DUCK INN

Peggy Marotta
126 Pearl Ave.

I do not know who the original owners were. I bought my house in 1984 from Mr. and Mrs. Broom from La Crecenta. They never lived here but there son lived in the apartment while he was going to college. They probably came down to get away from the heat in the summer. She was a school teacher. I loved my house at 1st sight. It had 2 bdrms. I turned one into a bathroom and added a bdrm. and completely remodeled the kitchen.

The house was built in 1937. I think who ever built it lived in the back 1st and then ~~built~~ built the house.

The "Duck Inn" came along after I found the sign in a gift store down town. After that a large selection of "ducks" started coming. I had a man carve the wooden ducks on my fence posts.
