

1st. Place cover on desk, picture up. Center back edge of book squarely in middle of cover so that it strikes corresponding lines, top and bottom. Now mark at the corners of the back edge, allowing  $\frac{1}{4}$  inch over. 2nd. Let back of book open and place of the book firmly against cover paper. (The corners at corners of should fall on or near corresponding lines at corners of cover.) Now allow  $\frac{1}{4}$  inch and mark each corner.

## HELP STOP THIS

"Red, hungry flames like starving wolves consume  
The forest hosts with maniacal haste,  
And leave but black, charred bones and barren waste,  
Where erstwhile sturdy trees  
Waved in their bloom."

10321

## BRING BACK OUR FORESTS

1. Fight out every fire you find or report it to someone interested enough to do so.
2. Always be careful with fire in the woods or grass.
3. Build your camp-fire safely away from living trees.
4. Cover your camp-fire with water or dirt before leaving it. Be sure your fire is out.
5. Teach others care with fire.

If you do this you will help to bring prosperity, beauty and outdoor recreation to Louisiana.
