O. K. Self-Feeding Eyeletting Machine

FOOT POWER

The only machine now in the market that is adapted to all kinds of Tag, Corset, Calendar, Hat Work, and in fact any kind of work where the eyelets are to be set any distance from the edge of the work, it having a clear space of eight inches between the sets of dies and the arm of the machine for the work to be inserted. There is no other Eyeletting Machine that will take in over two inches of work.

This machine has a spring dog on end of race to keep the eyelets back, in place of the old rubber and small spring.

Is a perfect feeding machine, is sixteen inches high, sixteen inches deep, weighs only thirty pounds, and runs so easily that a child can work it, and will last for years.

Price, \$35.00 Extra roadways for any size Eyelet, \$15.00 each
