

PATENTED BY W. G. TREVETTE

Automatic Feeder

This Machine is the most accurate and reliable Automatic Self-feeding Machine ever produced. It has only about half the number of working parts in other machines of this class, and is so simple that any one can run it.

No electricity or air pumps to get out of order, but a *positive* mechanical *paper separator* that insures the delivery of but one sheet at a time, every sheet being brought to absolute register before it is delivered to folder or press.

	PRICE	BOXING
For Printing Presses...	\$1200.00	\$8.00
