CYLINDER CUTTING AND CREASING JACKETS FORMED ONLY

Inasmuch as these jackets vary in design depending upon the conversion, prices on jackets complete with bars, bends and holes are furnished on application. Bar-Plate has exceptional facilities to completely fabricate jackets. Many companies have found it more economical to have their cylinder jackets completely fabricated at Bar-Plate. The following prices are for curved jackets without bars, bends or holes.

.050" to .079"	\$.135 per square inch
.080" to .086"	.145 per square inch
.087" to .094"	.15 per square inch
.095" to .130"	.16 per square inch

Figure area of jacket in full length and width. Use next larger inch-size when fractions exist.

1" I.D. pull down clamp for converted C&C presses \$15.00 each, clamp springs \$4.00 each, 1" I.D. collars \$3.50 each
