What users say . . .

What really counts is the experience of actual users. Our files bulge with complimentary remarks of satisfied customers. Below are just a few excerpts taken from unsolicited letters:

I never dreamed that steel could be of such quality. It is superb.

— Paul Jones, Springfield Gardens, N.Y.

I have found your company to be of the highest integrity and your tools unsurpassed.

— Orrin A. Grigsby, Maywood, Cal.

. . . When you say most other turning tools are crude in comparison with the Marples it is an understatement. You could make it read "All other makes are junk in comparison. No others are in the same league.

— Cosmos Woodworking Co., No. Prov., R.I.

I have one of your circular saws, after 100 sharpenings it is still the best I ever had.

— R. H. Money, Cincinnati, Ohio

Your catalog is a fine job of honest advertising.

— David Karasick, San Francisco, Calif.

I have been a cabinet maker for 40 years, and you have the finest tools I have used.

— Del Ebbing, Peoria, Illinois

Enclosed is another order for Swiss carving tools, I have never seen any to compare with them. I make violins with backs of aged figured maple, usually difficult to carve because of its grain, but your Swiss tools do an excellent job.

— John Kvorstek, Jr., Gary, Indiana

In recent years my opinion of most brands of woodworking tools has been considerably shaken, but I have been most satisfied with those I have obtained from you.

— Louis Massey, Geneva, N.Y.

I would like to compliment you on the excellent care and concern you have given me as a customer. I do much ordering by mail, you have given a very personal service which is lacking in many concerns.

— Dick Iverson, Anchor Point, Alaska.
