(REVERSE)

Toronto 24th April 1837

My dear Lu,

I have received yours of 18 (Mar?) enclosing the description for George Fonger and £2- for the purpose of obtaining his Deed - Have had one search for the papers connected with his claim in the Indian Office but have not yet found them. Mr. Hepburn has promised to make a further search to day and I believe there is little doubt of our being able to have found them. (?) if he is (possible?) that the Patent in motion (forthrough?) Mr. Hepburn exchanges some (knowlledges?) to report on these Grand River claims seeing that the Council decline making any decision on them, - I have been helping them for some time past to report on the Fradenbough tract.. And have it at any rate helpse Council.. This he has several times promised (Lots?) but it yet remains on the same position.

(Hereas? Search?) be able (an?) a day or two to five Mr. Hepburn some intelligence  
Concerning his (not sure of this word)

Lewis Burwell (E?)

(Not sure of this part) very truly yours,  
James Henderson
