

3-Aug 79,

Dear Stella,

Thanks for samplers. I feel  
a lighter weight substance 20,  
& Laid only comes in white so  
strathmore Bond Fluorescent  
White 'Laid cockle, sub. 20'.

28" x 34" long grain  
would give us 2 sections from each  
sheet, (sections measuring  $8\frac{3}{4} \times 7$ ")  
500 sheet Ream would equal 1,000 sections  
25 sections per book = 40 books.  
3 bks for 13 people 1 for waste.  
I do not think for good dummy  
sewing one book spare per person  
is extravagant; we require other  
book per person for headband samplers  
or variations. Perhaps we should  
not order above till we are sure  
of getting vellum. Thank you for  
all you are doing, Jim Tapley

3 Aug 77

to be getting along o.k., are you in contact with him at all?

Best wishes,

Chris,

White 'Laid' Cocker, sub. 50.  
Stretthmore Bond Fluorescent

58" x 34" long grain

would give us 2 sections from each sheet. (sections measuring 8 3/4" x 7")

500 sheet Reams would equal 1000 sections  
22 sections per book = 40 books.

3 bks for 13 people 1 for waste.  
I do not think for good planning  
sewing one book spine per person

is extravagant; we require other  
book per person for handbag samples  
or variations. Perhaps we should  
not order above till we are sure  
of getting volume. Thank you for  
all you are doing. Jim Taylor
