

I would not permit turpentine.  
A tapped forest is ugly. At  
night it looks like a grave-  
yard.

Of course you have my support.  
I can not say what the Govern-  
ment might ultimately do in  
the way of purchases in the  
state. This is in the future -  
But call on me for suggestions  
and my support, just as far  
as I can give it -

Sincerely yours.

A. L. Davis
