

ACME #706 BINDER

A sturdy stapling machine capable of large scale production work. The design of the machine and its long reach of twelve inches make the handling of large and small work equally simple. Equipped for both saddleback and flat work with an instantly rotating table.

CHANGE INSTANTLY!

From Flat to Saddleback:

One table does both jobs! Simply give a half turn to a readily accessible screw, flip over the work table, take up the half turn and you're ready for saddleback or flat binding.

Work table stays right on the stapler. No need to remove and replace.

Quickly adjustable guide (not illustrated) is furnished with flat side. Provides gauged, neat binding.

This dual purpose work table is also available on Models 731 and 707.

Acme Model 706 Uses the Following Staples:

Series 465 (Med. Wire)			Series 462 (Fine Wire)		
465251	1/4"	Leg	462151	1/4"	Leg
465252	5/16"	Leg			
465153	3/8"	Leg	462152	5/16"	Leg
465155	1/2"	Leg			
465156	9/16"	Leg	462153	3/8"	Leg

Your Acme No. 706 Binder provides you with a portable stapler capable of a large variety of work with a minimum of time lost in making change-overs from one job to another.
