Official guide entries from January 1931, and January, 1945. The list of officials has changed over the years but the schedule has not. The mixed train went to 3 days a week in January, 1930 and that never changed until the last day that it ran, Wednesday, October 10, 1945. Caboose #2 (the last real passenger carrying caboose) was retired and that was the end of 40 years of passenger service on the Red River and Gulf.
