C. A. Kilger Machine Works, Inc.
1155 Folsom Street
San Francisco, California 94103

Gentlemen:

We are very interested in increasing the sales of our products in your area. Many of the printers that you are calling on are diecutting and therefore, they have need not only for diecutting jackets, and cutting and creasing plates, but also for make-ready tape, counterboard (plain, adhesive, and kraft-back), pressure sensitive double coated tape, stripping tools, etc.

Anything we can do to help you in your sales effort will meet with our full cooperation.

Sincerely,

B. M. Polayes
The Bar-Plate Manufacturing Company
