I enjoyed talking with you today about your plans for the LEH program "Produce for Victory."

Since I have been the scholar and project director for three very successful LEH public programs concerning WW I, and WWII (Women of WW II, and. D-Day & the Battle of the Bulge) I am offering to help with your program in May 2002 .

At present I am planning another LEH funded program to celebrate the 60th anniversary of the Louisiana Maneuvers in April 2001.

Perhaps I can help you with your plans and also give a lecture or lead a discussion.
