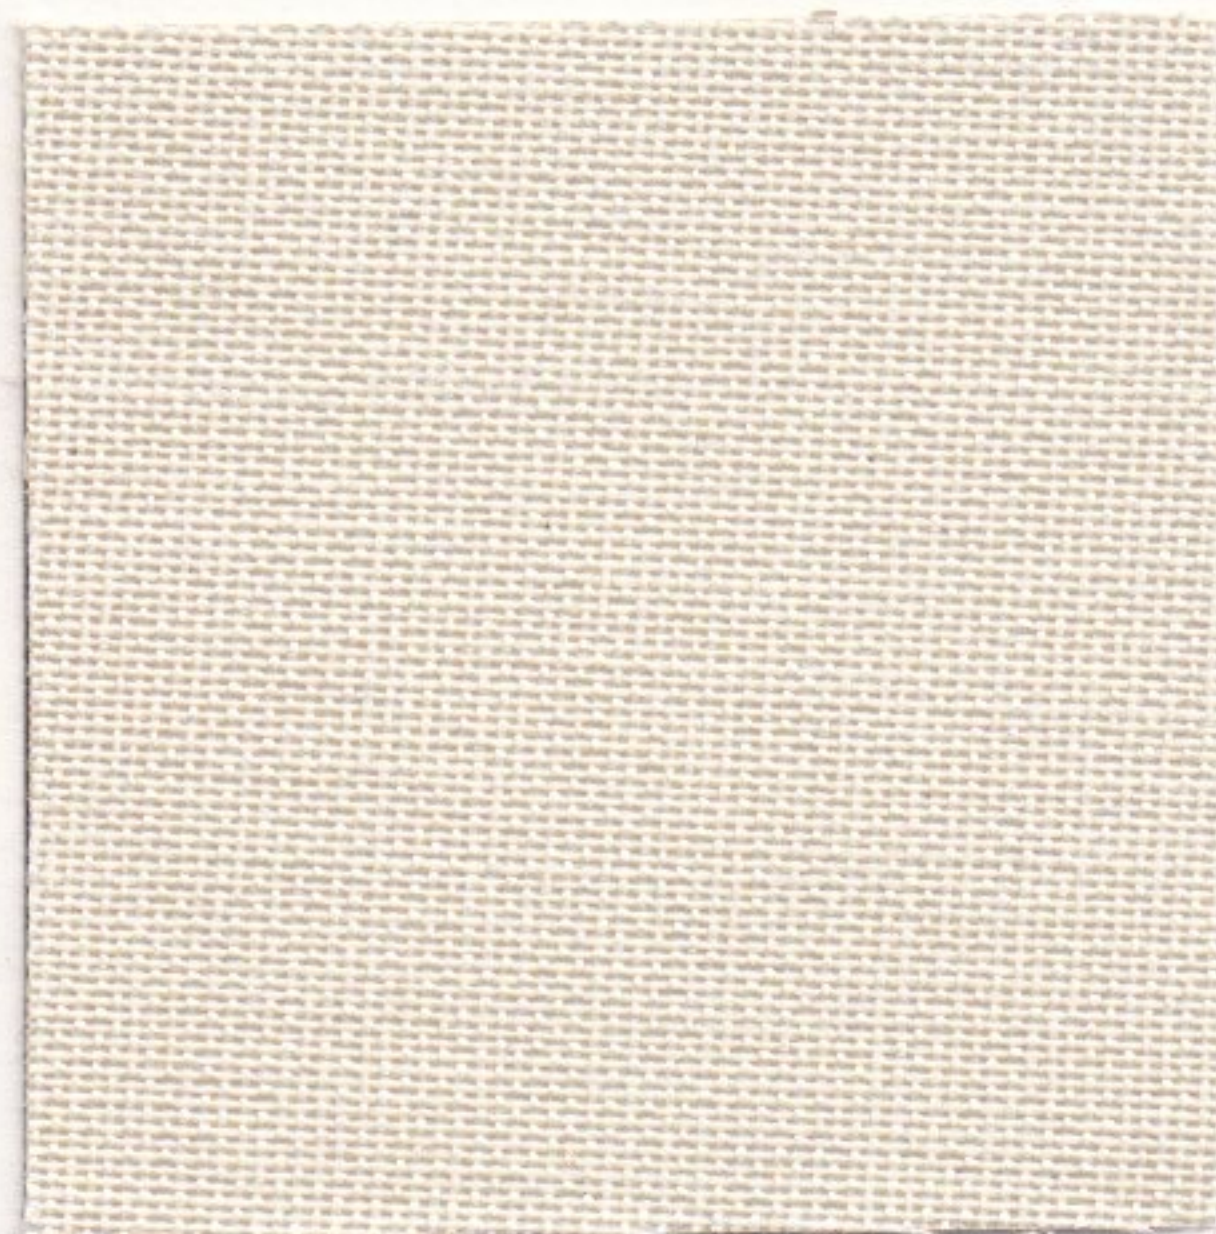

Prices are quoted F.O.B. San Diego and are subject to change without notice.

G.T.I.

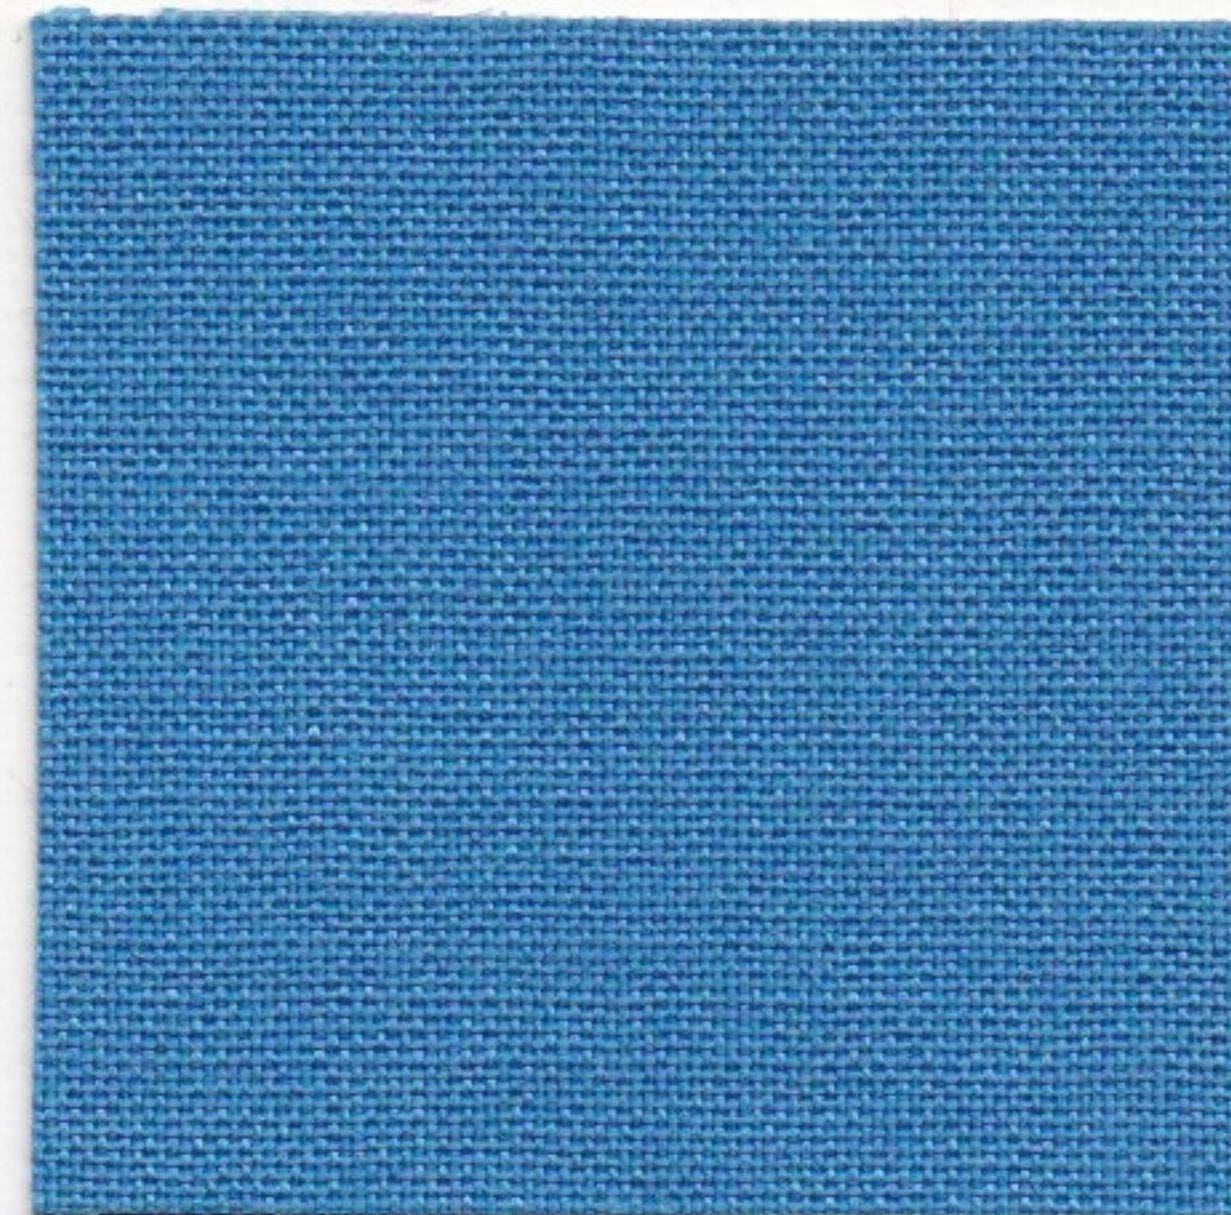

G.T.I. is a bold new bookbinding material from France. Fresh exciting colors are combined with a beautiful finish. G.T.I. is a rayon material laminated to a special lining paper which gives it it's hidden strength. The lining paper also prevents the glue from penetrating the surface. G.T.I. is available from stock in the colors below. Roll length is 55 yards, and 54 inches wide. A wider assortment of colors is available ex-factory. Catalogs available upon request.

S U R F L E X

Surflex is an attractive cork material supported on a saturated paper base from Spain. It has many applications in the stationary, book covering and desk top accessory industries. Gold stamping compliments Surflex beautifully and highlights its rich cork tones. We offer Surflex in two subtle shades; a light shade called "Sapling", and a darker tone called "Tobacco". Rolls are 27.5 inches wide and available in 55 yard lengths. Both shades of Surflex are available from our San Diego warehouse.

Please note that "Sapling" and "Tobacco" orders require minimums of 55 yards due to the reduced width size. All prices are quoted F.O.B. San Diego, California.

CONCORDE

L e o p a r d

Concorde is the distinctive book covering material from France. Leopard represents just one design within Concorde's dynamic range. This attractive print captures the natural beauty of an exotic skin without endangering a precious animal. Leopard is ideal for earth-tone combinations on three piece covers. Match the print to a brown or tan and see for yourself. Leopard, like other Concorde prints is a rayon cloth with a special paper base to assure that no glue or adhesive penetrates it's beautiful surface.

Leopard is stocked in 55 yard rolls, 54 inches wide.
