To remove "scotch tape"
equal parts Acetone + Toluol

Adhesive to use on shiny books
cloth binders.

Schwitzer # 436

with W/Typh (?)

Calcium oxide (Quick lime)

2 oz. + 1 liter distilled water
stir - let stand then decant.

This makes Calcium hydroxide

9 pH

$\frac{1}{2}$ ether } Ether rises to top. dip & tip
 $\frac{1}{2}$ Peroxide } into ether & a little of
peroxide. Roll on spots slowly.
Do this 3 or 4 times or until foxing
disappears. Some times 10 times.

Use this method to remove foxing
from photographs

Powdered leather

Paint on lightly - allow to evaporate
It darkens leather.

Acryloid 1% - Rhom. 1/2aa.
B67 or B72 in xylene 10%
less toxin

Stoddard Solvent Benzene.

In trying to remove photos
from pages, spray with
10% Formalin. This will harden
the gelatin of picture - let it dry
then soak off picture.

Spine must not be more than
1/3 of foredge.

For cloth - textile
wash in test for color first

25% glycerol 75% distilled water

rinse in distilled water

test for acid

if acid add a bit of bicarbonate
to rinse water.

? board 'homosote - treated board'
? covered by paper contact paper.

Sharon Donnan

Muddition: to remove spurs con.

Plintex - to remove

?

Bonsai - Pine

Pinching	— Spring
Heavy Pruning	Summer
Bending-wiring	Autumn - Winter
Repotting +	
Root Pruning	Spring or Autumn
Fertilizing	Spring

Soil firm to touch

Moss - green

Keep surface free of weeds, pine needles

Soil must not remain dry for long

Water in evening, surface should be well saturated + water should run out of the drain hole.

Spray or set container in pan of water until soil is saturated

Feeding - any good commercial plant food. Best to overdilute. Not on leaves or needles.

lots

non adhesive bindings +

1 1/2 to 2 hrs for binding

Portulac paper 300 Rough

3am paper from Holland

?

Sony - Concentric fly - paste down?
