This Pocket Edition of Our Catalog Gives a  
Few of the Staple Lines of Our

Pumps and . . . . .

Hydraulic Machinery.

We have confined the description of our apparatus largely to mechanical details making them brief and concise. This information, with the tables of sizes, prices, etc., gives a comprehensive idea of the Pumps and Machinery that we manufacture.

We issue a large general Catalog covering all of our goods, and special Catalogs of Mine Pumps, Paper and Pulp Mill Pumps, Spray Pumps and apparatus for Spraying, Vacuum and Air Pumps, Ship and Bilge Pumps, besides separate circulars describing all of our different types of Pumps, any of which we will be pleased to furnish you upon application.

OUR PUMPS have a justly earned reputation for superior quality of material, excellence of workmanship and efficiency. Their general use is the best evidence we can offer that their merits have been duly recognized.

In making inquiries or orders always specify FIGURE number given in connection with each illustration.

H. E. TROTMAN.

## Goulds Cistern Suction Pump

Lift 25 feet

Long lever. Attached to revolving bearer top held in place by set screw. Cylinder with round spout having ear for holding bucket. High bolted base arranged for lead or wrought iron pipe as ordered. Trip valve to prevent freezing.

FIGURE 200

No.	Dia. Cyl.	Suction	Iron	Brass lined	Brass Cyl.
0	2 in.	1 in.	\$3.50	\$5.50	\$5.50
1	2 1/4 "	1 "	4.00	6.00	6.00
2	2 1/2 "	1 1/4 "	4.50	6.50	7.00
3	2 3/4 "	1 1/2 "	5.00	7.25	8.00
4	3 "	1 3/4 "	5.50	8.00	10.00
5	3 1/4 "	1 3/4 "	6.50	9.50	13.00
6	3 1/2 "	1 3/4 "	8.00	11.50	18.00
8	4 "	2 "	10.00	15.00	25.00

## Goulds Cistern Suction Pump

Lift 25 feet

Long lever. Attached to revolving bearer top held in place by set screw. Cylinder with brackets and round spout having ear for holding bucket. Lower attachment fitted for lead or wrought iron pipe, or both, as ordered. Trip valve, to prevent freezing.
